Government Leaders, Military Rulers and Political Activists David W. Del Testa, 2014-01-27 In each volume, an introductory essay outlines the history of the disciplines under discussion and describes how changes and innovations in these disciplines have affected our lives. The biographies that follow are organized in an A-Z format; each biography is divided into a life section describing the individual's life and influences and a legacy section summarizing the impact of that individual's work throughout history. These biographies cover a diverse group of men and women from around the globe and throughout history. Franklin Delano Roosevelt, Mao Tse-tung, and Genghis Khan are among the 200 well-known historical figures included in this volume. Examples of other lesser-known yet important individuals covered in this work are Gustavus Adolphus, Swedish empire creator; Hatshepsut, queen of ancient Egyptian dynasty; and Jean Jaurès, French socialist leader and pacifist. Each synopsis provides information on each individual's enduring impact on the common understanding of fundamental themes of human existence.

Military Rule in Latin America Karen Remmer, 2025-04-30 First published in 1989 in *Military Rule in Latin America*, Karen L. Remmer draws upon a wide variety of sources, including interviews with top government officials, to challenge prevailing interpretations of military rule. She questions the assumption that military regimes can be adequately understood in terms of their origins and shows how important variations among them reflect the roles of state actors and institutions. In the first part of the book, Remmer provides a broad overview of military rule in Latin America; in the second, a detailed case study of Chile under the Pinochet regime. She concludes by examining the implications of her findings for understanding transitions from authoritarianism and the consolidation of democracy. This groundbreaking work is essential reading for scholars and researchers of Latin American studies, political studies, and comparative politics.
