R. G. Collingwood: An Autobiography and Other Writings Robin George Collingwood, 2013-10 This volume presents a many faceted view of the great Oxford philosopher R G Collingwood At its centre is his Autobiography of 1939 a cult classic for its compelling story of his thought That work is accompanied here by previously unpublished writings by Collingwood and eleven specially written essays on aspects of his life and work *Political speeches and journalism (1923-1929)* Miguel de Unamuno, 1996 This book reprints a wide variety of articles and speeches for the first time since they appeared in Spanish and foreign journals and in clandestine broadsheets from France Some censored material has been restored Spain's 1898 Crisis Joseph Harrison, Alan Hoyle, 2000-08-12 This book examines the significance of probably the most famous year in modern Spanish culture 1898 which marked her defeat in the Spanish American War The editors have brought together 21 essays by international specialists in the field **Approaches to Teaching the Works of Miguel de Unamuno** Luis Álvarez-Castro, 2020-04-01 Offers pedagogical techniques for teaching the fiction poetry plays and philosophical works of Miguel de Unamuno in college Spanish and comparative literature classrooms including considerations of romanticism modernity Catholicism existentialism autofiction and metafiction Includes information on reference works and online resources Gives syllabus suggestions for undergraduate and graduate courses **Public Sociologies Reader** Judith Blau, Keri E. González,2019-06-06 Since the explosion of the indignados movement beginning in 2011 there has been a renewed interest in the concept of the public sphere in a Spanish context how it relates to society and to political power and how it has evolved over the centuries The Configuration of the Spanish Public Sphere brings together contributions from leading scholars in Hispanic studies across a wide range of disciplines to investigate various aspects of these processes offering a long term panoramic view that touches on one of the most urgent issues for contemporary European societies Community Intervention Jan Marie Fritz,Jacques Rhéaume,2014-08-19 Community Intervention Clinical Sociology Perspectives showcases important efforts to improve the quality of life in communities around the world The book a project of the clinical sociology division of the International Sociological Association describes the interdisciplinary field of clinical sociology in relation to community improvement The first part of the book covers important concepts and tools for community intervention and identifies a variety of approaches to community research with an emphasis on research that centrally involves community members The chapters in the second part of the volume focus on projects in a broad range of countries covering topics such as involving residents in urban renewal projects developing healthy communities encouraging socioeconomic development improving the life of immigrants helping communities deal with climate change establishing human rights cities encouraging empowerment and creating an inclusive community A unique feature of the book is the inclusion of profiles about some of the outstanding work in community intervention over the last 100 years These profiles are of Nobel Peace Prize winner Jane Addams community activist Saul Alinsky human rights and environmental activist Wangari Maathai and participatory action research pioneer Orlando Fals Borda Written by scholar practitioners as well as analysts the book provides essential commentary regarding community intervention efforts *Human Rights* Judith Blau,Alberto Moncada,2015-12-03 In an era of globalization and greater connectivity human rights have come to the fore Human rights depend on treaties but also increasingly on local and national laws and grassroots activism The authors provide a basic introduction to human rights and they unveil long standing yet intensifying obstacles to attaining them most notably the opposing logics of capitalism and of solidarity and collective struggles They suggest ways to overcome these contradictions and create greater participation by the U S in the international community **Miguel de Unamuno o La creación del intelectual español moderno** Stephen G. H. Roberts,2007-01-01 British Bulletin of Publications on Latin America, the Caribbean, Portugal and Spain ,1994 **Freedoms and Solidarities** Judith R. Blau,Alberto Moncada,2007 Much has been written about growing global disparities in wealth and resources how global capitalism has adversely affected human populations and the environment and the dangers that a unipolar world order poses to peace and global pluralism After summarizing the evidence for these arguments the authors develop two main themes first that there is a growing transformative peoples movement that challenges global capitalism and the imperial superpower and second there is an extraordinary worldwide shift underway in human consciousness that accompanies practical global interdependencies and

connectedness The authors provide evidence for an emerging foundation of what philosopher Peter Singer describes as a one world ethic and they show how this ethic is closely connected with what is called the human rights revolution They compare the western liberal conception of freedom with conceptions of freedom found in the writings of Jean Paul Sartre and Amartya Sen and draw from Hannah Arendt s The Human Condition to clarify that freedom has both collective and individual dimensions They build on these foundations to address the following topics positive human rights collective goods cosmopolitanism social and cultural pluralism and they pose alternatives to capitalism and liberal democracy The authors work in the tradition of critical social science but go beyond that to encourage readers to engage in emancipatory projects and utopian thinking The worlds peoples face too many terrifying prospects not to engage such projects and thinking
