Theory of the Political Subject Sergei Prozorov, 2013-11-07 Together these two companion volumes develop an innovative theory of world politics grounded in the reinterpretation of the concepts of world and politics from an ontological perspective Theory of the Political Subject continues the project of reconstruction of political universalism begun in Ontology of World Politics Having redefined world politics in terms of the affirmation of the universal ontological axioms of freedom equality and community in an infinite multiplicity of particular situations or worlds in this book Prozorov focuses on the way this affirmation is actually practiced analysing the conditions for the emergence within a world of the subject of its radical transformation Drawing on the contemporary reassessment of the notion of the subject in continental political thought particularly the work of Alain Badiou Prozorov defines the political subject in terms of one's subtraction from the positive order of one's world the weakening of one's particular identity that makes possible one's participation in the affirmation of the universal The book proceeds with outlining the path of the political subject within its world from the point of its inception to its confrontation with ethical epistemic and other limits to its activity This account of the subjective aspect of world politics also offers new and stimulating perspectives on such key issues of political theory as the relation of politics to human nature the role of violence in politics and the conditioning of politics by philosophical or scientific knowledge Systematic and accessible these works will be key reading for all students and scholars of political science and international relations

The Political Philosophy of Judith Butler Birgit Schippers, 2014-04-03 Judith Butler can justifiably be described as one of the major critical thinkers of our time While she is best known for her interventions into feminist debates on gender sexuality and feminist politics her focus in recent years has broadened to encompass some of the most pertinent topics of interest to contemporary political philosophy Drawing on Butler's deconstructive reading of the key categories and concepts of political thought Birgit Schippers expounds and advocates her challenge to the conceptual binaries that pervade modern political discourse Using examples and case studies like the West's intervention in Iraq and Afghanistan and in relation to the Israeli Palestinian conflict Schippers demonstrates how Butler's philosophically informed engagement with pressing political issues of our time elucidates our understanding of topics such as immigration and multiculturalism sovereignty or the prospect for new forms of cohabitation and citizenship beyond and across national boundaries A detailed exposition and analysis of Butler's recent ideas championing her efforts at articulating the possibilities for radical politics and ethical life in an era of global interdependence this book makes an important contribution to the emerging field of international political philosophy

Mukhopadhyay,2023-10-16 This book discusses postpositivist theories foregrounding postpositivism against the reigning realist and positivist pluralist orthodoxies The book explicates seven theories not as disparate endeavours but as developments linked by a common thread that seeks to enunciate globalist emancipatory goals for the theoretical field and the world that these theories seek to change It focuses on the following themes feminism environmentalism or green theory the English School critical theory constructivism postmodernism and postcolonialism Additionally a separate chapter on globalization shows that while mainstream neo realist international relations theories respond hostilely to globalization and liberal pluralist theories react benignly to it postpositivist theories positively welcome it The book offers a competent meta theoretical gridwork showing on which side of the opposing disciplinary positions in the fourth debate each of the seven theories are located It is a comprehensive guide to the postpositivist restructuring of the discipline of international relations This book will be of interest to researchers and students of political science international relations history humanities and literature

Political Responsibility for a Globalised World Ernst Wolff, 2014-04-15 The aim of this book is to reflect on the complex practice of responsibility within the context of a globalised world and contemporary means of action Levinas exploration of the ethical serves as point of entry and is shown to be seeking inter cultural political relevance through engagement with the issues of postcoloniality and humanism Yet Levinas fails to realise the ethical implications of the inevitable instrumental mediation between ethical meaning and political practice With recourse to Weber Apel and Ricoeur Ernst Wolff proposes a theory of strategic co responsibility for the uncertain global context of practice

Ethnicity and Intra-State Conflict Håkan Wiberg, Christian P. Scherrer, 2018-12-21 Published in 1999 this text examines domestic wars looking at inter state relations only in as far as they are directly relevant to understand such wars The book aims to indicate how intra state war differs from the inter state war and focuses primarily on such domestic armed conflicts that at least have significant ethnonational components The book assesses how heterogeneous a category ethnic conflict is in terms of causes and consequences and gauges the complex interplay between class regionalism and ethnicity It is not limited to description and causal analysis but also attempts to assess suggestions as to what types of actors may contribute in what ways to avoiding ethnonational mobilization polarization avoiding militarization of manifest conflicts and de escalating militarized conflicts by looking for tenable generalizations on what types of approaches are fruitful in bringing about de escalation ceasefires political compromises peaceful division or peaceful integration reconciliation

The Reject Irving Goh, 2014-10-15 This book proposes a theory of the reject a more adequate figure than the subject for thinking friendship love community democracy the postsecular and the posthuman Through close readings of Nancy Deleuze Derrida Cixous Clement Bataille Balibar Ranciere and Badiou Goh shows how the reject has always been nascent in contemporary French thought The recent turn to animals and bare life as well as the rise of the Occupy movement he argues presents a special urgency to think the reject today Thinking the reject most importantly helps to advance our commitment to affirm others without acculturating their differences But the reject also offers Goh proposes a response finally commensurate with the radical horizon of Nancy s question of who comes after the subject

Violent Fraternity Shruti Kapila, 2024-12-10 A groundbreaking history of the political ideas that made modern India Violent Fraternity is a major history of the political

thought that laid the foundations of modern India Taking readers from the dawn of the twentieth century to the independence of India and formation of Pakistan in 1947 the book is a testament to the power of ideas to drive historical transformation Shruti Kapila sheds new light on leading figures such as M K Gandhi Muhammad Iqbal B R Ambedkar and Vinayak Savarkar the founder of Hindutva showing how they were innovative political thinkers as well as influential political actors She also examines lesser known figures who contributed to the making of a new canon of political thought such as B G Tilak considered by Lenin to be the fountainhead of revolution in Asia and Sardar Patel India s first deputy prime minister Kapila argues that it was in India that modern political languages were remade through a revolution that defied fidelity to any exclusive ideology The book shows how the foundational questions of politics were addressed in the shadow of imperialism to create both a sovereign India and the world s first avowedly Muslim nation Pakistan Fraternity was lost only to be found again in violence as the Indian age signaled the emergence of intimate enmity A compelling work of scholarship Violent Fraternity demonstrates why India with its breathtaking scale and diversity redefined the nature of political violence for the modern global era

The Caste Question Anupama Rao,2009-10-13 This innovative work of historical anthropology explores how India s Dalits or ex untouchables transformed themselves from stigmatized subjects into citizens Anupama Rao s account challenges standard thinking on caste as either a vestige of precolonial society or an artifact of colonial governance Focusing on western India in the colonial and postcolonial periods she shines a light on South Asian historiography and on ongoing caste discrimination to show how persons without rights came to possess them and how Dalit struggles led to the transformation of such terms of colonial liberalism as rights equality and personhood Extending into the present the ethnographic analyses of The Caste Question reveal the dynamics of an Indian democracy distinguished not by overcoming caste but by new forms of violence and new means of regulating caste

Rethinking Modern European Intellectual History Darrin M. McMahon, Samuel Moyn,2014-01-14 Modern European intellectual history is thriving as never before It has recovered from an era in which other trends like social and cultural history threatened to marginalize it But in spite of enjoying a contemporary renaissance the field has lost touch with the tradition of debating why and how to study ideas and thus lacks both a well articulated set of purposes and a range of arguments for exactly what it means to pursue those purposes This volume revives that tradition Recalling past attempts to showcase the diversity and differentiation of modern European intellectual history this volume also documents how much has changed in recent decades Some authors are much readier to defend a history of ideas practiced over the long term once the defining sin of the field Others go so far as to insist on how ideas are always open to reappropriation and reevaluation beyond their original contexts suggesting that it is an error to reduce the ideas to those contexts Others still argue that under threat from trends like social history intellectual historians have forsaken any attempt to resolve for themselves how ideas are socially embodied The volume also registers old and new trends in history that have affected the study of ideas including the history of science the history of academic

Adorno on Politics after Auschwitz Gary A. Mullen,2015-12-30 In the minds of many critical theorists Theodor W Adorno epitomizes the failure of critical theory to provide any concrete guidance for political practice His name is almost synonymous with the retreat of the progressive intellectual from the creeping totalitarianism of contemporary mass democracy This book endeavors to disrupt this misconception by offering a close reading of Adorno s philosophical confrontation with the Holocaust and the modern conceptions of history morality and subjectivity that are complicit in genocide By rethinking the relationship between reason and remembrance morality and materiality mimesis and political violence Adorno s work offers not only incisive criticism of modern political ideas and institutions it also shows us intimations of a different political practice **Makers of Worlds, Readers of Signs** Kfir Cohen Lustig,2019-09-03 A sweeping new theory of world literature through a study of Palestinian and Israeli literature from the 1940s to the present Makers of Worlds Readers of Signs charts the aesthetic and political formation of neoliberalism and globalisation in Israeli and Palestinian literature from the 1940s to the present By tracking literature s move from making worlds to reading signs Cohen Lustig proposes a new way to read and theorise our global contemporary Cohen Lustig argues that the period of Israeli statism and its counterpart of Palestinian statelessness produced works that sought to make and create whole worlds and social time from the creation of the new state of Israel to preserving collective visions of Palestinian statehood During the period of neoliberalism after 1985 in Israel and the 1993 Oslo Accords in Palestine literature turned to the reading of signs where politics and history are now rearticulated through the private lives of individual subjects Here characters do not make social time but live within it and inquire after its missing origin Cohen Lustig argues for new ways to track the subjectivities and aesthetics produced by larger shifts in production In so doing he proposes a new model to understand the historical
