Population Bulletin Of The United Nations No 33 No 33 1992:

The Demography of South Africa Tukufu Zuberi, Amson Sibanda, Eric O. Udjo, 2016-07-22 This groundbreaking study of South Africa provides a unique look at the interplay of demographic social and economic processes in a society undergoing rapid change as a result of the collapse of apartheid. It uses data from the first post apartheid census as the basis for analysis of fertility mortality within the context of HIV AIDS migration education employment and household structure. These census data are complemented by large scale household surveys and data from a partial registration system to study the relationships among various demographic economic and social phenomena. For the first time the demographic consequences of both the longer term impact of apartheid policies and the policies of the new South Africa are examined and compared. This comprehensive reference links the demographic behavior of South Africa's various population groups to social economic and political inequalities created by policies of separate and unequal development. Prepared under the auspices of the Population Studies Center at the University of Pennsylvania it is an essential resource for all scholars and practitioners in the field.

The 1999 Population & Housing Census: The population dynamics of Kenya : analytical report, 2001

The Methods and Materials of Demography Henry S. Shryock, Jacob S. Siegel, Elizabeth A. Larmon, 1975 *Aging and Society* Matilda White Riley, Marilyn Johnson, Anne Foner, 1972-03-15 Represents the first integrated effort to deal with age as a crucial variable in the social system. Of special interest to sociologists for whom the sociology of age seems destined to become a special field.

Demography: Analysis and Synthesis, Four Volume Set Graziella Caselli, Jacques Vallin, Guillaume Wunsch, 2006-01-03 This four volume collection of over 140 original chapters covers virtually everything of interest to demographers sociologists and others. Over 100 authors present population subjects in ways that provoke thinking and lead to the creation of new perspectives not just facts and equations to be memorized. The articles follow a theory methods applications approach and so offer a kind of one stop shop that is well suited for students and professors who need non technical summaries such as political scientists public affairs specialists and others. Unlike shorter handbooks *Demography Analysis and Synthesis* offers a long overdue thorough treatment of the field. Choosing the analytical method that fits the data and the situation requires insights that the authors and editors of *Demography Analysis and Synthesis* have explored and developed. This extended examination of demographic tools not only seeks to explain the analytical tools themselves but also the relationships between general population dynamics and their natural economic social political and cultural environments. Limiting themselves to human populations only the authors and editors cover subjects that range from the core building blocks of population change fertility mortality and migration to the consequences of demographic changes in the biological and health fields population theories and doctrines observation systems and the teaching of demography. The international perspectives brought to these subjects is vital for those who want an unbiased rounded overview of these complex multifaceted subjects. Topics to be covered: Population Dynamics and the Relationship Between Population Growth and

Structure The Determinants of Fertility The Determinants of Mortality The Determinants of Migration Historical and Geographical Determinants of Population The Effects of Population on Health Economics Culture and the Environment Population Policies Data Collection Methods and Teaching about Population Studies All chapters share a common format Each chapter features several cross references to other chapters Tables charts and other non text features are widespread Each chapter contains at least 30 bibliographic citations **UNDOC, Current Index** ,1996 **Economic Development E.** Wayne Nafziger,2006 In this fourth edition of his textbook E Wayne Nafziger analyzes the economic development of Asia Africa Latin America and East Central Europe This comprehensive and clearly written text explains the growth in real income per person and income disparities within and between developing countries The author explains the reasons for the fast growth of Pacific Rim countries Brazil Poland and recently India and the increasing economic misery and degradation of large parts of sub Saharan Africa The book also examines China and other post socialist economies as low and middle income countries without however overshadowing the primary emphasis on the third world The text is replete with real world examples The exposition emphasizes the themes of poverty inequality unemployment the environment and deficiencies of people in less developed countries The guide to the readings through bibliography and websites with links to development resources makes the book useful for students writing research papers **HMSO Agency Catalogue 1992** Great Britain. HMSO.,1993 The Global Spread of Fertility Decline Jay Winter,Michael Teitelbaum,2013-06-18 DIV The world s population has grown by five billion people over the past century an astounding 300 percent increase Yet it is actually the decline in family size and population growth that is the issue attracting greatest concern in many countries This eye opening book looks at demographic trends in Europe North America and Asia areas that now have low fertility rates and argues that there is an essential yet often neglected political dimension to a full assessment of these trends Political decisions that promote or discourage marriage and childbearing facilitate or discourage contraception and abortion and stimulate or restrain immigration all have played significant roles in recent trends div **HIV/AIDS and Work** ,2006 Provides estimates by the ILO of the impact of HIV and AIDS on the labour force men and women of working age youth and children *World at the Crossroads* Philip B. Smith,Samuel E. Okoye,Jaap de Wilde,Priya Deshingkar,2013-11-05 Thirty years ago the Russell Einstein Manifesto warned humanity that our survival is imperilled by the risk of nuclear war In the spirit of that Manifesto we now call on all scientists to expand our concerns to a broader set of interrelated dangers destruction of the environment on a global scale and denial of basic needs for a growing majority of humankind The Dagomys Declaration 1988 of the Pugwash Council Originally published in 1994 Handbook of Population Dudley L. Poston,Michael Micklin,2006-04-26 This comprehensive handbook provides an overview and update of the issues theories processes and applications of the social science of population studies The volume s 30 chapters cover the full range of conceptual empirical disciplinary and applied approaches to the study of demographic phenomena This book is the first effort to assess the entire field since Hauser and

Duncan's 1959 classic *The Study of Population* The chapter authors are among the leading contributors to demographic scholarship over the past four decades They represent a variety of disciplines and theoretical perspectives as well as interests in both basic and applied research

Social Security for the Elderly S. Irudaya Rajan, 2014-07-16 This book overviews the issue of population ageing in five countries in South Asia and projects the emerging scenarios With a new field survey it also documents existing policies and programs on pensions and social security and examines their fiscal implications for the economy and society Ageing of population is an inevitable consequence of the process of demographic transition Being ahead the developed regions of the world have long experienced its consequences but the developing world is only now facing the travails of population ageing Though the population under the age of 15 years in 2000 was estimated to be 3.3 times the size of the population of 60 years and above the elderly are expected to surpass the number of children under 15 years by the year 2050 Among the elderly it is the oldest old those aged 80 years or more whose numbers would increase most rapidly Much of this growth would take place in the poor countries of the world Five South Asian countries India Pakistan Bangladesh Sri Lanka and Nepal account for 100 million elderly persons in the beginning of 21st century and it is expected to reach 400 million in 2050 What are the fiscal implications of this tremendous growth for sustaining pensions and social security schemes in South Asia Are these countries in need of pension reforms Would these countries be able to provide good health care for the growing population of elderly persons afflicted by multiple diseases and disability Experts from leading economic research institutions address the issue with a new survey conducted in each country The book in effect Assesses the ageing scenario in five countries in South Asia past present and future Reviews existing policies and programs on pensions and social security for the elderly Reports the findings of a sample survey in each of these countries conducted for this work in order to assess the nature magnitude and adequacy of various forms of pensions and social assistance Suggests broad based comprehensive pension and social security policies in South Asia
