Porsche In Motorsport Fifty Years On Track:

Porsche 911: 50 Years Randy Leffingwell, 2013-10-20 In Porsche 911 50 Years bestselling author Randy Leffingwell celebrates a half century of one of the world's premiere sports cars focusing on the major themes that have defined Porsche's rear-engined wonder. Randy tells the whole story: design and development, racing and competition, engineering and technology, style and culture. All the iconic 911 models are included: the original 901 prototype that set the standard, the legendary RS models that made the little Porsche a dominant force on the world's racetracks, the infamous Turbo, the car that kept the performance flame alight during the dark, dismal decade of the 1970s, the fabled 959, the model that redefined the term sports car, the 993, last of the original air-cooled models, and the 996, 997, and 991, the liquid-cooled cars that brought the 911 into a new millennium. Beyond telling the story of the cars, Porsche 911 50 Years also spotlights the people behind them: Ferdinand Butzi Porsche, the son of legendary Porsche founder Ferdinand Ferry Porsche, who co-designed the instantly recognizable 911 shape; Peter W. Schutz, the Porsche CEO who saved the 911 from extinction; and Dr. Helmuth Bott, the engineering genius behind many of the groundbreaking technologies that have defined the 911, including fuel injection, turbocharging, and all-wheel drive. Leffingwell also tells the story of the 911 community, the clubs and culture that surround the car. Together, all of these facets make Porsche 911 50 Years the most essential book in any Porsche owner or fan's library. [Subject Guide to Books in Print](#), 2001

Fifty Years with Car and Driver Marty Padgett, 2005-10 50 Years with Car and Driver commemorates the golden anniversary of the most popular car magazine on the planet. But more than that, 50 Years with Car and Driver tells the story of the American automobile and how the editors of the magazine witnessed that history and reported on it firsthand. A look at how Car and Driver evolved from its beginnings as Sports Cars Illustrated in the able hands of great automotive journalists such as Ken Purdy and John Christy and then came into its own as the muscle car era of the Sixties dawned. Writers such as David E. Davis Jr., Brock Yates, and Patrick Bedard helped to craft a literary car magazine that drew as much inspiration from Tom Wolfe's writing as it did from the great cars of the day. Through the Seventies, the magazine's reputation solidified as the technical authority on new cars, and the literary tradition continued with such writers as Don Sherman and author P. J. O'Rourke. Throughout the Eighties, the magazine prospered even when its writers went off the deep end, literally getting stranded in Mexico during a Baja comparison test. Car and Driver watched over the virtual rebirth of the American car during that decade with the renaissance at Ford through the Taurus and the revival of the Corvette while keeping its lock on the strongest feature writing in the auto magazines with stories like Brock Yates's thirty years past observance of the death of James Dean. The Nineties saw Car and Driver continue its leadership as the world's largest-selling automotive magazine. From the introduction of the Acura NSX and the Mazda Miata to the brand-new Mustangs and Corvettes that have come in just the past years, Car and Driver has been the authority that readers trust when it comes to 0-60 times, road tests, and reviews. Fifty Years with Car and Driver combines classic stories from the magazine, commentary by former staffers,

including the author vintage and modern photos of the hottest and most important cars reviewed by the magazines as well as stories from behind the scenes with all the attitude expertise and visual excitement readers have come to expect from the magazine itself
