Portraits In Conservation Eastern And Southern Africa:

Portraits in Conservation Elisabeth Braun, 1995 Biographical portraits of people engaged in nature conservation including several Namibians or people engaged in Namibia *Securing Wilderness Landscapes in South Africa* Harry Wels, 2015-05-12 Private wildlife conservation is booming business in South Africa Nick Steele stood at the cradle of this development in the politically turbulent 1970s and 1980s by stimulating farmers in Natal now KwaZulu Natal to pool resources in order to restore wilderness landscapes but at the same time improve their security situation in cooperative conservancy structures His involvement in Operation Rhino in the 1960s and subsequent networks to save the rhino from extinction brought him into controversial military oriented networks around the Western world The author's unique access to his private diaries paints a personal picture of this controversial conservationist ***African Wild Life*** ,1996

International Journal of Wilderness ,2001 ***Photography and History in Colonial Southern Africa*** Lorena Rizzo, 2019-09-16 This book studies the relationship between photography and history in colonial Southern Africa using a series of encounters with Southern African photographic archives to reflect on photography as a distinct historical form Through use of private and public archives images produced by African itinerant photographers white settlers and colonial state institutions this book explores the relationship between photography and history in colonial Southern Africa Late nineteenth century Cape Colonial prison albums police photographs from German Southwest Africa African studio portraits identity documents travel permits and passports from the 1920s and 1930s visual studies of whiteness and blackness authored by settler photographers South African dompas photographs from the 1950s and 1960s and aerial photography from the Eastern Cape in the mid twentieth century are examined to highlight the ways in which photographic images cut across conventional institutional boundaries and complicate rigid distinctions between the private and the public the political and the aesthetic the colonial and the vernacular or the subject and the object Photography and History in Colonial Southern Africa argues that rather than understanding photographs as a means of preserving and recreating the past in the present we can value them for how they evoke at once the need for and the limits of historical reconstruction This book will be of interest to students and scholars of colonial history photographic history visual media and African studies ***The Oxford Handbook of the Archaeology and Anthropology of Rock Art*** Bruno David, Ian J. McNiven, 2018-10-17 Rock art is one of the most visible and geographically widespread of cultural expressions and it spans much of the period of our species existence Rock art also provides rare and often unique insights into the minds and visually creative capacities of our ancestors and how selected rock outcrops with distinctive images were used to construct symbolic landscapes and shape worldviews Equally important rock art is often central to the expression of and engagement with spiritual entities and forces and in all these dimensions it signals the diversity of cultural practices across place and through time Over the past 150 years archaeologists have studied ancient arts on rock surfaces both out in the open and within caves and rock shelters and

social anthropologists have revealed how people today use art in their daily lives The Oxford Handbook of the Archaeology and Anthropology of Rock Art showcases examples of such research from around the world and across a broad range of cultural contexts giving a sense of the art's regional variability its antiquity and how it is meaningful to people in the recent past and today including how we have ourselves tended to make sense of the art of others replete with our own preconceptions It reviews past present and emerging theoretical approaches to rock art investigation and presents new cutting edge methods of rock art analysis for the student and professional researcher alike [Colorado Libraries](#) ,1997

Rock Art and Regional Identity Jamie Hampson,2016-06-16 Why did the ancient artists create paintings and engravings What did the images mean This careful study of rock art motifs in the Trans Pecos area of Texas and a small area in South Africa demonstrates that there are archaeological and anthropological ways of accessing the past in order to investigate and explain the significance of rock art motifs Using two disparate regions shows the possibility of comparative rock art studies and highlights the importance of regional studies and regional variations This is an ideal resource for students and researchers **Africa** ,1997 This indispensable tool provides a breadth and depth of resources for anyone interested in understanding the changing and complex reality that is Africa today To many outside the continent Africa appears to be remote and inaccessible But this doesn't have to be so The print and audiovisual resources gathered together in this directory demonstrate that there are many ways to access this huge and diverse continent [Life and Death Matters](#) Barbara Rose Johnston,1997 A collection of stories events and experiences that provide a sense of what life is like for those who confront the environmental crises of our time and explain why these struggles are important Topics include local responses to economic development cases from Indonesia and China conservation and conflict cases from Africa gold mining in the Amazon and Wisconsin food conflict and justice cases from the US and Honduras development degradation misery and conflict case studies in Cancun and Chiapas post war matters Eritrea and South Africa and radiation victimization Russia and the Marshall Islands Annotation copyrighted by Book News Inc Portland OR *A Scientific Bibliography of the Drakensberg, Maloti and Adjacent Lowlands* Rodney Moffett,2021-04-19 This bibliography includes scientific articles on the Drakensberg Maloti and Adjacent Lowlands published between 1808 and 2019 Although focussing on material appearing in accredited journals there is such a wealth of information in the form of unpublished yet traceable reports documents presentations and dissertations these are also included The bibliography has two parts a complete list arranged alphabetically and the same references arranged in 33 different disciplines These range from Palaeobotany with 17 entries to Rock Art with 502 entries

Encyclopedia of Twentieth-Century Photography, 3-Volume Set Lynne Warren,2005-11-15 The Encyclopedia of Twentieth Century Photography explores the vast international scope of twentieth century photography and explains that history with a wide ranging interdisciplinary manner This unique approach covers the aesthetic history of photography as an evolving art and documentary form while also recognizing it as a developing technology and cultural force This Encyclopedia

presents the important developments movements photographers photographic institutions and theoretical aspects of the field along with information about equipment techniques and practical applications of photography To bring this history alive for the reader the set is illustrated in black and white throughout and each volume contains a color plate section A useful glossary of terms is also included

Photography in Africa Richard Vokes, 2012 Gives an ethnographic account of the complexities of the use of photography in Africa both historically and in contemporary practice This collection of studies in African photography examines through a series of empirically rich historical and ethnographic cases the variety of ways in which photographs are produced circulated and engaged across a range of social contexts In so doing it elucidates the distinctive characteristics of African photographic practices and cultures vis vis those of other forms of vernacular photography worldwide In addition these studies develop a reflexive turn examining the history of academic engagement with these African photographic cultures and reflecting on the distinctive qualities of the ethnographic method as a means for studying such phenomena The volume critically engages current debates in African photography and visual anthropology First it extends our understanding of the variety of ways in which both colonial and post colonial states in Africa have used photography as a means for establishing and projecting their authority Second it moves discussion of African photography away from an exclusive focus on the role of the studio and looks at the circulations through which the studio's products the photographs themselves later pass as artefacts of material culture Last it makes an important contribution to our understanding of the relationship between photography and ethnographic research methods as these have been employed in Africa

Elephant management Robert (Bob) Scholes, Kathleen G Mennell, 2008-03-01

Elephants are among the most magnificent but also most problematic members of South Africa's wildlife population While they are sought after by South African and foreign tourists alike they also have a major impact on their environment As a result elephant management has become a highly complex and often controversial discipline The information needed to underpin vital decisions about elephant management has largely been unavailable to decision makers contested by experts or simply unknown As a result the South African Minister for Environmental Affairs and Tourism convened a round table to advise him on this issue The round table recommended that a scientific assessment of elephant management be undertaken to gather evaluate and present all the relevant information on this topic Its main findings and recommendations are contained in this volume *Elephant Management* is the first book of its kind combining the work of more than 60 national and international experts Extensively reviewed by policy makers and other stakeholders it is the most systematic and comprehensive review of savanna elephant populations and factors relevant to managing them to date As such it is of interest to a broad spectrum of readers in South Africa and elsewhere Above all it is aimed at helping conservation policy makers and practitioners to choose the best possible options for the sustainable preservation of these iconic animals
