Shipbuilding, Navigation and the Portuguese in Pre-modern India K.S. Mathew, 2017-08-09 India especially coastal
India has a long history of shipbuilding and navigation dating back to the Indus Valley Civilization Indian shipwrights and the
labour force associated with various aspects of shipbuilding excelled in naval architecture Their native wisdom was adopted
by the Europeans engaged in shipbuilding in coastal India Similarly some of the techniques of navigation followed by Indians
were emulated by the European mariners A comprehensive peep into the science of naval architecture and navigation is
attempted in this work making a comparative study of Indian and Portuguese architecture and navigation The volume
discusses the importance of the timber grown in the monsoon fed forests of the Malabar coast and its appreciation by the
Portuguese shipwrights and theoreticians of naval architecture The work shows that increase of the tonnage of ocean going
vessels and the appearance of hostile mariners from other quarters of Western Europe compelled the Portuguese to adopt
enhanced technology in naval architecture and navigation The fact that the use of canons for defence against intruders made
the Portuguese vessels stronger than the Indian ships which for centuries were accustomed to considerably peaceful
navigation is also brought out in this much anticipated volume **A New Dictionary of the Portuguese and English**
