PRS Journal ,1990 **Serials in the British Library** ,1994 **Union List of Serials of the California State University** California State University,1991 *Torn between East and West* Iulian Chifu,Simona Tutuianu,2016-08-05 This book is a very timely account of the legal economic and political consequences for border states caught in the current tug of war between the West and Russia The Ukraine crisis of 2014 focused policy makers attention on a geographical area full of dangers that had gone relatively unnoticed since the breakup of the Soviet Union namely the security dynamics of the border states of Eastern Europe and the Black Sea Twenty five years after the collapse of the Soviet Union a strong Russia returns alternatively threatening and cajoling but at risk itself of suffering economic injury from western reprisals over its nostalgia for the map drawn at Yalta That conflict which hotted up over the Ukraine was soon being played out over and in the air space over Syria and Turkey while the border states themselves are likely to be drawn into the European refugee crisis and have the potential after the 2015 Paris atrocities to be breeding grounds for international terrorists This groundbreaking book contains prescient warnings that must be heeded by leaders and diplomats on both sides of the East West divide **Art of the First Cities** Joan Aruz,Ronald Wallenfels,2003 Catalog of an exhibition being held at the Metropolitan Museum of Art from May 8 to Aug 17 2003 **Shaping Policy in India** Rajesh Chakrabarti,2017-08-09 How effective is the Indian polity in making laws and policies to address changing ground realities How do its gears work Which stakeholder groups are more successful in bringing about policy change through what methods and in what contexts Seeking to answer these questions Shaping Policy in India takes a close look at nine landmark Indian laws and legislative attempts to reveal the sociopolitical process of policy formulation in the world s largest democracy Offering in depth accounts of the evolution of these nine major legislations this book interrogates the suitability of existing political theories to explain the policy development process in an emerging economy like India It covers recent events in the 1999 2014 period that have underlined the role of non government players in law making in India as well as long standing movements like right to information right to education and food security Case studies have been used to assess the complexity against the relief of existing political theories invariably developed in the West and to identify gaps in current political theory in understanding the nature of issue based political movements advocacy and activism The book then takes a few initial steps towards suggesting a paradigm based on complexity theory that may better serve to illuminate this critical part of the political process The Causes of War and the Consequences of Peacekeeping in Africa Ricardo René Laremont,2002 The contributors discuss the limitations of traditional military peacekeeping and the importance of geopolitics and political economy in the resolution of disputes *Bibliography on Snow, Ice and Frozen Ground, with Abstracts* ,1983 Jericho Robert Ruby,2025-06-25 It is a place both mythic and all too real a place thought to be the site of one of our oldest human settlements and known to be a center of ancient cultures and annihilating conflicts It sits at the bottom of a malarial valley the lowest place on the surfact of the earth the overheated

earthen basement of the world as Robert Ruby describes it And yet long before the world s modern religions began scrapping over its bones Jericho was home to waves of colonization and floods of destruction Fought over by the succeeding epochs of ancestors the place we call Jericho is as old as the first remnants dated at 9 000 B C and as current as the daily headlines In this unorthodox biography of the first eleven thousand years in the life of a legend Robert Ruby takes us back through time to those early settlements then forward to the often crude but ultimately successful latter day attempts to locate Jericho to unearth and map and catalog its history Beginning with the geography of place he weaves together his own intimate knowledge of modern day Jericho with stories of the lives and work of those explorers and archaeologists of the past whose courage often bordered on madness and whose dedication sometimes seemed the purest kind of human folly Soldiers scholars engineers adventurers dilettantes and professionals alike they were all dreamers drawn to this parched and dusty spot where so much of human history took place Matching biblical accounts to archaeological evidence sifting myth from science phantoms from reality Robert Ruby teases out the complex strata of the past helping us to make sense of what exists today With the flair of a novelist and the enthusiasm of an amateur archaeologist he offers a tale that is part detection part epic adventure Above all he gives us a work of great literary panache witty fact filled and utterly subversively compelling
