Queen Mary C. W. R. Winter,1993      The Age of Cunard Daniel Allen Butler,2004 For a century and a half the single most important sea lane in the world was the transatlantic route linking the Old World with the New For three hundred years sailing ships sufficed to carry cargoes and people but the demands of Steam Age business and commerce demanded more regularity Just as the steam engine had allowed railroads to replace the unpredictability of stagecoaches on land with dependable schedules steamships promised to bring this reliability to crossing the Atlantic This is where the story of the Cunard Line began The greatest influence Cunard would ever have on world events would be the leading role during the last half of the 19th century when the great migration of millions of emigrants transformed the populations of Europe the United States and Canada Wars devastation came to the Cunard Line with WW1 and WW2 as the power of the German submarine fleet built with one purpose in mind to sever the North Atlantic shipping lanes threatened Great Britains very existence By 1963 more people chose to travel by airplane than by steamship and it was the beginning of the end Sir Winston Churchill observed You came into great things by the accident of sea power By an accident of air power you will probably cease to exist

Leamer,1996-09-29 A FRESH AND UNVARNISHED PORTRAIT OF A FASCINATING TALENTED AND DEEPLY FLAWED FAMILY Boston Herald Laurence Leamer was granted unheralded access to private Kennedy papers and he interviewed family and old friends many of whom had never been interviewed before for this incredible portrait of the women in America s royal family From Bridget Murphy the foremother who touched shore at East Boston in 1849 to the intelligent independent

**RMS Queen Mary** David Ellery, 2023-11-30 Probably the most famous and certainly one of the best loved ships in the world the Cunard transatlantic liner RMS Queen Mary has now been preserved at Long Beach California as a floating hotel and tourist attraction for more than fifty years comfortably longer than her 31 year career as an ocean liner Laid down in 1930 Queen Mary's construction was severely delayed by the Great Depression Eventually completed in 1936 the ship was an instant success capturing the famous Blue Riband for the fastest crossing of the Atlantic later that year and regaining it in 1938 During the Second World War she served as a troop ship carrying a total of 810 730 troops and also setting the record for the most individuals carried in a single voyage 16 683 which stands to this day By the time she ceased passenger service in 1967 superseded by the airliner as the preferred mode for international travel Queen Mary had carried nearly three million people from royalty politicians and film stars to emigrants and cruise passengers After her sale to the city of Long Beach she underwent a major conversion for her new life as a visitor attraction a role she has continued ever since During this time however her story has been far from straightforward with controversies over management funding and even the structural integrity of the very ship itself She now remains the only 1930s superliner left in the world The original edition of RMS Queen Mary the World's Favourite Liner was published in 1994 This new and expanded edition has been completely revised and brought up to date to describe the ship's last twenty five years and it incorporates a wealth of new photography Lavishly produced and stunningly illustrated throughout with views of the ship under construction at sea in her heyday and at rest in Long Beach it will appeal to all ocean liner enthusiasts and those more general readers fascinated by the heyday of transatlantic travel

*Queen Mary and the Cruiser* David Arthur Thomas, Patrick Holmes, 1997 The tragic sinking of HM cruiser Curacoa off Bloody Foreland in 1942 was a disaster of stunning proportions The Cunard liner Queen Mary sliced through the cruiser in broad daylight and 338 men died most of them within minutes all of them victims of a series of errors The full detailed story of this drama is co authored by the naval historian David A Thomas and one of the survivors Patrick Holmes Together they have painstakingly reconstructed a minute

by minute record of the miscalculations contradictions and errors preceding the disaster The story is enhanced by dramatic eye witness accounts and by the moving anecdotes of the survivors Those who survived the tragedy were left branded with dreadful memories which they could never erase from their minds It took eminent sea officers judges and Law Lords long years of debate and dispute over the finer points of maritime law to adjudicate the clash of the captains who only had fleeting moments of impending tragedy before making their fateful decisions Public Record Office files and other documents have been analysed with meticulous care The result is a tragic and yet splendid story which will be welcomed as an epic to rank with the best told stories of disaster at sea     The Encyclopædia Britannica ,1894     **The Encyclopedia Britannica**
