time's river and embraces not only the presence and proximity of the world to the senses but also of the past and the future to the present here and now. When stories inhabit us, imagination and memory extend our ability to see and feel. Phenomenological experience is lived, not just thought. Such a perspective suggests that the past and future inhabit the present, increase the depth of sensory perception itself, and enrich the range of our affective and ethical responses. Grounded in the lived experience of reading, this perspective offers an alternative to an idea of intertextuality as simply following lines of influence and appropriation. It focuses on the expansion of experience created by telling and retelling stories. Ironically for literary theorists and critics, perhaps the highest form of both praise and critique is a tale retold, since such retellings attest to literature's instructive power and its perennial regeneration.

Sweet Potato Queens' Guide to Raising Children for Fun and Profit Jill Conner Browne, 2008-01-01. When does 1 + 1 = 3 or more? When you've got a baby on the way, Part of that new math says 1. New York Times bestselling author Jill Conner Browne, whom USA Today calls just plain funny, includes the addition of an outsize sense of humor to balance the equation of your growing family. The Sweet Potato Queens Guide to Raising Children for Fun and Profit is a hilarious though not scientifically tested wink at the time-honored mysteries of parenting because anybody who has ever had a kid or has ever known one knows that the experience is neither fun nor profitable, so you might as well laugh. As each generation begins its hopeful, happy, and yes, sometimes harrowing journey as Parent and Child together, they spawn a new body of knowledge, the nuances of which will elude the Experts every time. Here are stories of the things we do for Mother Love or the most incredibly full-time volunteer job ever, and tips guaranteed not to be found in any other parenting guide: How to talk to a pregnant woman. How the diamonds-on-delivery policy can speed up the labor nature intended. Why a good mother is always adept at subterfuge. The list of things you wouldn't think you would have to tell kids not to do. Why mothers of sons can never retire. Why for parents it's just a short drive to the poorhouse. The Sweet Potato Queens Guide to Raising Children for Fun and Profit will have everyone who's ever been a parent or has ever thought of becoming one, or has ever been a child, or is still one, giggling and grinning, no small feat through those childbearing years and beyond.
