Queen Of The Stink Fish Bait:

Ink, Stink Bait, Revenge, and Queen Elizabeth Steven W. May, Arthur F. Marotti, 2014-12-19 In *Ink Stink Bait* Steven W. May and Arthur F. Marotti present a recently discovered household book from sixteenth century England. Its main scribe John Hanson was a yeoman who worked as a legal agent in rural Yorkshire. His book, a miscellaneous collection of documents that he found useful or interesting, is a rare example of a middle class provincial anthology that contains, in addition to works from the country's cultural center, items of local interest seldom or never disseminated nationally. Among the literary highlights of the household book are unique copies of two ballads whose original print versions have been lost, describing Queen Elizabeth's procession through London after the victory over the Spanish Armada; two poems attributed to Elizabeth herself; and other verse by courtly writers copied from manuscript and print sources. Of local interest is the earliest known copy of a 126 stanza ballad about a mid-fourteenth century West Yorkshire feud between the Eland and Beaumont families. The manuscript's utilitarian items include a verse calendar and poetic Decalogue, model legal documents, real estate records, recipes for inks and fish baits, and instructions for catching rabbits and birds. Hanson combined both professional and recreational interests in his manuscript, including material related to his legal work with wills and real estate transactions. As May and Marotti argue in their cultural and historical interpretation of the text, Hanson's household book is especially valuable not only for the unusual texts it preserves but also for the ways in which it demonstrates the intersection of the local and national and of popular and elite cultures in early modern England. *Queen of the Stink Fish Bait* Ali Whitaker, 2005-05 Have you ever felt like Queen of the Stink Fish Bait instead of Cinderella? A Handbook of Editing Early Modern Texts Claire Loffman, Harriet Phillips, 2017-07-20 A Handbook of Editing Early Modern Texts provides a series of answers written by more than forty editors of diverse texts, addressing the how-to's of completing an excellent scholarly edition. The Handbook is primarily a practical guide rather than a theoretical forum; it airs common problems and offers a number of solutions to help a range of interested readers, from the lone editor of an unedited document through to the established academic planning a team enterprise. Multi-volume re-editing of a canonical author: Explicitly, this Handbook does not aim to produce a linear treatise telling its readers how they should edit. Instead, it provides them with a thematically ordered collection of insights drawn from the practical experiences of a symposium of editors. Many implicit areas of consensus on good practice in editing are recorded here, but there are also areas of legitimate disagreement to be charted. The Handbook draws together a diverse range of first-person narratives detailing the approaches taken by different editors, with their accompanying rationales and evaluations of the benefits and problems of their chosen methods. The collection's aim is to help readers to read modern editions more sensitively and to make better informed decisions in their own editorial projects.
