brings this growing genre into a critical focus bridging the gaps between queer theory literary criticism and Mennonite literature Cruz focuses his analysis on recent Mennonite authored literary texts that espouse queer theoretical principles including Christina Penner's *Widows of Hamilton House* Wes Funk's *Wes Side Story* and Sofia Samatar's *Tender* These works argue for the existence of a queer Mennonite identity on the basis of shared values a commitment to social justice a rejection of binaries the importance of creative approaches to conflict resolution and the practice of mutual aid especially in resisting oppression Through his analysis Cruz encourages those engaging with both Mennonite and queer literary criticism to explore the opportunity for conversation and overlap between the two fields By arguing for engagement between these two identities and highlighting the aspects of Mennonitism that are inherently queer Cruz gives much needed attention to an emerging subfield of Mennonite literature This volume makes a new and important intervention into the fields of queer theory literary studies Mennonite studies and religious studies

Latinx Literature Unbound Ralph E. Rodriguez, 2018-05-08 Since the 1990s there has been unparalleled growth in the literary output from an ever more diverse group of Latinx writers Extant criticism however has yet to catch up with the diversity of writers we label Latinx and the range of themes about which they write Little sustained scholarly attention has been paid moreover to the very category under which we group this literature *Latinx Literature Unbound* thus begins with a fundamental question What does it mean to label a work of literature or an entire corpus of literature Latinx From this question others emerge What does Latinx allow or predispose us to see and what does it preclude us from seeing If the grouping which brings together a heterogeneous collection of people under a seemingly homogeneous label tells us something meaningful is there a poetics we can develop that would facilitate our analysis of this literature In answering these questions *Latinx Literature Unbound* frees Latinx literature from taken for granted critical assumptions about identity and theme It argues that there may be more salubrious taxonomies than Latinx for organizing and analyzing this literature Privileging the act of reading as a temporal meaning making event Ralph E Rodriguez argues that genre may be a more durable category for analyzing this literature and suggests new ways we might proceed with future studies of the writing we have come to identify as Latinx

Katherine Crawford-Lackey, Megan E. Springate, 2019-11-01 With a focus on historic sites, this volume explores the recent history of non-heteronormative Americans from the early twentieth century onward and the places associated with these communities. Each chapter is accompanied by prompts and activities that invite readers to think critically and immerse themselves in the subject matter while working collaboratively with others.

### **A View from the Bottom**

Tan Hoang Nguyen, 2014-07-29 A View from the Bottom offers a major critical reassessment of male effeminacy and its racialization in visual culture. Examining portrayals of Asian and Asian American men in Hollywood cinema, European art film, gay pornography, and experimental documentary, Nguyen Tan Hoang explores the cultural meanings that accrue to sexual positions. He shows how cultural fantasies around the position of the sexual bottom overdetermine and refract the meanings of race, gender, sexuality, and nationality in American culture in ways that both enable and constrain Asian masculinity. Challenging the association of bottoming with passivity and abjection, Nguyen suggests ways of thinking about the bottom position that afford agency and pleasure. A more capacious conception of bottomhood as a sexual position, a social alliance, an affective bond, and an aesthetic form has the potential to destabilize sexual, gender, and racial norms, suggesting an ethical mode of relation organized not around dominance and mastery but around the risk of vulnerability and shame. Thus, reconceived bottomhood as a critical category creates new possibilities for arousal, receptiveness, and recognition and offers a new framework for analyzing sexual representations in cinema as well as understanding their relation to oppositional political projects.

### **Transgender**

**Migrations** Trystan Cotten, 2012-05-23 Transgender Migrations brings together a top-notch collection of emerging and established scholars to examine the way that the term migration can be used not only to look at the way trans bodies migrate from one gender to the other but the way that trans people migrate in the larger geopolitical contexts of immigration, reform, the war on terror, the war on drugs, and the increased policing of national borders. The book centers trans experiences, identities, and politics and treats these identities as inextricably intertwined with other social identities.

institutions and discourses of sexuality nationality race and ethnicity globalization colonialism and terrorism The chapter authors explore not only the movement of bodies in through and across spaces and borders but also chart the metamorphoses of these bodies in relation to migration and mobility Transgender Migrations takes the theory documented in The Transgender Studies Reader and blows it up to a global scale It is the logical next step for scholarship in this dynamic emerging field
