Nexica, Matt Wray, 2001-09-07 Bringing together new articles and essays from the controversial Berkeley conference of the same name The Making and Unmaking of Whiteness presents a fascinating range of inquiry into the nature of whiteness Representing academics independent scholars community organizers and antiracist activists the contributors are all leaders in the second wave of whiteness studies who collectively aim to combat the historical legacies of white supremacy and to inform those who seek to understand the changing nature of white identity both in the United States and abroad With essays devoted to theories of racial domination comparative global racisms and transnational white identity the geographical reach of the volume is significant and broad Dalton Conley writes on How I Learned to Be White Allan B rub discusses the intersection of gay identity and whiteness and Mab Segrest describes the spiritual price white people pay for living in a system of white supremacy Other pieces examine the utility of whiteness as a critical term for social analysis and contextualize different attempts at antiracist activism In a razor sharp introduction the editors not only raise provocative questions about the intellectual social and political goals of those interested in the study of whiteness but assess several of the topic s major recurrent themes the visibility of whiteness or the lack thereof the emptiness of whiteness as a category of identification and conceptions of whiteness as a structural privilege a harbinger of violence or an institutionalization of European imperialism Contributors William Aal Allan B rub Birgit Brander Rasmussen Dalton Conley Troy Duster Ruth Frankenberg John Hartigan Jr Eric Klinenberg Eric Lott Irene J Nexica Michael Omi Jasbir Kaur Puar Mab Segrest Vron Ware Howard Winant Matt Wray

**Love and Money** Lisa Henderson, 2013-01-01 Love and Money argues that we can t understand contemporary queer cultures without looking through the lens of social class Resisting old divisions between culture and economy identity and privilege left and queer recognition and redistribution Love and Money offers supple approaches to capturing class experience and class form in and around queerness Contrary to familiar dismissals not every queer television or movie character is like Will Truman on Will and Grace rich white healthy professional detached from politics community and sex Through ethnographic encounters with readers and cultural producers and such texts as Boys Don t Cry Brokeback Mountain By Hook or By Crook and wedding announcements in the New York Times Love and Money sees both queerness and class across a range of idioms and practices in everyday life How it asks do readers of Dorothy Allison s novels use her work to find a queer class voice How do gender and race broker queer class fantasy How do independent filmmakers cross back and forth between industry and queer sectors changing both places as they go and challenging queer ideas about bad commerce and bad taste With an eye to the nuances and harms of class difference in queerness and a wish to use culture to forge queer and

class affinities Love and Money returns class and its politics to the study of queer life      Warped: Gay Normality and Queer Anti-Capitalism Peter Drucker, 2015-02-04 Recent victories for LGBT rights especially the spread of same sex marriage have gone faster than most people imagined possible Yet the accompanying rise of gay normality has been disconcerting for activists with radical sympathies Global in scope and drawing on a wide range of feminist anti racist and queer scholarship and analysis Warped Gay Normality and Queer Anti Capitalism shows how the successive same sex formations of the past century and a half corresponding to different phases of capitalist development have led both to the emergence of today's homonormativity and homonationalism and to ongoing queer resistance The book's second half summarises different sexual rebellions and the queer dimension of multifarious movements for social justice and transformation seeing in them harbingers of a unified and powerful queer anti capitalism      **Race and Racialization, 2E** Tania Das Gupta, Carl E. James, Chris Andersen, Grace-Edward Galabuzi, Roger C. A. Maaka, 2018-02-01 Few words have generated as much debate and controversy as the word race Through a critical examination of this complex subject this anthology brings together essential contributions to the study of race and racialization An excellent compilation of classic and contemporary works by academic and activist writers Race and Racialization provides historical comparative and global perspectives on race and its intersection with gender class ethnicity indigeneity and sexuality This well updated second edition includes a new section on state multiculturalism and a diverse ensemble of Canadian and international contributors who explore such relevant themes as colonialism institutional racism ethnocentrism privilege marginalization and resistance Featuring introductions to each piece written by the editors annotated lists of supplementary readings to encourage further exploration and contributions by activists from Idle No More and Black Lives Matter this comprehensive and highly accessible anthology is perfect for students studying race racism cultural diversity identity and belonging social inequality and social justice

pallette of contemporary thinking this insightful book will guide you in how to bring diversity into the lived experience of young children numerous theoretical paradigms couples therapy men s work and children addressing the intersections of gender race class and culture in the therapy room transformations regarding race and gender the inclusiveness of feminismA wealth of expertise and sharp observation that reaches out to enrich and humanize therapy practices Transformations of Gender and Race addresses the interactions between gender class race sexual orientation and age Creative and in depth this volume articulates a perspective that connects all of these contexts of potential oppression and privilege You will gain a deeper understanding of numerous theoretical paradigms for working with couples individuals and children that will improve your practice *Global Justice and Desire* Nikita Dhawan,Antke Engel,Christoph Holzhey,Volker Woltersdorff,2015-05-15

Employing feminist queer and postcolonial perspectives *Global Justice and Desire* addresses economy as a key ingredient in the dynamic interplay between modes of subjectivity signification and governance Bringing together a range of international contributors the book proposes that both analyzing justice through the lens of desire and considering desire through the lens of justice are vital for exploring economic processes A variety of approaches for capturing the complex and dynamic interplay of justice and desire in socioeconomic processes are taken up But acknowledging a complexity of forces and relations of power domination and violence sometimes cohering and sometimes contradictory it is the relationship between hierarchical gender arrangements relations of exploitation and their colonial histories that is stressed Therefore queer feminist and postcolonial perspectives intersect as *Global Justice and Desire* explores their capacity to contribute to more just and more desirable economies Queer Families, Queer Politics Mary Bernstein,Renate Reimann,2001 This book addresses the

themes of visibility transgression and resistance as well as the intersection between the personal and political in the contexts of relationships parenthood and political activism Giving special attention to families of color immigrants and poor families the authors examine the risks entailed in coming out and the significance of class race and sexual and gender identity in this process Parenting also creates dilemmas of visibility as queer families negotiate malls schools and workplaces as well as the medical legal and political institutions that regulate their families **The Limits to Union** Jonathan

Goldberg-Hiller,2023-06-20 Revised and updated to include the most current information on same sex marriage *The Limits to Union* documents a legal struggle at its moment of greatest historical importance *The Limits to Union* is a superb book about the complexities of recent political struggles over same sex marriage Goldberg Hiller offers a sophisticated account of egalitarian rights advocacy and the reaction it has generated from established majorities animated by a new common sense of exclusionary sovereign authority The author s analysis is multidimensional and nuanced but the core argument is bold important and well supported I recommend it very highly to everyone interested in understanding the character possibilities and constraints of civil rights amid our contemporary culture wars Michael McCann author of *Rights at Work Pay Equity Reform and the Politics of Legal Mobilization* In this excellent book Goldberg Hiller uses Hawaii s experience to examine the

interaction between courts and the political system Relying on briefs legislative statements and interviews with activists from both sides of the question he views this familiar debate through the unfamiliar prism of gay marriage which allows him to gauge the viability and the pliability of the American civil rights ideal and how gay and lesbian issues fit or don't fit within that ideal William Heinzen New York Law Journal Goldberg Hiller presents the history of the same sex marriage question since it first sparked debate in Hawaii He follows the shifting debate through court cases state propositions and state and federal legislatures considering questions about the constitutionality of the Defense of Marriage Act and the concept of equal protection under the law for gays and lesbians This detailed treatment of the legal issues surrounding same sex marriages is highly recommended R L Abbott University of Evansville A valuable contribution to the field situating the gay marriage debate in broader contexts of theory law and practice Same sex marriage is an important issue that finds itself caught in the friction points of much larger debates over the nature of rights the limits of sovereignty and the proper role of courts and law in a democratic society The Limits to Union should therefore be of interest even to those who do not think of themselves as interested in gay and lesbian rights issues Evan Gerstmann Loyola Marymount University Law and Politics Book Review

Queer Theory and Social Change Max H. Kirsch, 2013-04-15 Queer Theory and Social Change argues that there is a crisis within Queer theory over whether or not its theories can actually deliver change Max Kirsch presents a challenging alternative to the current fascination with post modern analyses of identity culture and difference It emphasizes the need for a discussion of the importance of communities and the role of globalization on queer movements What We Hold in

Common Janet Zandy, 2001 Restored to print in an expanded edition the pivotal text in working class studies Queer Sites David Higgs, 2002-01-04 There are areas which can be described as gay space in that they have many lesbians and gays in the population Queerspace A History of Urban Sexuality edited by David Higgs offers a history of gay space in the major cities from the early modern period to the present The book focuses on the changing nature of queer experience in London Amsterdam Rio de Janeiro San Francisco Paris Lisbon and Moscow This book provides an interdisciplinary analysis of extensive source material including diaries poems legal accounts and journalism By concentrating the importance of the city and varied meeting places such as parks river walks bathing places the street bars and even churches the contributors explore the extent to which gay space existed the degree of social collectiveness felt by those who used this space and their individual histories

**Margaret Mead Made Me Gay** Esther Newton, 2000-11-22 A collection of essays by a pioneering queer anthropologist **Handbook of Race-Ethnicity and Gender in Psychology** Marie L. Miville, Angela D. Ferguson, 2014-02-06 Multicultural aspects of psychology have received some attention in the literature in the last decade A number of texts currently address these significant concerns for example Counseling the Culturally Different Sue Handbook of Multicultural Counseling Poterotto et al 2009 and Handbook of Multicultural Counseling Competencies Pope Davis Coleman 2005 In their most recent editions several of these books address more nuanced complexities of diversity for example the

intersections of gender or social class with race ethnicity Meanwhile other texts have addressed gender issues in psychology Handbook of Counseling Women Counseling Men with some attention paid to racial ethnic and other diversity concerns Clearly the progression of scholarship in this field reflects the importance of incorporating multiple aspects of diversity within psychology However no book currently exists that fully addresses the complexities of race ethnicity and gender together Better understanding of the dual impact of race ethnicity and gender on psychological functioning may lead to more effective conceptualizations of a number of mental health issues such as domestic violence addictions health related behaviors and achievement Exploring the impact of race ethnicity and gender also may provide a broader understanding of self in community as this affects individuals families and other social groups and work and career development Topics of interest may include identity development worldviews and belief systems parenting styles interventions for promoting resilience and persistence and strategies for enhancing more accurate diagnostic and treatment modalities Today s world is comprised of multiple and intersecting communities that remain in need of psychological models and interventions that support and promote both individual and collective mental health We believe that utilizing unidimensional conceptual models e g focusing solely on race ethnicity or gender no longer adequately addresses psychological concerns that are dynamic complex and multi faceted The proposed Handbook will focus on timely topics which historically have been under addressed for a number of diverse populations
