scholarly work on Toni Morrison's *Beloved*, Sophocles' *Antigone*, akrasia, psychoanalysis, critical race theory, feminist philosophy of science, and Marxism. Nissim Sabat ultimately proposes that a new consciousness enabled by the phenomenological attitude of the way in which ideological distortion of the concepts of victim and survivor helps to perpetuate victimization will empower us to find ways to end victimization and its anti-human consequences. The book's interdisciplinary approach will make it appealing to a broad range of students and scholars alike.

Critical Perspectives on bell hooks Maria del Guadalupe Davidson, George Yancy, 2009-03-04 Although bell hooks has long challenged the dominant paradigms of race, class, and gender, there has never been a comprehensive book critically reflecting upon this seminal scholar's body of work. Her written works aim to transgress and disrupt those codes that exclude others as intellectually mediocre, and hooks' challenge to various hegemonic practices has heavily influenced scholars in numerous areas of inquiry. This important resource thematically examines hooks' works across various disciplinary divides, including her critique on educational theory and practice, theorization of racial construction, dynamics of gender and spirituality, and love as correctives in postmodern life. Ultimately, this book offers a fresh perspective for scholars and students wanting to engage in the prominent work of bell hooks and makes available to its readers the full significance of her work. Compelling and unprecedented, *Critical Perspectives on bell hooks* is a must-read for scholars, professors, and students interested in issues of race, class, and gender.

W.E.B. Du Bois and the Problems of the Twenty-First Century, **Urban Teacher Education and Teaching** R. Patrick Solomon, Dia N. R. Sekayi, 2020-07-24 This volume illuminates the most pressing challenges faced by urban schools, teachers, teacher candidates, and teacher training programs and offers a range of insights and possibilities for urban teacher education and teaching. Covering issues spanning the broadly theoretical to the urgently practical, it goes beyond the traditional discourses in teacher education to focus on diversity, social justice, democratic schooling, and community building. What emerges is an emphatic message of hope for those committed to the ongoing project of improving urban teacher education and working in urban settings. Contributors from Canada, the United States, and the Caribbean bring rich and divergent knowledges, perspectives, and cultural experiences to their discussion of the three central themes around which the book is organized: the conceptual framing of key issues in urban schooling, pre-service teacher preparation for urban transformation, and culturally relevant pedagogy and advocacy in urban settings. This book is intended for all students, practitioners, and researchers involved in urban education. It is appropriate as a text for student teaching and field experience seminars and for courses dealing with social issues, educational policy, curriculum development, and multicultural teacher education.

the fourteen philosophers who share a textual space of exploration name blackness whiteness revealing significant political cultural and existential aspects of what it means to be black white Through the power of naming and theorizing whiteness and blackness White on White Black on Black dares to bring clarity and complexity to our understanding of race identity
