Dreams of Authority Ronald R. Thomas, 1990 **The Hero and the Perennial Journey Home in American Film** Susan Mackey-Kallis, 2010-08-03 In contemporary America myths find expression primarily in film What's more many of the highest grossing American movies of the past several decades have been rooted in one of the most fundamental mythic narratives the hero quest Why is the hero quest so persistently renewed and retold In what ways does this universal myth manifest itself in American cinema And what is the significance of the popularity of these modern myths The Hero and the Perennial Journey Home in American Film by Susan Mackey Kallis is an exploration of the appeal of films that recreate and reinterpret this mythic structure She closely analyzes such films as E T the Star Wars trilogy It's a Wonderful Life The Wizard of Oz The Lion King Field of Dreams The

Piano Thelma and Louise and 2001 A Space Odyssey Elements of the quest mythology made popular by Joseph Campbell Homer's Odyssey the perennial philosophy of Aldous Huxley and Jungian psychology all contribute to the compelling interpretive framework in which Mackey Kallis crafts her study She argues that the purpose of the hero quest is not limited to the discovery of some boon or Holy Grail but also involves finding oneself and finding a home in the universe The home that is sought is simultaneously the literal home from which the hero sets out and the terminus of the personal growth he or she undergoes during the journey back Thus the quest Mackey Kallis asserts is an outward journey into the world of action and events which eventually requires a journey inward if the hero is to grow and ultimately necessitates a journey homeward if the hero is to understand the grail and share it with the culture at large Finally she examines the value of mythic criticism and addresses questions about myth currently being debated in the field of communication studies Mindful Dreaming David Gordon, 2006-11-09 To merge a deep understanding of dream work with the mindfulness techniques of Buddhist practice brings a new light to bear on each of these subjects Jean Campbell president International Association for the Study of Dreams In Mindful Dreaming psychologist David Gordon shows how every dream corresponds to one of the four universal stages of healing and growth that Joseph Campbell called the Mythic search for bliss Dreams teach us to recognize the spiritual lessons of each phase of the Journey and urge us to learn ten perennial steps to mindfulness taught by spiritual traditions throughout the millennia A breakthrough in the field of mindfulness practice and dreamwork Mindful Dreaming teaches you the simple language of dreams and how they promote mindfulness in our everyday lives Relaxing our grip on control our dreams open us to guidance from the Source Helping us see through the illusion of permanence they teach us to release attachments and grieve the limitations and losses that life imposes Mindful of our destructive rush to judgment our dreams move us to embrace compassion for our own suffering not just that of others Finally dreams teach us mindfulness of our impatience so that we may live more consciously and awake in the present moment Relying on thought provoking exercises and abundant examples from the life changing dreams of the author his clients and friends Mindful Dreaming demonstrates how dreams provide a non judgmental and compassionate mirror that reflect our ongoing progress on the Journey to mindfulness Mindful dreaming leads us to overcome the emotional blocks that keep us feeling stuck and conflicted in love relationships frustrated in work or stagnating in our creative goals *Divining Your Dreams* Jonathan Sharp, 2010-06-15 Your Dreams Can Show You the Way We all know that our dreams mean something but do you realize that your dreams can actually help you In the Kabbalistic tradition dreams are prized as the key that unlocks the spiritual door leading to a path of greater wisdom In this rich and unique guide you will learn how simple and practical steps can help you use the messages in your dreams to unleash healing creativity and personal fulfillment Kabbalistic experts Jonathan Sharp and Dr Edward Hoffman clearly explain how the Kabbalah works along with its varied mysterious and fascinating components These include the Tree of Life the Tarot deck the hundred most important symbols from Zohar the ancient text

Envisioning the Dream Through Art and Science Robert Kuzendorf,James Veatch,2016-11-03 This monograph is the product of an interdisciplinary experiment an artistic experiment and a psychological experiment focused on dreams Inspired by the prevalence of dream imagery and dream logic in surrealist art the authors asked 100 art students to create digital images representing critical scenes from one of their dreams then to create a surrealist collage from the digital images The resulting collages tend to capture the surreality envisioned in actual works of surrealist art as two collages included in the book illustrate Inspired also by the psychological problem of studying other minds the authors asked the 100 art students to describe their dream in writing to interpret their dream and to complete two personality measures the Short Form of the Boundary Questionnaire and the Brief Symptom Inventory The art students scores on particular personality scales were found to be statistically associated with particular dream aspects many of which are visually observable in the digitized dream images created by art students with particular personalities but are not verbally discernible in the dream descriptions written by those same students The appendix contains for each art student the digitally imaged dream the written description and written interpretation of the dream and scores on the Boundary Questionnaire and on the depression anxiety hostility and somatization scales of the Brief Symptom Inventory The book concludes with a bibliography and an index to some of the visual elements in the 100 digitized dream images
