America Reads: Question and form in literature ,1979      America Reads James Edwin Miller,1979      **Questions and Problems in American Literature** Irving Garwood,1927      **Viva Nuestro Caucus** Romeo García,Iris Ruiz,2019-10-13

Viva Nuestro Caucus celebrates the history of the Latinx Caucus of the National Council of Teachers of English and of the College Composition and Communication Conference since its inception in 1968 as the Chicano Teachers of English The Caucus emerged because of a lack of representation and support and today maintains its vision and agenda of advocating for Latino peoples The impetus for Viva Nuestro Caucus began both from a lack of recognition amongst NCTE and CCCC and an acknowledgment that no written history exists of the Caucus Its editors provide a partial history of the agendas activities and achievements of the Caucus from its formation to the present set against the backdrop of changing times It includes interviews with founding and current Caucus members an annotated Caucus archive and a working bibliography of publications by Caucus members

**How to Read African American Literature** Aida Levy-Hussen,2016-12-13 How to Read African American Literature offers a series of provocations to unsettle the predominant assumptions readers make when encountering post Civil Rights black fiction Foregrounding the large body of literature and criticism that grapples with legacies of the slave past Aida Levy Hussen s argument develops on two levels as a textual analysis of black historical fiction and as a critical examination of the reading practices that characterize the scholarship of our time Drawing on psychoanalysis memory studies and feminist and queer theory Levy Hussen examines how works by Toni Morrison David Bradley Octavia Butler Charles Johnson and others represent and mediate social injury and collective grief In the criticism that surrounds these novels she identifies two major interpretive approaches therapeutic reading premised on the assurance that literary confrontations with historical trauma will enable psychic healing in the present and prohibitive reading anchored in the belief that fictions of returning to the past are dangerous and to be avoided Levy Hussen argues that these norms have become overly restrictive standing in the way of a more supple method of interpretation that recognizes and attends to the indirect unexpected inconsistent and opaque workings of historical fantasy and desire Moving beyond the question of whether literature must heal or abandon historical wounds Levy Hussen proposes new ways to read African American literature now

America Reads Robert Cecil Pooley,William Scott Gray,1952      **What America Read** Gordon Hutner,2009-11-05 Despite the vigorous study of modern American fiction today s readers are only familiar with a partial shelf of a vast library Gordon Hutner describes the distorted canonized history of the twentieth century American novel as a record of modern classics insufficiently appreciated in their day but recuperated by scholars in order to shape the grand tradition of Hemingway Fitzgerald and Faulkner In presenting literary history this way Hutner argues scholars have forgotten a rich treasury of realist novels that recount the story of the American middle class s confrontation with modernity Reading these novels now offers an extraordinary opportunity to witness debates about what kind of nation America would

become and what place its newly dominant middle class would have and Hutner suggests should also lead us to wonder how our own contemporary novels will be remembered

**Museum of Foreign Literature, Science and Art** John Holmes Agnew, 1843      **Good Literature** , 1882      Slavery and the Making of Early American Libraries Sean D. Moore, 2019-02-07 Early American libraries stood at the nexus of two transatlantic branches of commerce the book trade and the slave trade Slavery and the Making of Early American Libraries bridges the study of these trades by demonstrating how Americans profits from slavery were reinvested in imported British books and providing evidence that the colonial book market was shaped in part by the demand of slave owners for metropolitan cultural capital Drawing on recent scholarship that shows how participation in London cultural life was very expensive in the eighteenth century as well as evidence that enslavers were therefore some of the few early Americans who could afford to import British cultural products the volume merges the fields of the history of the book Atlantic studies and the study of race arguing that the empire wide circulation of British books was underwritten by the labour of the African diaspora The volume is the first in early American and eighteenth century British studies to fuse our growing understanding of the material culture of the transatlantic text with our awareness of slavery as an economic and philanthropic basis for the production and consumption of knowledge In studying the American dissemination of works of British literature and political thought it claims that Americans were seeking out the forms of citizenship constitutional traditions and rights that were the signature of that British identity Even though they were purchasing the sovereignty of Anglo Americans at the expense of African Americans through these books however some colonials were also making the case for the abolition of slavery

The Independent , 1915      Prophets of the Posthuman Christina Bieber Lake, 2013-09-30 Prophets of the Posthuman provides a fresh and original reading of fictional narratives that raise the question of what it means to be human in the face of rapidly developing bioenhancement technologies Christina Bieber Lake argues that works by Nathaniel Hawthorne Walker Percy Flannery O Connor Toni Morrison George Saunders Marilynne Robinson Raymond Carver James Tiptree Jr and Margaret Atwood must be reevaluated in light of their contributions to larger ethical questions Drawing on a wide range of sources in philosophical and theological ethics Lake claims that these writers share a commitment to maintaining a category of personhood more meaningful than that allowed by utilitarian ethics Prophets of the Posthuman insists that because technology can never ask whether we should do something that we have the power to do literature must step into that role Each of the chapters of this interdisciplinary study sets up a typical ethical scenario regarding human enhancement technology and then illustrates how a work of fiction uniquely speaks to that scenario exposing a realm of human motivations that might otherwise be overlooked or simplified Through the vision of the writers she discusses Lake uncovers a deep critique of the ascendancy of personal autonomy as America s most cherished value This ascendancy coupled with technology s glamorous promises of happiness helps to shape a utilitarian view of persons that makes responsible ethical behavior toward one another almost impossible Prophets of the Posthuman charts the essential role that literature must play in the continuing conversation of what it means to be human in a posthuman world
