Sitrin, 2012-09-13 In the wake of the global financial crisis new forms of social organization are beginning to take shape Disparate groups of people are coming together in order to resist corporate globalization and seek a more positive way forward These movements are not based on hierarchy rather than looking to those in power to solve their problems participants are looking to one another In certain countries in the West this has been demonstrated by the recent and remarkable rise of the Occupy movement But in Argentina such radical transformations have been taking place for years Marina Sitrin tells the story of how regular people changed their country and inspired others across the world Reflecting on new forms of social organization such as horizontalism and autogestión as well as alternative conceptions of value and power Marina Sitrin shows how an economic crisis spurred a people's rebellion how factory workers and medical clinic technicians are running their workplaces themselves without bosses how people have taken over land to build homes raise livestock grow crops and build schools creating their own art and media in the process Daring and groundbreaking Sitrin shows how the experiences of the autonomous movements in Argentina can help answer the question of how to turn a rupture into a revolution *Stories That Make History* Lynn Stephen, 2021-09-20 Lynn Stephen examines the writing of Elena Poniatowska showing how it shaped Mexican political discourse and provides a unique way of understanding contemporary Mexican history politics and culture Reinventing the Lacandón Brian Gollnick, 2022-08-23 Before massive deforestation began in the 1960s the Lacandón jungle which lies on the border of Mexico and Guatemala was part of the largest tropical rain forest north of the Amazon The destruction of the Lacandón occurred with little attention from the international press until January 1 1994 when a group of armed Maya rebels led by a charismatic spokesperson who called himself Subcomandante Marcos emerged from jungle communities and briefly occupied several towns in the Mexican state of Chiapas These rebels known as the Zapatista National Liberation Army became front page news around the globe and they used their notoriety to issue rhetorically powerful communiqués that denounced political corruption the Mexican government's treatment of indigenous peoples and the negative impact of globalization As Brian Gollnick reveals the Zapatista communiqués had deeper roots in the Mayan rain forest than Westerners realized and he points out that the very idea of the jungle is also deeply rooted though in different ways in the Western imagination Gollnick draws on theoretical innovations offered by subaltern studies to discover oral traces left by indigenous inhabitants in dominant cultural productions He explores both how the jungle region and its inhabitants have been represented in literary writings from the time of the Spanish conquest to the present and how the indigenous people have represented themselves in such works including post colonial and anti colonial narratives poetry video and photography His goal is to show how popular and elite cultures have interacted in creating depictions of life in the
