**Questions God Asks** Kathy Call,2017-11-30 The Bible is full of questions asked by God of his people Each of these questions challenge us to struggle with some nagging issue or problem inside us that simply refuses to go away God s great questions probe the deepest issues of our lives questions of identity of adequacy of balance of assurance of mercy of renewal of perspective of ultimate hope of perception As the characters in the Bible of whom these questions were first asked wrestle with their answers we as readers of this book find ourselves wrestling with the same questions in our lives bringing us face to face with ourselves and with God himself      **The Methodist Review** ,1900      **Plain Answers to Religious Questions**

**Modern Men are Asking** Samuel Charles Black,1910      **The Universal God** R. William Davies,2011-07-12 There is no available information at this time      What and Where is God? A Human Answer to the Deep Religious Cry of the Modern Soul Richard La Rue Swain,2022-09-04 In the thought provoking treatise What and Where is God A Human Answer to the Deep Religious Cry of the Modern Soul Richard La Rue Swain delves into the profound existential questions that have perplexed humanity for eons Captivating in its literary style the work seamlessly weaves philosophical inquiry with theological exploration reflecting the author s adept engagement with the spiritual quandaries of his era Embedded within its meticulously reconstructed text by DigiCat Publishing the book remains an evocative piece that resonates with contemporary seekers of truth serving as a testament to the enduring nature of humankind s search for the divine Richard La Rue Swain emerges as a scholar deeply attuned to the spiritual tumult of his time channeling his insights into a narrative that grapples with the nature of God in the context of human experience His profound contemplation stems from an astute observation of the zeitgeist possibly influenced by the accelerating secularization and the consequent vacuum felt within the souls of modern individuals Swain s personal journey and scholarly pursuits likely provided the fertile ground from which this seminal work sprouted What and Where is God is highly recommended for readers drawn to the intersections of theology philosophy and the human condition It stands as an essential read for those aspiring to grasp the essence of spirituality through a humanistic lens Swain s intellectually rich prose invites reflection engaging one s own beliefs whilst providing a compassionate response to the existential dilemmas faced by many today This carefully resurrected classic by DigiCat Publishing warrants recognition and contemplation offering wisdom that transcends the temporal bounds of its original publication      **God's Mission in Asia** Ken Christoph Miyamoto,2007-06-15 Ecumenism in postwar Asia institutionalized in the Christian Conference of Asia displayed a remarkable this worldliness from its inception in the 1940s This tendency was in contrast to the tension between the church centric and world centric approaches to Christian mission that marked conciliar mission thinking in the West This work examines the development of such this worldly holiness in Asian ecumenism focusing on M M Thomas of India and C S Song from Taiwan Special attention is drawn to the idea of God s this worldly presence that considers God as redemptively at work in world history apart from the church The study first compares the development of this worldly holiness in the West and Asia and then examines the thinking of Thomas and Song The chapters on these two

theologians discuss their backgrounds the basic concerns motivating their intellectual searches and responses to the questions arising from such concerns These chapters also try to understand how these theologians view the relationship between God and the world In so doing the study highlights the significance of the idea of God's this worldly presence shared by Thomas and Song in spite of differences in their backgrounds approaches and theological formulations Having compared Thomas and Song the study concludes that the idea of God's this worldly presence became central to Asian ecumenism because it offered a common unifying vision to Asian Christians who come from a region characterized by tremendous diversity The idea helped them to see the diverse peoples cultures and religions in Asia under one God who transcends the diversity and still takes it seriously **The Bremen Lectures** ,1871 **Culture and Islamic Adaptation Psychology**

Malik Badri,Humanology,2018-03-15 The indiscriminate exportation of Western psychology to Muslim and third world countries can pose serious cultural and ideological dilemmas When the exported commodity from North to South is physical in nature the harm done can easily be identified for example the quick detection of the life threatening birth defects caused by the drug thalidomide when taken during pregnancy or the flaws in the braking system of a Japanese car However when the exported product is ideas and beliefs and ways of life the indirect and sneaky damage is often much more malevolent and long lasting because it attacks the worldview of the recipients and it shakes their cherished beliefs Because of its technological supremacy Islamic and developing countries got used to wholeheartedly accepting any information coming from the West if it is under the tag of science By presenting itself under this prestigious mantra of science students in Muslim countries swallow the kernel of psychology with its nutshell the baby with its filthy water The danger of this approach is greatly augmented by the shortcomings of our educational systems that discourages critical thinking and encourages the submissive acceptance of the words of the teacher and that of printed material [This We Believe Questions And Answers](#)
