## **Questions On German History Paths To Parliamentary Democracy:**

Questions on German History Lothar Gall, Dieter Hein, 1998      **US National Security, Intelligence and Democracy** Russell A. Miller, 2008-07 This volume examines the investigation by the 1975 Senate Select Committee Church Committee into US intelligence abuses during the Cold War and considers its lessons for the current war on terror This report remains the most thorough public record of America's intelligence services and many of the legal boundaries operating on US intelligence agencies today are the direct result of reforms proposed by the Church Committee including the Foreign Intelligence Surveillance Act The Church Committee also drew attention to the importance of constitutional government as a Congressional body overseeing the activities of the Executive branch Placing the legacy of the Church Committee in the context of the contemporary debate over US national security and democratic governance the book brings together contributions from distinguished policy leaders and scholars of law intelligence and political science      Questions on German History, 1998      **Two Centuries of Solidarity** Karel-Peter Comanje, Karel Veraghtert, Brigitte Widdershoven, 2009 Health insurance is a key component of the current social security system in European Union countries In most countries modern health insurance funds and health care insurers are an essential role in implementing the public health insurance system Many of these modern health insurance funds have a fascinating and long ancestry clear traces of which can be seen today in the organisation of national health insurance as well as the structure of health insurance funds and insurers In their study *Two Centuries of Solidarity* the authors compare health insurance health insurance funds and health care insurers in Germany Belgium and the Netherlands Given the similar political economic and social development that these countries have undergone in the past 60 years and the qualitatively high level of health care they provide one might expect a degree of likeness in these countries health care insurance systems The dissimilarities are surprising however In fact differences are becoming ever more apparent between the different national systems in general and between the structure and operation of the health insurance funds and health care insurers in particular Differences include the compulsory nature of insurance the extent of cover premiums health insurance business mutual competition and the degree of private insurance Many of these national singularities can be understood and explained only by considering the historical background of the current national health insurance systems the insurers and their evolution over the past centuries This study adopts an institutional and political perspective towards further understanding of the development of health insurance and of how this ultimately determined the specific nature of the health care insurers and funds and how they currently operate in the three countries studied      *Silent No More* Erika Vora, 2012 This book reveals untold living history of thirty ethnic German survivors who finally broke their silence and talked about their heart breaking experiences of forced deportation expulsion and flight during WWII and its aftermath They were deported from their homes in Romania and Yugoslavia expelled from their homes in Czechoslovakia and had to flee from their homes in Poland and all the Eastern provinces of Germany These ethnic German

survivors tell of their weeks long treacherous over crowded cattle train transports back breaking work in forced labor camps starvation and homelessness during bitter cold winters witnessing mass rapes and beatings to death They are among the fifteen million Germans who were expelled from their homes in East Central Europe during the largest forced mass migration of the twentieth century These now aged survivors who experienced humanities darkest side but have no malice toward their perpetrators exemplify the unbreakable and indelible human spirit

**A European Memory?** Małgorzata Pakier,Bo Stråth,2012 An examination of the role of history and memory is vital in order to better understand why the grand design of a United Europe with a common foreign policy and market yet enough diversity to allow for cultural and social differences was overwhelmingly turned down by its citizens The authors argue that this rejection of the European constitution was to a certain extent a challenge to the current historical grounding used for further integration and further demonstrates the lack of understanding by European bureaucrats of the historical complexity and divisiveness of Europe s past A critical European history is therefore urgently needed to confront and re imagine Europe not as a harmonious continent but as the outcome of violent and bloody conflicts both within Europe as well as with its Others As the authors show these dark shadows of Europe s past must be integrated and the fact that memories of Europe are contested must be accepted if any new attempts at a United Europe are to be successful

*Two Centuries of Solidarity* K.P. Comanje,R.H.M. Hendriks,K.F.E. Veraghtert,B.E.M. Widdershoven,2025-10-01 Today health insurance is a key component in the system of social security in most European Union countries In many of these countries modern health insurance funds and healthcare insurers play an essential role in implementing the public health insurance system Many of these health insurance funds have a long and fascinating history of which clear traces can be seen today in the organisation and structure of health insurance as well as health insurance funds and insurers In Two centuries of solidarity the authors compare the systems of health insurance health insurance funds and healthcare insurers in Germany Belgium and the Netherlands Given the similar political economic and social development that these countries have undergone in the past 60 years and the availability of a qualitatively high level of health care one might expect a high degree of similarity between these countries healthcare insurance systems However the dissimilarities are surprising In fact these differences are currently becoming ever more apparent between systems in general and the structure and operation of the health insurance funds and health care insurers in particular The differences include the compulsory nature of insurance the extent of coverage premiums entrepreneurship competition and the degree of private insurance Many of these national singularities can be understood and explained only by considering the historical background of the health insurance systems the insurers and their evolution over the past two centuries This study adopts an institutional and political perspective towards a further understanding of the development of health insurance and of how this ultimately determined the specific nature of the healthcare insurers and funds and the way they currently operate in Germany Belgium and the Netherlands

**The Constitutional Jurisprudence of the Federal Republic of Germany**

Donald P. Kommers, Russell A. Miller, 2012-11-09 The third edition of this renowned English language guide to German constitutional law has been fully updated and significantly expanded to incorporate previously omitted topics and recent decisions of the German Federal Constitutional Court     *Annual of German and European Law* Russell A. Miller, Peer Zumbansen, 2007-02 German law has been of long standing interest and increasing relevance around the world but access for researchers and practitioners very frequently was limited by the necessity of German language proficiency Offering English language access to these fields the Annual of German 2 jurisdictional reports comments on the latest caselaw from Germany's most significant courts and the case law of the European courts having importance for Germany 3 book reviews surveying the most compelling recent literature whether in the German or English language in the fields of German and European law and 4 translations exclusive English language versions of significant primary sources of German law including statutes and court opinions The first volumes of the Annual of German Juliet Lodge Volume I Alexander Somek Volume I Susanne Baer Volume I Renate Jaeger Volume II G nter Frankenberg Volume II Bootjan Zupan i Volume II Nigel Foster Volume II The third volume maintains this tradition of high quality peer reviewed scholarship with contributions expected from Gertrude L bbe Wolff Justice German Federal Constitutional Court and Christian Joerges European University Institute     **The Seduction of Culture in German History** Wolf Lepenies, 2009-01-10 During the Allied bombing of Germany Hitler was more distressed by the loss of cultural treasures than by the leveling of homes Remarkably his propagandists broadcast this fact convinced that it would reveal not his callousness but his sensitivity the destruction had failed to crush his artist's spirit It is impossible to begin to make sense of this thinking without understanding what Wolf Lepenies calls The Seduction of Culture in German History This fascinating and unusual book tells the story of an arguably catastrophic German habit that of valuing cultural achievement above all else and envisioning it as a noble substitute for politics Lepenies examines how this tendency has affected German history from the late eighteenth century to today He argues that the German preference for art over politics is essential to understanding the peculiar nature of Nazism including its aesthetic appeal to many Germans and others and the fact that Hitler and many in his circle were failed artists and intellectuals who seem to have practiced their politics as a substitute form of art In a series of historical intellectual literary and artistic vignettes told in an essayistic style full of compelling aphorisms this wide ranging book pays special attention to Goethe and Thomas Mann and also contains brilliant discussions of such diverse figures as Novalis Walt Whitman Leo Strauss and Allan Bloom The Seduction of Culture in German History is concerned not only with Germany but with how the German obsession with culture sense of cultural superiority and scorn of politics have affected its relations with other countries France and the United States in particular

**The Path to Christian Democracy** Noel D. Caryl, 1996 From the time of Bismarck's great rival Ludwig Windthorst to that of the first post World War II Chancellor Konrad Adenauer the Catholic community in Germany took a distinctive historical path Although it was by no means free of authoritarian components it was at times the most democratic pathway taken by organized political Catholicism anywhere in Europe Challenging those who seek continuity in German history primarily in terms of its long march toward Nazism this book crosses all the usual historical turning points from mid nineteenth to late twentieth century German history in search of the indigenous origins of postwar German democracy Complementing recent studies of German Social Democracy it links the postwar party system to the partisan traditions this new system transcended by documenting the attempts by reform minded members of the old Catholic Center party to break out of the constraints of minority group politics and form a democratic political party The failure of those efforts before 1933 helped clear the way for Nazism but their success after 1945 in founding the interdenominational Christian Democratic Union CDU helped tame political conservatism and allowed the emergence of the most stable democracy in contemporary Europe Integrating those who needed to be integrated the cultural and political conservatives into a durable liberal order this conservative yet democratic and interdenominational catch all party broadened democratic sensibilities and softened the effect of religious tensions on the German polity and party system By crossing traditional chronological divides and exploring the links between earlier abortive Catholic initiatives and the range of competing postwar visions of the new party system this book moves Catholic Germany from the periphery to the heart of the issue of continuity in modern German history

The Origins of Christian Democracy Maria Mitchell, 2012-10-04 A pioneering exploration of the origins of German Christian Democracy in the context of 19th and 20th century politics and religion

**Labour and Liberalism in Nineteenth-century Europe** John Breuilly, 1994 This book represents a significant reinterpretation of nineteenth century liberalism and labour history Going beyond the usual confines of national frameworks the author compares national experiences discarding the preconceptions that have frequently distorted historical writing John Breuilly asks just how unique many national phenomena were and examines some issues which transcended national boundaries Some of the subjects which the author considers from a comparative perspective are the different types of liberalism the role of law in shaping class relations the concept of the labour aristocracy and the early emergence of a separate Labour Party in Germany compared to the continuing appeal of liberalism to much of the English labour movement More detailed comparisons look at

the urban artisans of mid nineteenth century Western Europe and the nature of liberalism in Manchester and Hamburg This book arrives at some surprising new conclusions about the relative experiences of nations and where it confirms conventional assumptions the author places them on a stronger ground than before Labour and liberalism in nineteenth century Europe should appeal to academics and undergraduates specialising in European social and political history particularly German and British history It will also interest general readers concerned with the historical background of Western European culture

**A Global History of Modern Historiography** Georg G Iggers, Q. Edward Wang, Supriya Mukherjee, 2013-09-13 So far histories of historiography have concentrated almost exclusively on the West This is the first book to offer a history of modern historiography from a global perspective Tracing the transformation of historical writings over the past two and half centuries the book portrays the transformation of historical writings under the effect of professionalization which served as a model not only for Western but also for much of non Western historical studies At the same time it critically examines the reactions in post modern and post colonial thought to established conceptions of scientific historiography A main theme of the book is how historians in the non Western world not only adopted or adapted
