Rosies Story:

Rosie's Story (The Dodo) Bonnie Bader,2022-09-06 The true story of how one little cat became the leader of a pack of huskies as seen on hit social media site The Dodo Rosie the cat was small and weak until she befriended a giant husky When Rosie was rescued by her foster moms as a kitten they worried she wouldn't get better But as soon as she started spending time with Lilo the husky she began to feel great The two animals became best friends and now Rosie does everything Lilo does They go on walks together take naps together and even go on boat rides together This inspiring true story teaches us that love is the only thing you need to make a family This story is perfect for middle grade readers and comes with eight pages of full color photos

Women Behind the Wheel Nancy A. Nichols,2024-03-05 From the adolescent thrill of getting a driver's license to the dreaded commutes of adulthood from vintage muscle cars to electric vehicles this groundbreaking book reveals the outsized impact the car has had and will continue to have on the lives of women Since their inception cars have defined American culture but until quite recently car histories were largely written by and about men with little attention given to the fascinating story of women and cars In this engaging non fiction narrative Nancy A Nichols the daughter of a used car salesman uses the cars her father sold and the ones her family drove to tell a larger story about how the car helped to define modern womanhood From her sister's classic Mustang to her mother's Chevy Convertible to her own Honda minivan Nichols tells a personal story in order to shed light on a universal one Cars helped women secure the right to vote changed the nature of romance and influenced both fashion and child rearing customs In the just over 100 years since their inception cars have created possibilities for commerce and romance even as they exposed women to new kinds of danger Women Behind the Wheel explores the uniquely gendered landscape of the automobile detailing the many reasons why cars are both more expensive and more dangerous for women drivers The automobile is on the cusp of momentous change As we advance into the era of electric connected and autonomous vehicles Nichols shows us why we should hit the brakes and look back in the rear view mirror at this long and fascinating history What is the role of the car in our lives Should we be more skeptical of technology in our society In Women Behind the Wheel Nichols argues convincingly that only by understanding the many ways the car has changed us can we hope to prepare ourselves for this brave new era

The Allotment MARK YOUNG,2014-07-11 Everyone thought the four pensioners were being stubborn in their refusal to leave their allotment The local Councillor had good reason to reuse the space for a top class shopping mall with a coffee shop on every floor Hooray The allotment was a perfect space for a development that paid top dollar Councillor Renshaw was very determined to get the deal done and make a killing He was about however to underestimate the power of four equally determined pensioners each one with a reason to make sure their allotment stayed intact

Powerful Primary Geography Anne M. Dolan,2020-04-16 *Powerful Primary Geography A Toolkit for 21st Century Learning* explores the need for children to understand the modern world and their place in it Dedicated to helping teachers inspire children s love of place nature and geographical adventures through facilitating children s voice and developing their agency this book explores the way playful opportunities can be created for children to learn how to think geographically to solve real life problems and to apply their learning in meaningful ways to the world around them Based on the very latest research *Powerful Primary Geography* helps children understand change conflict and contemporary issues influencing their current and future lives and covers topics such as Weather and climate change Sustainability Engaging in their local and global community Graphicacy map work and visual literacy Understanding geography through the arts Including several case studies from primary schools in Ireland this book will help aid teachers student teachers and education enthusiasts in preparing children for dealing with the complex nature of our contemporary world through artistic and thoughtful geography Facilitating children s engagement as local national and global citizens ensures geography can be taught in a powerful and meaningful manner *California Cures!: How The California Stem Cell Program Is Fighting Your Incurable Disease!* Don C Reed,2018-03-19 An engrossing read that is hard to put down and packed with insights blend history and the latest research with broader examination of stem cell potentials to change not only health conditions but society as a whole No collection covering stem cell advancements should be without this hard hitting examination that uses California s results as a foundation for considering stem cell s special promises and powerful obstacles to success *Midwestern Book Review*Thirteen years ago America faced an epidemic of chronic disease cancer paralysis blindness arthritis Alzheimer s disease diabetes and more But California voters said YES to a 3 billion stem cell research program the awkwardly named California Institute for Regenerative Medicine CIRM Born into battle the scrappy little state agency was immediately blocked by three years of anti science lawsuits but it defeated them all And then A quiet triumph With a focused intensity like the Manhattan Project but for peaceful purposes not to build a bomb scientists funded by CIRM took on the challenges disease and disability called chronic incurable In a series of connected stories accurate though written to entertain *California Cures* relates a war science against disease with lives on the line Think what it means for a paralyzed young man to recover the use of his hands or for a formerly blind mother to see her teenaged children for the first time Do you know the bubble baby syndrome Infants without a proper immune system typically die young a common cold can kill But for eighteen babies in a stem cell clinical trial a different future they were cured of their disease No one can predict the pace of science nor say when cures will come but California is bringing the fight The reader will meet the scientists involved the women and men behind the microscope and share their struggle Above all *California Cures* is a call for action Washington may argue about the expense of health care and who will get it but California works to bring down the mountain of medical debt stem cell therapies to ease suffering and save lives

Will California build on success and invest 5 billion more in stem cell research We have the momentum says author Don C Reed We dare not stop short Chronic disease threatens everyone we are fighting for your family and mine The All-American Girls After the AAGPBL Kat D. Williams,2017-03-21 The hit 1992 film A League of Their Own made the All American Girls Professional Baseball League famous But the players stories remain largely untold The 600 women who played for the AAGPBL through the 1940s and 1950s enjoyed a rare opportunity to lead independent lives as well paid professional athletes Their experiences in the league led many to education and careers they never imagined As teachers coaches and role models they strove to broaden the horizons of girls and young women Many continued to be involved in athletics supporting the efforts leading to Title IX and the women s sports revolution Today they are dedicated to preserving the history of women in baseball and creating opportunities for girls to play War Brides and Rosies Barbara Ann Lambert,2012 Nestled on the British Columbia coast the community of Powell River sent several Canadian men and women overseas to fight in the World War II When all was said and done more than forty war bride families made their home in Powell River and the nearby town of Stillwater War Brides and Rosies compiles these families amazing stories and artfully captures the history of Powell River and Stillwater British Columbia during World War II Barbara Ann Lambert recounts how the Powell River Company became a major player in war production as local girls became Rosies of the north assembling planes for Boeing of Canada as well as running the largest pulp and paper mill in western Canada Through their monthly newsletter the company also became a social network It included correspondence from Powell River s service men and women stationed around the world and news on overseas marriages Using this resource as well as accounts from war brides and their families Lambert shows how these women influenced the communities and helped change the perspective of women s roles in Canadian society Full of vivid detail War Brides and Rosies is an important contribution to the local history of these Canadian communities **Keep 'Em Flying** Nell Branum,2025-06-03 Sixth grader Riley Abercrombie is determined to win even if she has to gulp down her nerves and speak in public The Historical Society is having a contest with a cash prize and an all expenses paid trip to where her great grandma once lived But a winning essay about her brave relative a Rosie the Riveter in World War II may launch Riley on an adventure far bigger than she d imagined She soon finds herself in a real life mystery A famous tool an antique rivet gun is missing and Riley is sure she can uncover the culprit Chasing clues and suspects with her new friend Marcus through a museum s vintage artifacts and aircraft Riley just might discover she needs more than good detective skills Will she learn to trust God when the wrong person has been accused Can she be brave in the face of danger like her beloved great grandma When the kids sleuthing puts them in peril they re going to need faith friendship and even forgiveness to get them through **English Language Gr. 10-12** , Oh! the Places I've Been EUGENE WEISBERGER,2013-06-17 Oh The Places Ive Been is another of the many travel books I have written in the last fifteen years It does not nearly cover the many countries I have visited but I thought the title would be a cute one nevertheless

In the last four decades I have visited over sixty countries in six continents but this book will take you some interesting places which I missed writing about along the way I especially loved the little country of Wales which most travelers seem to miss along their way In thinking back about those fun places I especially liked California and the Hearst Castle and I would invite anyone who can take the time to visit there Yes it is true that it is not in the main stream of places to see but if you have traveled to the many popular places of the world take a few extra days and try to see the Hearst magical home
