Chinn,2008-11-05 The 1960s are commonly considered to be the beginning of a distinct teenage culture in America But did this highly visible era of free love and rock n roll really mark the start of adolescent defiance In Inventing Modern Adolescence Sarah E Chinn follows the roots of American teenage identity further back to the end of the nineteenth and beginning of the twentieth centuries She argues that the concept of the generation gap a stereotypical complaint against

American teens actually originated with the division between immigrant parents and their American born or raised children. Melding a uniquely urban immigrant sensibility with commercialized consumer culture and a youth oriented ethos characterized by fun leisure and overt sexual behavior these young people formed a new identity that provided the framework for today's concepts of teenage lifestyle. Addressing the intersecting issues of urban life race gender sexuality and class consciousness *Inventing Modern Adolescence* is an authoritative and engaging look at a pivotal point in American history and the intriguing complicated and still very pertinent teenage identity that emerged from it. **National Folk Dance** United States.
