Dad Stuff Steve Caplin, Simon Rose, 2005-11-07 Children expect the earth from their fathers They have to be able to conjure up games from thin air to answer every question under the sun to skim stones and tell bedtime stories

Better Readers!** Linda Hart-Hewins,Jan Wells,1999 Grade level 1 2 3 k p e t Acquiring Culture (Psychology Revivals) Gustav Jahoda,Ioan Lewis,2015-03-27 Until the 70s and 80s anthropologists studying different cultures had mainly confined themselves to the behaviour and idea systems of adults Psychologists on the other hand working mainly in Europe and America had studied child development in their own settings and simply assumed the universality of their findings Thus both disciplines had largely ignored a crucial problem area the way in which children from birth onwards learn to become competent members of their culture This process which has been called the quintessential human adaptation constitutes the theme of this volume originally published in 1988 It derives from a workshop held at the London School of Economics which brought together fieldworkers who in their studies had paid more than usual attention to children in their cultures Their experience and foci of interest were varied but this very diversity serves to illuminate different facets of the acquisition of culture by children ranging in age from pre verbal infants to adolescents Evolutionarily primed for culture learning children are responsive to a rich web of influences from subtle and indirect as in their music and dance to direct teaching in the family guided by culture specific ideas about child psychology Some of the salient things they learn relate to gender status and power critical for the functioning of all societies The introductory essay provides the necessary historical background of the development of child study in both anthropology and psychology and outlined how future research in the ethnography of childhood should proceed The book concludes with an annotated bibliography providing a guide to the literature from 1970 onwards *Very Young Learners* Vanessa Reilly,Sheila M. Ward,1997-06-12 This popular series gives teachers practical advice and guidance along with resource ideas and materials for the classroom The tasks and activities are clearly presented and offer teachers the information they need about level time preparation materials classroom management monitoring and follow up activities Each book offers up to 100 ideas as well as variations that encourage teachers to adapt the activities to suite their individual classrooms *Contexts for Young Child Flourishing* Darcia Narvaez,Julia M.
