Toklas* 1933 and Alice B. Toklas's *The Alice B. Toklas Cook Book* 1954 and *What Is Remembered* 1963 Taking these three texts as intertexts or as an assemblage of the true story of Alice B. Toklas Linzie challenges assumptions about primary authorship and singular identity that have continued to limit lesbian and feminist rereadings of autobiography as a genre and of Stein and Toklas as writers and historical figures *The True Story of Alice B. Toklas* explores how the concept of autobiography as a primarily referential genre is challenged and

transformed in relation to autobiographical texts written about the same person the same life but differently by different writers at different points in time The concept of one true story is deconstructed in the process as Linzie modifies Homi K Bhabha s almost the same but not quite not white for the purposes of this particular study as almost the same but not quite not straight The investigation moves simultaneously on the planes of textuality and sexuality in order to provisionally articulate a lesbian autobiographical subject in Linzie s reading of these three texts Linzie s study fills a gap in literary criticism where Stein s companion and her work have been more or less neglected conceptualizing the Stein Toklas sexual textual relationship as fundamentally reciprocal The True Story of Alice B Toklas provides a new critical perspective on Toklas as indispensable to Stein s literary production a cultural laborer in her own right and a writer of her own books Making a significant contribution to recent lesbian feminist reconceptualizations of the genre of autobiography this study will fascinate Stein and Toklas scholars as well as those interested in queer and autobiography studies Radicalism, Populism, Interventionism Sergiu Miscoiu,2008-01-01 **Transgenerational Colonialism** Karel James Bouse,2021-04-14 In Transgenerational Colonialism Karel James Bouse offers an alternative and holistic model for the analysis of colonialism and its effects on humanity Using the current anti colonialist struggle in Northern Ireland as a representative case study Bouse illustrates her theoretical model by tracing the onset of trauma to the eventual overcoming period evidenced by a cultural renaissance a reconstruction of collective positive identity and political self determination This book is recommended for students and scholars of psychology history political science and cultural studies as well as those interested in the cyclical nature of colonial experience Reinventing Sound Enrique Encabo,2015-10-28 Recent years have witnessed a true technological revolution with a global impact upon all areas of society from entertainment to education Technology changing and evolving at increasing speed undoubtedly shapes ways of seeing the world something which requires profound reflection in terms of how reality is understood It is undeniable that in this audiovisual world music plays a leading and prominent role This is particularly notable when considering the importance of music in relation to the way it is featured on mobile devices and as manifested in terms of other communication technologies its impact on new narrative forms and the prominence of audiovisual fiction in advertising and the new ways of creating receiving and disseminating music on the Internet This book is divided into two sections New Media New Audiences and Music Cinema and Audiovisual Practices New Approaches and the sixteen essays brought together here are the work of an international group of scholars who deal with different geographical and cultural contexts One of the highlights of this volume is its interdisciplinary re reading of a complex phenomenon that is undoubtedly a fundamental part of contemporary culture As such this collection will be of particular interest to both scholars and non specialist readers *Only in the Common People* Paul Long,2008-12-18 corrupt and moronic though the common people are seemingly becoming only in the common people can the true work be rooted the true tradition rediscovered and re informed Charles Parker BBC Radio Producer 1959 In 1958 in his best selling book Culture and

Emily Apter, 2014-06-17 *Against World Literature* On the Politics of Untranslatability argues for a rethinking of comparative literature focusing on the problems that emerge when large scale paradigms of literary studies ignore the politics of the Untranslatable the realm of those words that are continually retranslated mistranslated transferred from language to language or especially resistant to substitution In the place of World Literature a dominant paradigm in the humanities one grounded in market driven notions of readability and universal appeal Apter proposes a plurality of world literatures oriented around philosophical concepts and geopolitical pressure points The history and theory of the language that constructs World Literature is critically examined with a special focus on Weltliteratur literary world systems narrative ecosystems language borders and checkpoints theologies of translation and planetary devolution in a book set to revolutionize the discipline of comparative literature *Negotiating Tradition* Stefan Groth, 2012 Communicative interactions in international negotiations on cultural property not only provide information about the emergence and proliferation of arguments rhetorics and registers but also permit valuable insights into actors positions strategies and alliances They significantly influence local and national practices and views related to cultural property debates What can be gained from a deep analysis of the communicative patterns and strategies that actors engage in the entailing text and talk of negotiations is a better understanding of the process itself how do different actors argue what kind of strategies and rhetorics do they use to which instruments and institutions do they refer and in what way do actors react to each other An analysis of communicative interactions contributes to the question of how international negotiations work The analytic inclusion of sociolinguistic practices allows insights into positions strategies and perspectives pertaining to cultural property By looking at not only what actors say but also at how and in what contexts they do so it is possible to make more accurate statements about their positions and perceptions in cultural property debates As these communicative interactions influence outcomes considerably an approach from linguistic anthropology is not only beneficial for an understanding of specific negotiations but also for the analysis of broader cultural property issues Provided by publisher *Envisioning Ireland* Claire Nally, 2010 Although Yeats is an over theorized author little attempt has been made to situate his occult works in the political context of 20th century Ireland This book provides a methodology for understanding the political and cultural impulses which informed Yeats engagement with the otherworld *Research Methods in the Social Sciences* Bridget Somekh, Cathy Lewin, 2005 In this book the contributors introduce all the key qualitative and quantitative research methodologies and methods and draw readers into a community of researchers engaged in reflection on the research process
