The Theatre of Aphra Behn D. Hughes, 2001-02-20 During the nineteen years of her play writing career Aphra Behn had
far more new plays staged than anyone else This book is the first to examine all her theatrical work It explains her often
dominant place in the complex theatrical culture of Charles II's reign her divided political sympathies and her interests as a
free thinking intellectual It also reveals her as a brilliant theatrical practitioner who used the seen as richly and significantly
as the spoken The Cambridge Companion to Aphra Behn Derek Hughes, Janet Todd, 2004-11-25 Traditionally known as
the first professional woman writer in English Aphra Behn has now emerged as one of the major figures of the Restoration
She provided more plays for the stage than any other author and greatly influenced the development of the novel with her
ground breaking fiction especially Love Letters between a Nobleman and his Sister and Oroonoko the first English novel set
in America Behn's work straddles the genres beside drama and fiction she also excelled in poetry and she made several
important translations from French libertine and scientific works This Companion discusses and introduces her writings in all
these fields and provides the critical tools with which to judge their aesthetic and historical importance It also includes a full
bibliography a detailed chronology and a description of the known facts of her life The Companion will be an essential tool for
the study of this increasingly important writer and thinker **A Study Guide for Aphra Behn's "The Forc'd Marriage"**

research needs Rival Queens Felicity Nussbaum, 2011-10-11 In eighteenth century England actresses were frequently
dismissed as mere prostitutes trading on their sexual power rather than their talents Yet they were Felicity Nussbaum argues
central to the success of a newly commercial theater Urban recently moneyed and thoroughly engaged with their audiences
celebrated actresses were among the first women to achieve social mobility cultural authority and financial independence In
fact Nussbaum contends the eighteenth century might well be called the age of the actress in the British theater given
women's influence on the dramatic repertory and through it on the definition of femininity Treating individual star actresses
who helped spark a cult of celebrity especially Anne Oldfield Susannah Cibber Catherine Clive Margaret Woffington Frances
Abington and George Anne Bellamy Rival Queens reveals the way these women animated issues of national identity property

patronage and fashion in the context of their dramatic performances. Actresses intentionally heightened their commercial appeal by catapulting the rivalries among themselves to center stage. They also boldly challenged in importance the actor managers who have long dominated eighteenth century theater history and criticism. Felicity Nussbaum combines an emphasis on the actresses themselves with close analysis of their diverse roles in works by major playwrights including George Farquhar, Nicholas Rowe, Colley Cibber, Arthur Murphy, David Garrick, Isaac Bickerstaff, and Richard Sheridan. Hers is a comprehensive and original argument about the importance of actresses as the first modern subjects actively shaping their public identities to make themselves into celebrated properties.

Selected Philosophical and Scientific Writings

Emilie Du Châtelet, 2009-09-15 Though most historians remember her as the mistress of Voltaire, Emilie Du Châtelet (1706-49) was an accomplished writer in her own right who published multiple editions of her scientific writings during her lifetime as well as a translation of Newton's *Principia Mathematica* that is still the standard edition of that work in French. Had she been a man, her reputation as a member of the eighteenth century French intellectual elite would have been assured. In the 1970s, feminist historians of science began the slow work of recovering Du Châtelet's writings and her contributions to history and philosophy. For this edition, Judith P. Zinsser has selected key sections from Du Châtelet's published and unpublished works as well as related correspondence, part of her little-known critique of the Old and New Testaments, and a treatise on happiness that is a refreshingly uncensored piece of autobiography making all of them available for the first time in English. The resulting volume will recover Châtelet's place in the pantheon of French letters and culture.

Enrico; or, Byzantium Conquered Lucrezia Marinella, 2009-09-15 Lucrezia Marinella (1571-1653) is by all accounts a phenomenon in early modernity: a woman who wrote and published in many genres whose fame shone brightly within and outside her native Venice and whose voice is simultaneously original and reflective of her time and culture. In *Enrico or Byzantium Conquered*, one of the most ambitious and rewarding of her numerous narrative works, Marinella demonstrates her skill as an epic poet. Now available for the first time in English translation, Enrico retells the story of the conquest of Byzantium in the Fourth Crusade (1202-04). Marinella intersperses historical events in her account of the invasion with numerous invented episodes drawing on the rich imaginative legacy of the chivalric romance. Fast-moving, colorful, and narrated with the zest that characterizes Marinella's other works, this poem is a great example of a woman engaging critically with a quintessentially masculine form and subject matter, writing in a genre in which the work of women poets was typically shunned.

Literary Culture in

Early Modern England, 1630-1700 Ingo Berensmeyer, 2020-06-22 This book explores literary culture in England between 1630 and 1700, focusing on connections between material, epistemic, and political conditions of literary writing and reading. In a number of case studies and close readings, it presents the seventeenth century as a period of change that saw a fundamental shift towards a new cultural configuration: neoclassicism. This shift affected a wide array of social practices and institutions, from poetry to politics and from epistemology to civility.
