BRENT ELLIOTT

Royal Horticultural Society A History 18042004

Jan Woudstra, Colin Roth

Royal Horticultural Society A History 18042004:

The Royal Horticultural Society Brent Elliott,2004 This title is an official history of the Royal Horticultural Society from its beginnings to the present day

A History of Groves Jan Woudstra,Colin Roth,2017-08-24 The grove a grouping of trees intentionally cultivated or found growing wild has a long diverse history entwined with human settlement rural practices and the culture and politics of cities A grove can be a memorial a place of learning a site of poetic retreat and philosophy or political encampment a public park or theatre a place of hidden pleasures a symbol of a vanished forest ecology or a place of gods or other spirits Yet groves are largely absent from our contemporary vocabulary and rarely included in today's landscape practice whether urban or rural Groves are both literal and metaphorical manifestations ways of defining spaces and ecologies in our cultural life Since they can add meaning to urban forms and ecologies and contribute meaningfully to the significance of place critical examination is long overdue The editors have taken care to ensure that the text is accessible to the general reader as well as specialists

The Tree Experts Mark Johnston,2021-08-02 Trees are now in the public eye as never before The threat of tree diseases the felling of street trees and the challenge of climate change are just some of the issues that have put trees in the media spotlight At the same time the trees in our parks gardens and streets are a vital resource that can deliver environmental social and economic benefits that make our towns and cities attractive green and healthy places Ever since Roman times when amenity trees were first planted in Britain caring for those trees has required specialist skills This is mainly because of the challenges of successfully integrating large trees into the urban environment and the risks involved in working with them often at height and in close proximity to people buildings and roads But who are the people with the specialist expertise to care for our amenity trees While professionals such as horticulturists landscape architects conservationists and foresters have a role to play it is the arboriculturists who are the tree experts For centuries arboriculture was often synonymous with forestry or considered an aspect of horticulture until it emerged in the nineteenth century as a separate discipline There are now some 22 000 people employed in Britain's arboricultural industry including practical tree surgeons and arborists local authority tree officers and arboricultural consultants This is the first book to trace the history of Britain's professional tree experts from the Roman arborator to the modern chartered arboriculturist It also discusses the influences from continental Europe and North America that have helped to shape British arboriculture over the centuries The Tree Experts will have particular appeal to those interested in the natural and built environment heritage landscapes social history and the history of gardening

The Correspondence of Charles Darwin: Volume 24, 1876 Charles Darwin,2016-12-01 This volume is part of the definitive edition of letters written by and to Charles Darwin the most celebrated naturalist of the nineteenth century Notes and appendixes put these fascinating and wide ranging letters in context making the letters accessible to both scholars and general readers Darwin depended on correspondence to collect data from all over the world and to discuss his emerging ideas with scientific colleagues many of

whom he never met in person The letters are published chronologically volume 24 includes letters from 1876 the year in which Darwin published *Cross and Self Fertilisation in the Vegetable Kingdom* and started writing *Forms of Flowers* In 1876 Darwin's daughter in law Amy died shortly after giving birth to a son Bernard Darwin an event that devastated the family The volume includes a supplement of 182 letters from earlier years including a newly discovered collection of letters from William Darwin Darwin's eldest son

RHS A Nation in Bloom Mr. Matthew Biggs, 2019-05-06 Never has the work of the Royal Horticultural Society been more important or more far reaching Foreword by Alan Titchmarsh The RHS is the world's largest gardening charity but what it does and why is little understood and rarely celebrated From defining new gardening trends at the Chelsea Flower Show to ranking the best dahlias to grow at the Wisley trial grounds to inspiring communities with Britain in Bloom educating children to grow and eat their veg through the Campaign for School Gardening the RHS works tirelessly to improve the gardener's lot With the use of evocative archive images and contemporary photos by award winning Jason Ingram this beautiful book explores the past present and future of this most influential organisation by listening to the voices of those working today From the thousands of volunteers in the society's five unique gardens Wisley in Surrey Rosemoor in Devon Hyde Hall in Essex Harlow Carr in Yorkshire and new addition Bridgewater in Salford to the one million visitors to its inspirational flower shows including Chelsea Hampton Court Tatton Park Cardiff Wisley and Chatsworth the society gives meaning to more than 475 000 members millions of television viewers and visitors from around the world The RHS is the best of gardening and this book presents the best of the RHS Behind the scenes access all areas this book will give lasting pleasure to anyone who enjoys their garden

The Brother Gardeners Andrea Wulf, 2009-03-31 A fascinating look at the men who made Britain the center of the botanical world from the author of *Magnificent Rebels* and New York Times bestseller *The Invention of Nature* Wulf's flair for storytelling is combined with scholarship brio and a charmingly airy style A delightful book and you don't need to be a gardener to enjoy it The New York Times Book Review Bringing to life the science and adventure of eighteenth century plant collecting *The Brother Gardeners* is the story of how six men created the modern garden and changed the horticultural world in the process It is a story of a garden revolution that began in America In 1733 colonial farmer John Bartram shipped two boxes of precious American plants and seeds to Peter Collinson in London Around these men formed the nucleus of a botany movement which included famous Swedish botanist Carl Linnaeus Philip Miller bestselling author of *The Gardeners Dictionary* and Joseph Banks and David Solander two botanist explorers who scoured the globe for plant life aboard Captain Cook's *Endeavor* As they cultivated exotic blooms from around the world they helped make Britain an epicenter of horticultural and botanical expertise *The Brother Gardeners* paints a vivid portrait of an emerging world of knowledge and gardening as we know it today

Garden Plots Shelley Boyd, 2013-05-01 Canadian literature has long been preoccupied with the wilderness and the landscape but the garden has remained neglected terrain In *Garden Plots* Shelley Boyd focuses on private domestic gardens tended by individual gardeners to show how modest

everyday spaces provide fertile grounds for the imagination Combining the history of gardening with literary analysis *Garden Plots* explores the use of the garden motif in the works of five authors Susanna Moodie Catharine Parr Traill Gabrielle Roy Carol Shields and Lorna Crozier With works spanning the nineteenth to twenty first centuries these writers reveal the associations between the arts of writing and gardening the evolving role of the female gardener and the changes that take place in Canada s literary gardens over time With the task of understanding our connection to the physical environment becoming increasingly important *Garden Plots* explores the subtle relations between place and narrative This fresh literary approach to Canada s gardening culture reveals that gardens grow and change not simply in the earth but also in the pages of our texts [The Correspondence of Charles Darwin: Volume 15, 1867](#) Charles Darwin, Frederick Burkhardt, Sydney Smith, 1985 During 1867 Darwin intensified lines of research on human expression and sexual selection **The History of Natural History** Gavin D. R. Bridson, 2008 With over 5 300 added references this revised and updated edition is an essential source of information for scientists researchers and enthusiastic amateurs The History of Natural History is one of those key works that should be kept in easy reach of anyone interested in the study of natural history in all its branches [Garden Heroes and Villains](#) George Drower, 2006-11-23 A follow up to *Gardeners Gurus and Grubs* this collection of stories looks at the heroes and villains of the gardening world It talks about how Heron of Alexandria surprised unwelcome visitors to his garden in the ancient times by squirting water over them from his newly invented fountain the story of the garden gnome and more *Teaching Landscape History* Jan Woudstra, David Jacques, Robert Holden, 2023-11-29 Landscape history is changing in content and style to address the issues of today Experienced teachers and authors on the history of gardens and landscapes come together in this new volume to share ideas on the future of teaching history in departments of landscape architecture archaeology geography and allied subjects Design history remains important but this volume brings to the fore the increasing importance of environmental history economic history landscape history cultural landscapes environmental justice and decolonisation ideas of sustainability and climate change amelioration which may all be useful in serving the needs of a widening range of students in an increasingly complex world The main themes include what history should we narrate in the education of landscape architects how can we recognise counter narratives and our own bias how should we engage the students in the history of their chosen profession how can designers and researchers be persuaded of the relevance of history teaching to theory and practice and what resources do we need to develop teaching of landscape histories This book will be of interest to anyone teaching courses on landscape architecture urban design horticulture garden design architectural history cultural geography and more **Nineteenth-Century Gardens and Gardening** Sarah Dewis, Brent Elliott, 2024-06-19 This volume is number one of a six volume collection that brings together primary sources on gardens and gardening across the long nineteenth century Economic expansion empire the growth of the middle classes and suburbia the changing role of women and the professionalisation of gardening alongside industrialisation and the

development of leisure and mass markets were all elements that contributed to and were influenced by the evolution of gardens. It is a subject that is both global and multidisciplinary and this set provides the reader with a variety of ways in which to read gardens through recognition of how they were conceived and experienced as they developed. Material is primarily derived from Britain with Europe, USA, Australia, India, China and Japan also featuring and sources include the gardening press, the broader press, government papers, book excerpts and some previously unpublished material.

The Book of Pears Joan Morgan, 2015-10-15 Winner of the Garden Media Guild Awards Reference Book of the Year 2016, the Guild of Food Writers Food Book of the year 2016 and the BBC Food Farming Awards 2016 for Outstanding Achievement. Accompanied by a beautiful and comprehensive website of the same name, this wonderfully unique book is an indispensable and one of a kind guide. It tells the story of the pear from its delightful taste and wonderful appearance to breeding and cultivation following the fruit's journey through history and around the world. Beautifully illustrated with 40 botanical watercolour paintings by Elisabeth Dowle, *The Book of Pears* is the most up to date and comprehensive guide to the pear. Moving through continents and cultures, Joan Morgan celebrates the pear's long history as both a fresh and cooking fruit. Revealing the secrets of the pear as a status symbol, some of the most celebrated fruit growers in history and how the pear came to be so important as an international commodity. The pear directory which makes up the second half of the book covers the world's ancient and modern varieties, each with full tasting notes and historical, geographical and horticultural detail. A fully illustrated version of this directory is shown on the author's website www.thebookofpearsfruitforum.net.

Directory of Rare Book and Special Collections in the UK and Republic of Ireland Karen Attar, 2016-05-31 This directory is a handy on volume discovery tool that will allow readers to locate rare book and special collections in the British Isles. Fully updated since the second edition was published in 1997, this comprehensive and up to date guide encompasses collections held in libraries, archives, museums and private hands. The Directory provides a national overview of rare book and special collections for those interested in seeing quickly and easily what a library holds. Directs researchers to the libraries most relevant for their research. Assists libraries considering acquiring new special collections to assess the value of such collections beyond the institution showing how they fit into a unique and distinctive model. Each entry in the Directory provides background information on the library and its purpose, full contact details, the quantity of early printed books, information about particular subject and language strengths, information about unique works and important acquisitions, descriptions of named special collections and deposited collections. Readership: Researchers, academic liaison librarians and library managers.

Apples and Orchards since the Eighteenth Century Joanna Crosby, 2023-11-16 Showing how the history of the apple goes far beyond the orchard and into the social, cultural and technological developments of Britain and the USA, this book takes an interdisciplinary approach to reveal the importance of the apple as a symbol of both tradition and innovation. From the 18th century in Britain, technology innovation in fruit production and orchard management resulted in

new varieties of apples being cultivated and consumed while the orchard became a representation of stability In America orchards were contested spaces as planting seedling apple trees allowed settlers to lay a claim to land In this book Joanna Crosby explores how apples and orchards have reflected the social economic and cultural landscape of their times From the association between English apples and English virtues of plain speaking hard work and resultant high quality produce to practices of wassailing highlighting the effects of urbanisation and the decline of country ways and customs Apples and Orchards from the Eighteenth Century shows how this everyday fruit provides rich insights into a time of significant social change

The ^AFlower of Empire Tatiana Holway,2013-03-01 The fascinating story of the massive Amazonian water lily the Victoria regia from its discovery in the wilds of British Guiana in 1837 to its metamorphosis into a symbol of Victorian culture and of the British Empire itself

A Cultural History of Plants in the Nineteenth Century David Mabberley,2023-12-14 A Cultural History of Plants in the Nineteenth Century covers the period from 1800 to 1920 a time of astonishing growth in industrialization urbanization migration population growth colonial possessions and developments in scientific knowledge As European modes of civilization and cultivation were exported worldwide botanical study was revolutionized through the work of Charles Darwin and many others and the new science of biology was born based on cells nuclei and molecules As Darwinism took hold plants came to be seen as a way of thinking about the connectivity of nature and life itself The 6 volume set of the Cultural History of Plants presents the first comprehensive history of the uses and meanings of plants from prehistory to today The themes covered in each volume are plants as staple foods plants as luxury foods trade and exploration plant technology and science plants and medicine plants in culture plants as natural ornaments the representation of plants David Mabberley is Emeritus Fellow at Wadham College University of Oxford UK Emeritus Professor at the University of Leiden The Netherlands and Adjunct Professor at Macquarie University Australia Volume 5 in the Cultural History of Plants set General Editors Annette Giesecke University of Delaware USA and David Mabberley University of Oxford UK

The Oxford Companion to the Garden Patrick Taylor,2008 Now available for the first time in paperback the magnificent Oxford Companion to the Garden illuminates the history and design of gardens all over the world from the earliest recorded known examples to the present day encompassing everything from small private gardens to the secret gardens of Arab princes to the vast public park at Versailles With hundreds of photographs and illustrations the book s broad sweep make it the perfect reference for garden lovers everywhere offering in 1 750 alphabetical entries wide ranging coverage that sheds light on virtually every aspect of the topic The writing is authoritative and engaging and there are sumptuous color photographs by some of the world s best garden photographers as well as elegant engravings of historical subjects Well over half of the entries are devoted to individual gardens many of them open to the public These include every kind of garden from palace gardens to botanic gardens and arboreta late 20th century land art and contemporary gardens everywhere The volume also provides biographies of garden designers nurserymen and others entries on the worlds of

horticulture and plant science and articles that range from garden elements and styles to scientific issues and social history Central to the book are the garden cultures of Italy Britain France China Japan and the USA but the coverage is worldwide including such far flung regions as Turkey Peru and Bali The contributors include leading authorities and top garden writers from more than 25 countries Many of their entries include suggestions for further reading and the work s usefulness is further enhanced by a general bibliography a thematic listing of contents and an index of gardens individuals themes and features Put plainly this doorstop of a reference book is worth its weight in gold The Los Angeles Times The perfect guide for anyone who wants to learn in an entertaining way about magnificent classical to contemporary gardens of the world Can be displayed on your coffee table The Washington Post Liberally sprinkled with handsome full color photographs that catch the spirit of the individual landscapes National Gardener A word of warning there s no quick escape from this marvelous book Hugh Johnson Enlightenment, Modernity and Science Paul A. Elliot,2010-10-30 Scientific culture was one of the defining characteristics of the English Enlightenment The latest discoveries were debated in homes institutions and towns around the country But how did the dissemination of scientific knowledge vary with geographical location What were the differing influences in town and country and from region to region Enlightenment Modernity and Science provides the first full length study of the geographies of Georgian scientific culture in England The author takes the reader on a tour of the principal arenas in which scientific ideas were disseminated including home town and countryside to show how cultures of science and knowledge varied across the Georgian landscape Taking in key figures such as Erasmus Darwin Abraham Bennett and Joseph Priestley along the way it is a work that sheds important light on the complex geographies of Georgian English scientific culture **The British Arboretum** Paul A Elliott,2015-07-22 This study explores the science and culture of nineteenth century British arboretums These were fostered by a variety of factors global trade and exploration popularity of collecting significance to the British economy and society developments in science changes in landscape gardening aesthetics and agricultural and horticultural improvement
