**Midland and Scottish Railway Steam Locomotives** Keith Langston, 2019-08-30 This British Railways history explores the long held tradition of naming steam locomotives in honor of the military The naming of steam locomotives was a beloved British tradition since the first railway locomotives appeared in 1804 Many of the names were chosen in honor of military personnel regiments squadrons naval vessels aircraft battles and associated historic events This volume looks specifically at the steam locomotives with military inspired names that were built by the London North Eastern Railway which joined the British Railways stock in 1948 A large number of the company's Jubilee class locomotives were given names with a military connection as were a small number of Black Five class engines Famously the majority of the much admired Royal Scot class of engines carried names associated with the military in general and regimental names in particular Many of the nameplates were adorned with ornate crests and badges Long after the demise of mainline steam rescued nameplates have become prized collectors items This generously illustrated publication highlights the relevant steam locomotives and explains the origins and social history surrounding their military names

Britain's Railways Through the Seasons David Goodyear, 2023-01-31 The four seasons pass by like a gliding ship each signalled by a transformation of changing colors and hues of light thus providing a form of marker to these passages of time Living in the temperate zone we experience four distinct seasons The railway scene reflects such in its own special character cold winter air enhances the bountiful steam escaping from the hissing steam locomotive impatiently awaiting its departure while autumn enchants with trees that exude a variety of hues which embellish any image of even the most mundane suburban train Springtime blossom and wild flowers bestow railway cuttings with a bounty of generous bright colors while coastal railways often look most inviting on warm sunny days as they pass alongside azure seas and golden beaches The seasons each add their own dimension for the photographer to encapsulate and railways passing through the ever changing landscape provide their own tribute to this inspirational tapestry As readers travel through each season so they are invited to share this awe and constant source of inspiration from nature's kaleidoscope of color Photographs are provided with captions

and reflective commentary to enlighten the knowledgeable rail enthusiast alongside those who equally enjoy such a portrait of landscape and scenery through the seasons The range of photographs ranges from the mid 1980 s to the present with the majority from the last two decades *The Last Days of British Steam* Malcolm Clegg,2020-11-06 A treasury of photos capturing the end of an era in transportation history the final decade of steam locomotives in Britain Malcolm Clegg has been taking railway pictures since the early 1960s and also enjoys access to collections taken by friends who were recording the steam railway scene during this period In this book he covers a wide variety of classes of locomotives that were withdrawn during the last decade of steam traction examples of some of which are now preserved This book is a record of his and other peoples journeys during the last decade of steam in the 1960s with photographs and informative captions looking at steam traction in a wide variety of geographical locations around the British Railways network **Great Central Railway** John Evans,2020-04-15 Wonderful previously unpublished images documenting the years before and after the Great Central Line was cut *LONDON MIDLAND & SCOTTISH* Bill Horsfall,2014 The London Midland Scottish Railway the LMS Great Britain s largest from 1923 1947 has been extensively chronicled but an update is long overdue This unique work achieves it and much more combining detailed information scattered over books and magazines through decades into a concise overview of what the company was about and how it worked Its analyses of locomotive stock provide a further insight into methods of operation The LMS pioneering work in both steam and diesel traction plus that in other fields put it ahead of Britain s other three railways and for this it is here accorded the recognition it deserves Fascinating amusing anecdotes give an insight into the staff s work ethic and into contemporary social conditions Key decisions by the LMS Executive to overcome the rivalry of its two largest constituents resulted in the appointment of an engineer who would create not only modern efficient locomotives and rolling stock but also an effective and unified design team which would actually outlive the company and provide the spine of the four nationalized railways from 1948 The technical details such as wheel notation 4 4 0 etc boiler pressures and valve gears are well within the ambit of railfans and complete the picture of this Britain s greatest railway

**Railways of Today- Their Evolution, Equipment and Operation** Cecil John Allen,1929 **The Rebuilt 'Royal Scots'** Fred James,David Hunt,Bob Eddery,R. J. **Steam Trains and Jigsaw Puzzles** David Platt,2007-07-18 Steam Trains and Jigsaw Puzzles strikes most people as an intriguing title The origin is simple however my trainspotting youth has been synchronized with a later interest in jigsaw puzzles The result is expensive I have a collection of over 250 jigsaws depicting British steam railways The conclusion is impossible there are over 500 steam railway jigsaw puzzles to collect and they are being supplemented annually The Liverpool Manchester Railway marked the arrival of the true passenger railway service in 1830 and presented jigsaw manufacturers with another subject on which to focus Prior to this date the jigsaw experience started by John Spilsbury in c1760 was restricted to subjects such as religion geography history monarchs the alphabet and art Many characteristics combine to form the basis of nostalgic images buried indelibly in the minds of people who travelled in the steam railway age Manufacturers have not been slow to tap into this nostalgia and produce jigsaws aimed at stirring those memories and inviting people to reflect on past experiences good bad or indifferent Chad Valley Victory Good Companion Falcon Waddingtons and Arrow are just a few manufacturers who produced steam railway jigsaws in the past Most of these companies are now a distant memory while others are in foreign ownership Equally famous names such as Wentworth Ravensburger Germany House of Puzzles Gibsons JR Puzzles and King Puzzles Holland continue the manufacturing tradition Output is generally superb thanks to the efforts of fine railway artists such as Terence Cuneo George Heiron T E North Don Breckon John Austin Barry Freeman and Malcolm Root The book is aimed at anyone with an interest in jigsaw puzzles and at those enthusiasts and aficionados who refuse to allow those evocative memories of the Golden Age of Steam to die

**Lost Lines** Tom Ferris,2020-07-05 Though the railway from Chester to Holyhead is still busy today serving those living along the coast of north Wales and travellers to Ireland as it has done since the 1840s this is a nostalgic journey back in time to when the line was in its steam age heyday The book includes a short history of the route and a selection of photographs featuring many of the stations and locations along the way
