Royalty And Diplomacy In Europe 1890 1914

Eva Giloi

Royalty And Diplomacy In Europe 1890 1914:

Royalty and Diplomacy in Europe, 1890-1914 Roderick R. McLean, 2007-07-26 This 2001 book examines the diplomatic role of royal families in the era before the outbreak of the First World War It argues that previous historians have neglected for political reasons the important political and diplomatic role of monarchs during the period Particular attention is given to the Prusso German Russian and British monarchies The Prusso German and Russian monarchies were central in their countries diplomacy and foreign policy principally as a result of their control over diplomatic and political appointments However the book also argues that the British monarchy played a much more influential role in British diplomacy than has been accepted hitherto by historians Individual themes examined include relations between Kaiser Wilhelm II and Tsar Nicholas II the political significance of the ill feeling between Wilhelm II and his uncle King Edward VII the role of Edward VII in British diplomacy and the impact of royal visits on pre 1914 Anglo German relations **Provincial Power and**

Absolute Monarchy Julian Swann, 2003-08-21 This is the first book in English to study the history of the Estates General of Burgundy during the classic period of absolute monarchy Although not a representative institution in any modern sense the Estates were constantly engaged in a process of bargaining with the French crown and this book examines that relationship under the Ancien R gime Julian Swann analyses the organization membership and powers of the Estates and explores their administration their struggles for power with rival institutions and their relationship with the crown and with the Burgundian people The Estates proved remarkably resilient when confronted by the challenges posed by the Bourbon monarchy and by the reign of Louis XVI they were seemingly more powerful than ever However the desire to protect their privileges and to extend their authority had not been accompanied by an attempt to forge a meaningful relationship with the people they claimed to serve **Historical Dictionary of the British Monarchy** Kenneth J. Panton, 2011-02-24 The monarch is the

United Kingdom s head of state exercising powers that are circumscribed by common law convention and statute law Nowadays many of the sovereign s functions are ceremonial but in the past the balance between ceremony and decision making was very different The foundations of the modern monarchy were laid more than a millennium ago in Anglo Saxon and Celtic Britain so its modern form is a stage in an evolution that has been shaped by attitudes towards divorce the changing role of women the democratization of society dynastic intermarriage financial demands religious convictions struggles for economic and political power and territorial aggrandizement Covering some of the most famous figures in world history including William the Conqueror Henry VIII and Queens Victoria Elizabeth I and Elizabeth II the Historical Dictionary of the British Monarchy provides a chronology starting with the year 495 and continuing to the present day an introductory essay an extensive bibliography and over 600 cross referenced dictionary entries on significant persons places events institutions and other aspects of British culture society economy and politics This book is a must for anyone interested in the British monarchy Conflict, Catastrophe and Continuity Frank Biess, Mark Roseman, Hanna Schissler, 2007-07-01 Bringing

together some of the most prominent contemporary historians of modern Germany alongside innovative newcomers to the field this volume offers new perspectives on key debates surrounding Germany's descent into and emergence from the Nazi catastrophe It explores the intersections between society economy and international policy with a particular interest in the relations between elites and the wider society and provides new insights into the complex continuities and discontinuities of modern German history This volume offers a rich selection of essays that contribute to our understanding of the road to war Nazism and the Holocaust as well as Germany's transformation after 1945 Fatherlands Abigail Green,2001-09-06 An exploration of the nature of identity in nineteenth century Germany **Wilhelm II** John C. G. Röhl,2004-08-19 Kaiser Wilhelm II 1859-1918 ruled Imperial Germany from his accession in 1888 to his enforced abdication in 1918 at the end of the First World War This book based on a wealth of previously unpublished archival material provides the most detailed account ever written of the first half of his reign Following on from John Röhl's definitive and highly acclaimed *Young Wilhelm The Kaiser's Early Life 1859-1888* 1998 the volume demonstrates the monarch's dynastic arrogance and the wounding abuse he showered on his own people as step by step he built up his personal power His thirst for glory his overweening nationalism and militarism and his passion for the navy provided the impetus for a breathtaking long term goal the transformation of the German Reich into the foremost power in the world Urgent warnings from all sides both against the revival of a semi absolute Personal Monarchy on the threshold to the twentieth century and against the challenge his goal of world power implied for the existing World Powers Great Britain France and Russia were brushed aside by the impetuous young ruler with his faithful military retinue and blindly devoted court favourites Soon the predicted consequences constitutional crisis at home and diplomatic isolation abroad began to make their alarming appearance **The Great Naval Game** Jan Rüger,2007-06-21 An innovative study of the cult of the navy in the age of empire *Edward VII (Penguin Monarchs)* Richard Davenport-Hines,2016-02-25 Like his mother Queen Victoria Edward VII defined an era Both reflected the personalities of their central figures hers grand imperial and pretty stiff his no less grand but much more relaxed and enjoyable This book conveys Edward's distinct personality and significant influences To the despair of his parents he rebelled as a young man conducting many affairs and living a life of pleasure But as king he made a distinct contribution to European diplomacy and which is little known to London laying out the Mall and Admiralty Arch Richard Davenport Hines's book is as enjoyable as its subject and the age he made *The Europe Illusion* Stuart Sweeney,2019-04-01 In *The Europe Illusion* Stuart Sweeney considers Britain's relationships with France and Prussia Germany since the map of Europe was redrawn at Westphalia in 1648 A timely and far sighted study it argues that integration in Europe has evolved through diplomatic economic and cultural links cemented among these three states Indeed as wars became more destructive and economic expectations were elevated these states struggled to survive alone Yet it has been rare for all three to be friends at the same time Instead apparent setbacks like Brexit can be seen as reflective of a more pragmatic Europe where integration proceeds

within variable geometry *The Kaiser* Annika Mombauer, Wilhelm Deist, 2003-11-17 This collection of innovative essays examining the role of Wilhelm II in Imperial Germany was first published in 2003 particularly on the later years of the monarch's reign The essays highlight the Kaiser's relationship with statesmen and rulers his role in international relations the erosion of his power during the First World War and his ultimate downfall in 1918 The book demonstrates the extent to which Wilhelm II was able to exercise personal rule largely unopposed by the responsible government and supported in his decision making by his influential entourage The essays are based on thorough and far reaching research and on a wide range of archival sources Written to honour the innovative work of John Rhl Wilhelm II's most famous biographer on his sixty fifth birthday the essays within this volume will continue to provide an exciting evaluation of the role and importance of this controversial monarch *Empresses and Queens in the Courtly Public Sphere from the 17th to the 20th Century* Marion Romberg, 2022-02-22 This book analyzes the evolving interaction between court and media from an understudied perspective Eight case studies focus on different European Empress consorts and Queen regnants from the seventeenth to the twentieth centuries using a comparative cross media and cross period approach The volume addresses a multitude of questions ranging from how dynastic women achieved public prominence through their portraits how their faces and bodies were moulded and rearticulated to fit varying expectations in the courtly public sphere and the degree to which they as female actors engaged with or had agency within the processes of production and reception In particular two types of female rulership and their relationship to diverse media are contrasted and lesser known and under researched dynastic women are spotlighted Contributors Christine Engelke Anna Fabiankowitsch Inga Lena ngstr m Grandien Titia Hensel Andrea Mayr Alison McQueen Marion Romberg and Alison Rowley *Monarchy, Myth, and Material Culture in Germany 1750-1950* Eva Giloi, 2011-07-21 A fascinating study of how ordinary German subjects collected and consumed royal relics and memorabilia *The Emperors* Gareth Russell, 2014-08-15 The fascinating story of the Austrian German and Russian imperial families during the four years of the First World War and the political and personal struggles that brought about their ruin **Nobles and Nation in Central Europe** William D. Godsey, Jr, 2004-11-18 This is a study of Central European nobles in revolution As one of Germany's richest most insular and most autonomous nobilities the Free Knights in Electoral Mainz represented the early modern noble ideal of pure bloodlines and cosmopolitan loyalties in the old society of orders But this world came to an end with the outbreak of the revolutionary wars in 1792 Quite apart from the social economic and political dislocations and loss the era from 1789 to 1815 also meant a cultural reorientation for the nobility William D Godsey Jr here explores how nobles in post revolutionary Germany gradually abandoned their old self understanding and assimilated with the new cultural nation while aristocrats in the Habsburg Empire which had taken in many emigres from Mainz moved instead towards supranationalism This is a major contribution to debates about the relationship between identity cultural nationalism supranationalism and religion in Germany and the Habsburg Empire Monarchies and the Great War Matthew

Glencross, Judith Rowbotham, 2018-10-11 This volume challenges the traditional view that the First World War represents a pivotal turning point in the long history of monarchy suggesting the picture is significantly more complex Using a comparative approach it explores the diverse roles played by monarchs during the Great War and how these met the expectations of the monarchic institution in different states at a time of such crisis Its contributors not only explore less familiar narratives including the experiences of monarchs in Belgium and Italy as well as the Austro Hungarian Japanese and Ottoman Empires but also cast fresh light on more familiar accounts In doing so this book moves away from the conventional view that monarchy showed itself irrelevant in the Great War by drawing on new approaches to diplomatic and international history ones informed by cultural contextualization for instance while grounding the research behind each chapter in a wide range of contemporary sources The chapters provide an innovative revisiting of the actual role of monarchy at this crucial period in European indeed global history and are framed by a substantial introductory chapter where the key factors explaining the survival or collapse of dynasties and of the individuals occupying these thrones are considered in a wide ranging set of reflections that highlight the extent of common experiences as well as the differences **Ordinary Prussians**

William W. Hagen, 2002-12-12 Table of contents **Crown, Cloak, and Dagger** Richard J. Aldrich, Rory Cormac, 2023 Richard J Aldrich and Rory Cormac reveal the remarkable relationship between the British Royal Family and the intelligence community from the reign of Queen Victoria through two world wars and the Cold War to the present day Based on painstaking archival research the authors have uncovered a wealth of detail that changes our understanding of the role of the monarch in modern British politics intelligence and international relations Far from being a dry tome on page after page Crown Cloak and Dagger offers surprising revelations and stories of intrigue The book begins with the reign of Queen Victoria when persistent attempts to assassinate her demanded the creation of security services Successive queens and kings have all played an active role in steering British intelligence sometimes running parallel networks against the wishes of prime ministers Even today Queen Elizabeth II receives copy No 1 of every intelligence report and likely knows more state secrets than any person alive This book demonstrates that even in the era of constitutional monarchy queens and kings continue to be far more than figureheads of state Crown Cloak and Dagger is a fascinating and fast paced history that will inform as well as entertain anyone with an interest in history espionage and the Royal Family **Lord Salisbury and**

Nationality in the East Shih-tsung Wang, 2019-06-07 This study explains how Salisbury viewed cultural conflicts between the East and the West how he treated Oriental nationality and nationalist aspirations in British dominions in the East and how he directed British policy in the Eastern world in a time when the Western Powers were plunging into a struggle for spheres of predominance In pursuit of British imperial interests Salisbury was outwardly determined but acutely aware of the inherent moral conflicts He understood that the expansion of Europe was inevitable but taking into account the rights and feelings of the Eastern nations he endeavoured to reduce his country's impact on the peoples subjected to British control

Hence his preference for the generally peaceful invasion effected by informal empire Following an introductory discussion on Salisbury's ideas and policy particularly in the light of his treatment of nationality this research investigates his record in India Turkey Egypt and China to argue for a strikingly sympathetic attitude in his dealings with Eastern nationalities While it is a truism to say that British imperialism was coloured by Christian beliefs and liberal principles it has not yet been appreciated how far Salisbury succeeded in reconciling the moral and practical demands of Western civilization upon itself with the requirements of power

Scandinavia and the Great Powers in the First World War Michael Jonas, 2019-02-21 This study is among the first works in English to comprehensively address the Scandinavian First World War experience in the larger international context of the war It surveys the complex relationship between the belligerent great powers and Northern Europe's neutral small states in times of crisis and war The book's overreaching rationale draws upon three underlying conceptual fields neutrality and international law hegemony and great power politics as well as diplomacy and policy making of small states in the international arena From a variety of angles it examines the question of how neutrality was understood and perceived negotiated and dealt with both among the Scandinavian states and the belligerent major powers especially Britain Germany and Russia For a long time the experience of neutral countries during the First World War was seen as marginal and was overshadowed by the experiences of occupation and collaboration brought about by the Second World War In this book Jonas demonstrates how this perception has changed with neutrality becoming an integral part of the multiple narratives of the First World War It is an important contribution to the international history of the First World War cultural historically influenced approaches to diplomatic history and the growing area of neutrality studies

Queen Victoria and the European Empires John Van der Kiste, 2017-01-20

The book delves into Royalty And Diplomacy In Europe 1890 1914.
