Robert Burns and Pastoral Nigel Leask,2010-07-02 Robert Burns and Pastoral is a full scale reassessment of the writings of Robert Burns 1759 1796 arguably the most original poet writing in the British Isles between Pope and Blake and the creator of the first modern vernacular style in British poetry Although still celebrated as Scotland s national poet Burns has long been marginalised in English literary studies worldwide due to a mistaken view that his poetry is linguistically incomprehensible and of interest to Scottish readers only Nigel Leask challenges this view by interpreting Burns s poetry as an innovative and critical engagement with the experience of rural modernity namely to the revolutionary transformation of Scottish agriculture and society in the decades between 1760 and 1800 thereby resituating it within the mainstream of the Scottish and European enlightenments Detailed study of the literary social and historical contexts of Burns s poetry explodes the myth of the Heaven taught ploughman revealing his poetic artfulness and critical acumen as a social observer as well as his significance as a Romantic precursor Leask discusses Burns s radical decision to write Scots pastoral rather than English georgic poetry in the tradition of Allan Ramsay and Robert Fergusson focusing on themes of Scottish and British identity agricultural improvement poetic self fashioning language politics religion patronage poverty antiquarianism and the animal world The book offers fresh interpretations of all Burns s major poems and some of the songs the first to do so since Thomas

Crawford s landmark study of 1960 It concludes with a new assessment of his importance for British Romanticism and to a Four Nations understanding of Scottish literature and culture      **The Academy** ,1897      **The Current Magazine** ,1897
