**A Scientist of the Invisible. An Introduction to the Life and Work of Rudolf Steiner. [With a Portrait.].** Arthur Pearce SHEPHERD,1954 *A Scientist of the Invisible. An Introduction to the Life and Work of Rudolph Steiner* A. P.. Shepherd,1954 The Temple Sleep of the Rich Young Ruler Edward Reaugh Smith,2011-11 Who wrote the Gospel of John The author identifies himself only as the disciple whom Jesus loved and Christian tradition tells us that this disciple was the apostle John However during the past century scholars have increasingly come to doubt that attribution In 1902 Rudolf Steiner wrote that the author of the Gospel of John was in fact Lazarus Steiner s position stemmed from his insight that Lazarus s encounter with death involved far more than people realized an initiation into higher spiritual realities that uniquely qualified him to write this gospel Edward Smith takes up this argument and shows that subsequent research has tended to favor Lazarus for reasons grounded in John s Gospel itself More important Smith shows that subsequent discoveries at Nag Hammadi and Mar Saba corroborate Steiner s reasoning about the nature of the raising of Lazarus pointing to Lazarus as the rich young ruler of Mark s Gospel **The Development of Anthroposophy since Rudolf Steiner's Death** T.H. Meyer,Paul V. O'Leary,2014-11-01 This volume begins with Thomas Meyer s assessment of Anthroposophy s evolution since Rudolf Steiner s death and its future prospects He offers an overview of the eighty seven years of the development of the anthroposophic movement and the Anthroposophical Society the worldwide organization headquartered in Dornach Switzerland since the death of its founder The Society went through a very difficult and controversial period in the ten years following Steiner s death which culminated at its Annual Meeting in 1935 The result was the expulsion from the Society of two members appointed by Rudolf Steiner to its Executive Board Vorstand Ita Wegman and Elizabeth Vreede as well as the British and Dutch branches of the Society and many important anthroposophists who opposed the expulsions Meyer whose many books include Rudolf Steiner s Core Mission reveals the extraordinary concordance of four November 17 dates highly significant in the development of Anthroposophy On November 17 1901 the anniversary of the founding of the Theosophical Society in 1875 Marie von Sivers asked Rudolf Steiner to create an esoteric path suited to the Western mind which set Steiner on his mission On November 17 1923 Ita Wegman urged Steiner to establish a new Society with Steiner himself joining as both a member and its president Twelve years later on November 17 1935 the remaining

three individuals of the Executive Board wrote to Adolf Hitler to plea for the Society's continued existence in Germany after being banned in Germany by the Nazi regime. Profound connections underlie these events. Four appendices supplement the present volume. Appendix 1 presents a Chronology that denotes by year and day significant episodes in Steiner's life and in the development of Anthroposophy. The remaining appendices feature for the first time in English in one volume significant documents pertinent to the Anthroposophical Society's Easter 1935 Annual Meeting. Appendix 2 contains the Memorandum written by supporters of Marie Steiner setting forth a list of grievances in support of the expulsion motions adopted at the 1935 Annual Meeting. Appendix 3 records Ludwig Polzer Hoditz's address in response to the 1935 Annual Meeting counseling against the expulsion measures. Appendix 4 contains the letter in English and German written by the Society's Executive Board to Adolf Hitler. This important book offers profound insights into the struggles for individual freedom and voice during the early years of the Anthroposophical Society. Seeing the dynamics of that struggle can help us today to overcome differences to work toward common purpose both in the context of our everyday lives and within a spiritually oriented community.

*A Secret History of Consciousness* Gary Lachman, 2003-07  
For the last four centuries, science has tried to account for everything in terms of atoms and molecules and the physical laws they adhere to. Recently, this effort was extended to try to include the inner world of human beings. Gary Lachman argues that this view of consciousness is misguided and unfounded. He points to another approach to the study and exploration of consciousness that erupted into public awareness in the late 1800s. In this secret history of consciousness, consciousness is seen not as a result of neurons and molecules but as responsible for them; meaning is not imported from the outer world but rather creates it. In this view, consciousness is a living, evolving presence whose development can be traced through different historical periods and which evolves along a path to a broader, more expansive state. What that consciousness may be like and how it may be achieved is a major concern of this book. Lachman concentrates on the period since the late 1800s when Madame Blavatsky first brought the secret history out into the open. As this history

unfolds we encounter the ideas of many modern thinkers from esotericists like P D Ouspensky Rudolf Steiner and Colin Wilson to more mainstream philosophers like Henri Bergson William James Owen Barfield and the psychologist Andreas Mavromatis Two little known but important thinkers play a major role in his synthesis Jurij Moskvitin who showed how our consciousness relates to the mechanisms of perception and to the external world and Jean Gebser who presented perhaps the most impressive case for the evolution of consciousness An important contribution to the study of consciousness a must read

**By the Light of the Lanthorn** Siegfried W. Rudel, 2011 When Council Inspector Paul Clark visited the Peredur Trust in Cornwall more than twenty years ago he was under pressure to serve a legal notice to comply with various regulations or face closure He expected to encounter a cult organization with weird and unpalatable practices In fact he found something quite different As he says in his foreword I came to inspect I stopped to evaluate and I remained to admire Paul later became the trust s chief executive The Peredur Trust has been caring for disadvantaged and differently abled individuals effectively and successfully for more than sixty years Siegfried Rudel its president and one of its four founders tells the story of how the impulse behind the organization inspired by the philosophy of Rudolf Steiner first transpired However this is not simply a narrative and history of a single organization rather this book represents a universal cultural impulse that embraces the needs of our time and one that reappears today in many residential communities for people with special needs around the world In a fascinating presentation and with the aid of many archival photographs In the Light of the Lanthorn tackles interrelated themes including the arts the environment sustainability agriculture and nutrition all in the light of working with individuals with special needs *A Scientist of the Invisible* Arthur Pearce Shepherd, 1954 **The Search for Neofascism**

A. James Gregor, 2006-03-27 Publisher description *The Mystery of the Two Jesus Children* Bernard Nesfield-Cookson, 2005 The Christian Gospels give two widely differing genealogies for Jesus which have baffled theologians throughout the centuries Not only are these genealogies irreconcilable but the stories of the two accounts of the birth of Jesus as given by Matthew and Luke are also radically different How can we account for this An ancient tradition tells that there were two children named Jesus a year apart in age and both born to parents named Mary and Joseph These two children brought up in close proximity eventually united in a mysterious way resulting in a single Jesus destined to grow up and fulfill the prophecies of the Old Testament In grappling with this mystery Nesfield Cookson uses all available sources biblical accounts Christian apocryphal writings Aramaic and Hebrew documents discovered in the Qumran caves in the twentieth century the Dead Sea Scrolls writings by Syrian theologians of the thirteenth century and in particular statements by Rudolf Steiner the first modern thinker to speak of the existence of two Jesus children The author also refers to the many works of art largely by Italian artists of the Renaissance period which appear to depict two Jesus children Fifteen of these paintings are reproduced as beautiful full color plates The author also develops a parallel theme regarding the mystery of Christ and Jesus the gradual descent of Christ the Spirit of the Sun from the spiritual world into the physical body of Jesus

Steiner Waldorf Pedagogy in Schools Martyn Rawson, 2021-05-24 This book offers a comprehensive exploration of Steiner or Waldorf pedagogy and practice in schools Drawing on key research it traces the origins of Steiner education from the original Waldorf school and shows how this approach has since been adapted and applied in educational settings around the world Outlining the educational philosophy of Steiner education the book considers its unique features such as its commitment to a pedagogical anthropology that takes the whole developing human being into account body mind and spirit and the developmental approach that arises out of this It sets out the specific curriculum and teaching approach alongside vignettes of teaching and learning situations adopted in Steiner educational settings to show how the approach works in practice Offering a critical perspective on this teaching style Rawson examines the contributions that Steiner education has made in different cultures and looks towards future developments in China and other Asian countries Considering all aspects of Steiner education this book is essential reading for anyone wanting to understand the fundamental elements of this approach and its continuing relevance within the educational landscape

Pedagogies of the Imagination Timothy Leonard, Peter Willis, 2008-06-11 I have long admired the mythopoetic tradition in curriculum studies That admiration followed from my experience as a high school teacher of English in a wealthy suburb of New York City at the end of the 1960s A dream job I taught four classes of 15-20 students during a nine period day in a dream suburb where I could afford to reside only by taking a room in a retired teacher's house many of these often Ivy League bound students had everything but meaningful lives This middle class Midwestern young teacher was flabbergasted In one sense my academic life has been devoted to understanding that searing experience Matters of meaning seemed paramount in the curriculum field to which Paul Klohr introduced me at Ohio State Klohr assigned me the work of curriculum theorists such as James B Macdonald Like Timothy Leonard who also studied with Klohr at Ohio State and Peter Willis Macdonald 1995 understood that school reform was part of a broader cultural and political crisis in which meaning is but one casualty In the mythopoetic tradition in curriculum studies scholars labor to understand this crisis and the conditions for the reconstruction of meaning in our time in our schools
