Scientist A Metaphysical Autobiography:

The Scientist Lilly, 1996-10-23 The author of Mind of the Dolphin and Center of the Cyclone tells the story of his astonishing discoveries from his early experiments mapping the brains of monkeys and communication with dolphins to his awesome breakthroughs with consciousness expanding drugs and isolation tanks His revelations in The Scientist are staggering his latest report on the solid state conspiracy on communication with extraterrestrials and the imperative of dolphin human dialog will grip the reader with its sense of cosmic vision. This expanded edition of The Scientist contains bubbles of consensus reality text and photos in the hyperspace narrative It includes an introduction by Timothy Leary an afterward by Burgess Meredith biographical and bibliographic information The third edition has an update on John Lilly s work with Human Dolphin communication and the results of recent reintroduction of captive dolphins and other cetaceans to The Scientist; a Metaphysical Autobiography John C. Lilly, 1996 Reign of the Anunnaki Jan Erik Sigdell, 2018-09-11 Reveals the ongoing alien manipulation of humanity and how we can break free Explores how the Anunnaki have maintained invisible surveillance over us and how they control our development through religion secret societies and catastrophes Reveals how they feed off our energies and how this ability has allowed them to remain here on Earth as multidimensional entities enforcing their control invisibly Explains how they established religion to control us and how Gnostic Christianity which came from Christ and not the Anunnaki offers a way out of their matrix of control Cuneiform texts found on clay plates in Mesopotamia tell us about an extraterrestrial race called the Anunnaki who came from space to exploit our planet Through genetic manipulation they created modern humans from existing earthly life forms to serve them as slaves They physically left our planet millennia ago but as Jan Erik Sigdell reveals their influence and control over humanity is still pervasive and significant Sigdell explains how the Anunnaki have maintained invisible surveillance over us as well as control over how humanity develops setting limits on our evolution and holding back our development by means of manipulation and catastrophes including the deluge immortalized in the Bible and many other ancient myths He shows how they still manipulate our politics and affairs via secret societies such as the Illuminati and the political elite such as the Bilderberg Group Examining ancient descriptions of the Anunnaki as entities that resemble winged reptiles or amphibians the author also explores their diet and how they feed off blood and the energies given off by lower life forms such as humans when they are expressing extreme negative emotions having sex or dying This energy feeding ability has allowed them to remain here on Earth as multidimensional entities enforcing their control invisibly He explains how the Anunnaki established religions as tools for control setting up the major religions with themselves as gods and playing them against each other to keep humanity s attention away from ongoing Anunnaki manipulation They have also hidden from us the existence of the true highest creator who created the cosmos as well as the Anunnaki themselves The author reveals how the highest creator sent a messenger called Jesus to expose the Anunnaki and show us a way out of their matrix of control through a spirituality based on love empathy and sacred sexuality But the god of the Anunnaki defeated this messenger and replaced him with a false Christ This led to the development of Paulinian Christianity under Anunnaki influence as well as other parallel religions such as Islam and the suppression and elimination of the original Christianity Gnostic Christianity With the discovery of hidden Gnostic texts and teachings at Nag Hammadi in 1945 the way is now paved for our release from the reign of the Anunnaki

The Politics of Self-Determination

Timothy Leary, 2010-06-15 Visionary Harvard psychologist Timothy Leary became the charismatic leader of the 60s counterculture Remembered as a pioneer of research and experimentation with psychedelic substances he was also an author lecturer political dissident and media magnet whose wit and charm captured the world's attention In this collection of essays from Leary s early career he presents his concept of personal responsibility for the effects of one s behavior According to Leary self determining people don t blame their parents their race or their society they accept responsibility for their actions which in turn determines the responses they get from the world These writings had an enormous impact on the humanistic psychology movement and libertarian redefinition of the doctor patient relationship Ronin's new offering gives readers a fascinating glimpse into Leary s ground breaking work in this area The Steersman John C. Lilly, 2009-06-15 In this intellectually bracing work John C Lilly whose groundbreaking research inspired Day of the Dolphins and Altered States likens humans to biochemical robots without an operating manual By learning to program the robot he argues humans gain spiritual independence Knowing one's core beliefs and understanding how they direct one's actions are critical steps towards such independence But for many people spiritual beliefs are like clothes put on and taken off for various occasions and like clothes become a kind of confining uniform rendering one person virtually identical to the next In The Steersman Lilly shows readers how to identify their guiding beliefs and most importantly how to change them in ways that they choose making it possible to break out of the confines of beliefs accepted without consideration and navigate a new path of self discovery

Your Brain Is God Timothy Leary, 2001-06-15 This collection of essays written by the poster boy of 1960s counterculture describes the psychological journey Timothy Leary made in the years following his dismissal from Harvard as his psychedelic research moved from the scientific to the religious arena He discusses the nature of religious experience and eight crafts of God including God as hedonic artist Leary also examines the Tibetan Buddhist and Taoist experiences In the final chapters he explores man as god and LSD as sacrament Seeking the Sacred with Psychoactive Substances J. Harold Ellens, 2014-10-28 Can drugs be used intelligently and responsibly to expand human consciousness and heighten spirituality This two volume work presents objective scientific information and personal stories aiming to answer the question The first of its kind this intriguing two volume set objectively reports on and assesses this modern psycho social movement in world culture the constructive medical use of entheogens and related mind altering substances Covering the use of substances such as ayahuasca cannabis LSD peyote and psilocybin the work seeks to illuminate the topic in a scholarly and scientific fashion so as to lift the typical division between those who are supporters of research and exploration of entheogens and those who are strongly opposed to any such experimentation altogether The volumes address the history and use of mind altering drugs in medical research and religious practice in the endeavor to expand and heighten spirituality and the sense of the divine providing unbiased coverage of the relevant arguments and controversies regarding the subject matter Chapters include examinations of how psychoactive agents are used to achieve altered states in Judaism Christianity Islam and Buddhism as

well as in the rituals of shamanism and other less widely known faiths This highly readable work will appeal to everyone from high school students to seasoned professors in both the secular world and in devoted church groups and religious colleges

Breaking Open the Head Daniel Pinchbeck, 2003-08-12 A dazzling work of personal travelogue and cultural criticism that ranges from the primitive to the postmodern in a quest for the promise and meaning of the psychedelic experience While psychedelics of all sorts are demonized in America today the visionary compounds found in plants are the spiritual sacraments of tribal cultures around the world From the iboga of the Bwiti in Gabon to the Mazatecs of Mexico these plants are sacred because they awaken the mind to other levels of awareness to a holographic vision of the universe Breaking Open the Head is a passionate multilayered and sometimes rashly personal inquiry into this deep division On one level Daniel Pinchbeck tells the story of the encounters between the modern consciousness of the West and these sacramental substances including such thinkers as Allen Ginsberg Antonin Artaud Walter Benjamin and Terence McKenna and a new underground of present day ethnobotanists chemists psychonauts and philosophers It is also a scrupulous recording of the author s wide ranging investigation with these outlaw compounds including a thirty hour tribal initiation in West Africa an all night encounter with the master shamans of the South American rain forest and a report from a psychedelic utopia in the Black Rock Desert that is the Burning Man Festival Breaking Open the Head is brave participatory journalism at its best a vivid account of psychic and intellectual experiences that opened doors in the wall of Western rationalism and completed Daniel Pinchbeck's personal transformation from a jaded Manhattan journalist to shamanic initiate and grateful citizen of the The Hidden Secrets of Water Paolo Consigli, 2017-09-19 There is no more important substance on earth than cosmos water it is the source of life one of the four classic elements and makes up over 70% of our bodies and our planet This remarkable new book allows us to discover and understand more about this most common of molecules Water is the most common and also the most important substance on Earth We are hypnotically attracted to its simplicity purity and transparency as well as its astonishing physical behaviour structural vibrations and ordered flow not to mention its amazing therapeutic virtues Despite its prevalence however this astonishing molecule still harbours many mysteries Through the ages not only scientists but also philosophers and mystics have sought to interpret the fact that our lives are completely dependent on water They have drawn parallels with spiritual growth water is always ready to change to adapt itself to create and transform it could be seen as nature s guide to improving and renewing ourselves in wisdom and serenity By going further than just describing its attributes and celebrating its physical properties The Hidden Secrets of Water seeks to uncover and understand the true depths of this most enigmatic of elements taking the reader on a journey of discovery that covers the whole spectrum of water s influence traversing scientific social and spiritual planes From the Ancient Chinese concept of Yin and Yang to numerical and literary symbolism in the Torah the Fibonacci sequence to string theory this innovative intelligent and far reaching exploration seamlessly brings together modern science and ancient wisdom technology and humanism logic

and mysticism in a way that will inspire and stimulate all
