Emma Carlson-Berne

Scientists Ask Questions:

Scientists Ask Questions Ginger Garrett, 2004 Explains what scientists do looking at how they arrive at answers to their questions and examining some of the tools they use in their research *How Do Scientists Ask Questions?: A Book about the Scientific Method* Madeline J. Hayes, 2023-09-05 Have you ever wondered how scientists perform experiments form hypotheses and report their findings A basic explanation of the scientific method and how you can use it to perform your own experiments is explored through diagrams photos and informative and engaging text in this newest addition to the How Do series About the How Do series These fully illustrated nonfiction picture books are a great introduction to various STEM topics Each title includes facts and figures simple diagrams and hilarious illustrations and is written in a question and answer format to encourage readers to ask questions and guess the answers before exploring the science behind the correct answers

Look! Emma Carlson-Berne, 2014-07-15 The focus in this book is on the first step of the scientific method Readers will learn how to identify a topic that interests them and to narrow it down to a more specific question that they want to answer They will learn how to make scientific observations form scientific questions conduct research sort evidence and how to put all of these elements together to reach a hypothesis for a science project Think Like a Scientist! Susan Martineau, 2021-09 *Question It!* Azza Sharkawy, 2014-10-31 Children ask questions to help them understand the world around them This sense of wonder and curiosity is a trait shared by scientists This fresh and thoughtful title encourages readers to embrace inquiry as they learn about the kinds of questions scientists ask and how they investigate to find answers

The Joy of Science Richard A. Lockshin, 2007-11-05 Scientists have great passion What could be more exhilarating than to go to work every day feeling as if you were once again a nine year old called up to he stage to help the magician with his trick To be a researcher is to always be in the position of having the chance to see how the trick works No wonder that many researchers feel that each new day is the most exciting day to be a scientist It therefore is not surprising that scientists have such trouble communicating with non scientists It is difficult for the scientist to understand a life not focused on the desire to understand But the differences are not that Everyone wants to understand that is one of the factors that make us human The difference is more that scientists limit their definition of comprehension to specific rules of logic and evidence These rules apply and are used in everyday life but often with less rigor or restrictions on evidence Teaching Discipline-Specific Literacies in Grades 6-12 Vicky I.
