

The Quality Sourcebook's Software Guide features information on companies that provide quality software for ISO 9000, document control, calibration and flowcharting. Because there is such a wide variety of SPC software available, we have given SPC software its own section in this Quality Sourcebook. For more information on any of the products or services listed in this section, contact the companies directly. Please be sure to mention you saw their listings in *Quality Digest's* 2000 Quality Sourcebook!

Software Directory

ISO 9000 Software Matrix 86

This matrix of ISO 9000 software manufacturers features more than 275 software products that aid users in various aspects of ISO 9000 documentation or implementation (or both). Types of software range from products specifically designed to meet the demands of ISO 9000, such as documentation and calibration management, to more general titles that cover important areas, such as statistical process control and failure analysis. The matrix includes company name, software name, software price and how each software title relates to each of ISO 9000's 20 elements.

ISO 9000 Software Directory 94

This directory of ISO 9000 software manufacturers includes the company name, address, phone and fax numbers, Web address, and a brief description of the software company's products or services. (Please note that not all companies provided us with descriptions.)

Document Control
Software Directory 100

The Document Control Software Directory contains information about products from more than 60 companies that manufacture document control software. The directory includes the company name, address, phone and fax numbers, Web address, and a brief product description. (Please note that not all companies provided us with descriptions.)

Calibration Software and
Services Directory 103

The Calibration Software and Services Directory contains information on companies that sell software for equipment calibration or calibration tracking as well as on companies that provide calibration services, at a variety of sites, for everything from gage blocks to humidity measuring instruments. The directory includes the company name, address, phone and fax numbers, Web address, and a brief product description. (Please note that not all companies provided us with descriptions.)

Flowcharting & Process Simulation
Software Matrix 107

The Flowcharting & Process Simulation Software Matrix includes products that are useful as basic flowcharters as well as those that can help implement sophisticated process management initiatives. The key difference is the ability of the process management tools to capture and analyze data. This may be as simple as calculating time and cost totals based on individual flowchart steps or as complex as performing a simulation of the process captured in the flowchart and highlighting process bottlenecks. The matrix includes the company name, product title, product attributes and the operating systems for which the software is designed.
