especially among vinyl enthusiasts for their exquisite production The precision was necessary in part because Steely Dan played with form more than most bands mixing elements of other genres especially jazz with pop and rock And the lyrics are also distinctive As the authors put it in their proposal Steely Dan's songs are exercises in fictional world building Each song features its own cast of rogues and heroes and creeps and schmucks lovers and dreamers and cold blooded operators all tempest tossed by the ill winds of the 70s This book consists of sixty some essays each devoted to one character and each essay is accompanied by a painting of the particular character that serves as a jumping off point for the piece with additional spot illustrations scattered throughout

**Mummies around the World** Matt Cardin, 2014-11-17 Perfect for school and public libraries this is the only reference book to combine pop culture with science to uncover the mystery behind mummies and the mummification phenomena Mortality and death have always fascinated humankind Civilizations from all over the world have practiced mummification as a means of preserving life after death a ritual which captures the imagination of scientists artists and laypeople alike This comprehensive encyclopedia focuses on all aspects of mummies their ancient and modern history their scientific study their occurrence around the world the religious and cultural beliefs surrounding them and their roles in literary and cinematic entertainment Author and horror guru Matt Cardin brings together 130 original articles written by an international roster of leading scientists and scholars to examine the art science and religious rituals of mummification throughout history Through a combination of factual articles and topical essays this book reviews cultural beliefs about death the afterlife and the interment entombment and cremation of human corpses in places like Egypt Europe Asia and Central and South America Additionally the book covers the phenomenon of natural mummification where environmental conditions result in the spontaneous preservation of human and animal remains
