Greig Crysler, Stephen Cairns, Hilde Heynen, 2012-01-20 Offers an intense scholarly experience in its comprehensiveness its variety of voices and its formal organization the editors took a risk experimented and have delivered a much needed resource that upends the status quo Architectural Histories journal of the European Architectural History Network Architectural theory interweaves interdisciplinary understandings with different practices intentions and ways of knowing This handbook provides a lucid and comprehensive introduction to this challenging and shifting terrain and will be of great interest to students academics and practitioners alike Professor Iain Borden UCL Bartlett School of Architecture In this collection architectural theory expands outward to interact with adjacent discourses such as sustainability conservation spatial practices virtual technologies and more We have in The Handbook of Architectural Theory an example of the extreme generosity of architectural theory It is a volume that designers and scholars of many stripes will welcome K Michael Hays Eliot Noyes Professor of Architectural Theory Harvard University The SAGE Handbook of Architectural Theory documents and builds upon the most innovative developments in architectural theory over the last two decades Bringing into dialogue a range of geographically institutionally and historically competing positions it examines and explores parallel debates in related fields The book is divided into eight sections Power Difference Embodiment Aesthetics Pleasure Excess Nation World Spectacle History Memory Tradition Design Production Practice Science Technology Virtuality Nature Ecology Sustainability City Metropolis Territory Creating openings for future lines of inquiry and establishing the basis for new directions for education research and practice the book is organized around specific case studies to provide a critical interpretive and speculative enquiry into the relevant debates in architectural theory      **L'espace urbain européen, ou, "Que faire du centre ville?"**, 1996      *Community Participation Methods in Design and Planning* Henry Sanoff, 1999-12-06 The only how to guide to community design written from the design professional s perspective In this groundbreaking guide to the increasingly important discipline of community design a leading international expert draws upon his own experiences and those of colleagues around the world to provide proven tools and techniques for bringing community members into the design process successfully and productively The first and only how to guide on community design developed for design professionals *Community Participation Methods in Design and Planning* features Fifteen case studies chronicling community design projects around the world Coverage of educational facilities housing and urban and rural environments Design Games a proven culture neutral approach to educating participants in their design options and the consequences of their choices Proven techniques for fostering community participation in the design process Checklists worksheets questionnaires and other valuable tools *Community Participation Methods in Design and Planning* is an indispensable working resource for urban designers and planners architects and landscape architects It is also an excellent resource for students of those

disciplines      *Architecture and the Social Sciences* Maria Manuela Mendes, Teresa Sá, João Cabral, 2017-04-05 This book contributes to current debates on the relationship between architecture and the social sciences highlighting current interdisciplinary and transdisciplinary teaching as well as research and practice in architecture and urbanism It also raises awareness about the complementarities and tensions between the spaces of the project including the construction spaces and living space It gives voice to recent projects and socio territorial interventions focusing on interdisciplinary and multidisciplinary approaches between society and space Divided into two parts the first part discusses the possible dialogue between social sciences and architecture while the second part explores architecture politics and social change in urban territories from a European perspective      *The Roots of Urban Renaissance* Brian D. Goldstein, 2023-03-14 An acclaimed history of Harlem s journey from urban crisis to urban renaissance With its gleaming shopping centers and refurbished row houses today s Harlem bears little resemblance to the neighborhood of the midcentury urban crisis Brian Goldstein traces Harlem s Second Renaissance to a surprising source the radical social movements of the 1960s that resisted city officials and fought to give Harlemites control of their own destiny Young Harlem activists inspired by the civil rights movement envisioned a Harlem built by and for its low income predominantly African American population In the succeeding decades however the community based organizations they founded came to pursue a very different goal a neighborhood with national retailers and increasingly affluent residents The Roots of Urban Renaissance demonstrates that gentrification was not imposed on an unwitting community by unscrupulous developers or opportunistic outsiders Rather it grew from the neighborhood s grassroots producing a legacy that benefited some longtime residents and threatened others      Autonomy and Social Interaction Joseph H. Kupfer, 1990-08-14 This book makes a distinctive contribution to the growing discussion of autonomy As the ability to determine one s life in both thought and action autonomy is foundational among our many and varied values Other philosophical treatments tend to emphasize the significance of autonomy for moral theory or institutional arrangements such as legal political or economic power structures Kupfer however focuses on the context of social relations and interactions in which autonomous living occurs He handles autonomy and social interaction reciprocally so that the significance of each for the other is drawn out In addition key themes are threaded throughout such as the nature of dependency self concept and self knowledge and authority      **The Palgrave Handbook of Bottom-Up Urbanism** Mahyar Arefi, Conrad Kickert, 2018-06-27 Who shapes our cities In an age of increasing urban pluralism globalization and immigration decreasing public budgets and an ongoing crisis of authority among designers and planners the urban environment is shaped by a number of non traditional stakeholders The book surveys the kaleidoscope of views on the agency of urbanism providing an overview of the various scholarly debates and territories that pertain to bottom up efforts such as everyday urbanism DIY urbanism guerilla urbanism tactical urbanism and lean urbanism Uniquely this books seeks connections between the various movements by curating a range of views on the past present and future of bottom up urbanism The contributors also connect

the recent trend of bottom up efforts in the West with urban informality in the Global South drawing parallels and finding contrast between social and institutional structures across the globe The book appeals to urbanists in the widest sense of the word those who shape study and improve our urban spaces      **Making Community Design Work** Umut Toker,2017-11-08 Since the earliest settlements people have deliberated the issues that affect their future together Making Community Design Work shows how planners can guide the process toward effective decision making and beneficial community design This well crafted book distills decades of community design experience into a sound conceptual framework of value to practicing planners as well as planning students Umut Toker covers a broad range of planning scales and introduces field tested tools for participatory decision making at regional city community and site specific levels To succeed any planning project must address both the physical space and its users From setting goals to evaluating results Making Community Design Work helps planners navigate the process of creating environments that meet the needs of the people they serve      The Routledge Companion for Architecture Design and Practice Mitra Kanaani,Dak Kopec,2015-11-06 The Routledge Companion for Architecture Design and Practice provides an overview of established and emerging trends in architecture practice Contributions of the latest research from international experts examine external forces applied to the practice and discipline of architecture Each chapter contains up to date and relevant information about select aspects of architecture and the changes this information will have on the future of the profession The Companion contains thirty five chapters divided into seven parts Theoretical Stances Technology Sustainability Behaviorism Urbanism Professional Practice and Society Topics include Evidence Based Design Performativity Designing for Net Zero Energy The Substance of Light in Design Social Equity and Ethics for Sustainable Architecture Universal Design Design Psychology Architecture Branding and the Politics of Identity The Role of BIM in Green Architecture Public Health and the Design Process Affordable Housing Disaster Preparation and Mitigation Diversity and many more Each chapter follows the running theme of examining external forces applied to the practice and discipline of architecture in order to uncover the evolving theoretical tenets of what constitutes today s architectural profession and the tools that will be required of the future architect This book considers architecture s interdisciplinary nature and addresses its current and evolving perspectives related to social economic environmental technological and globalization trends These challenges are central to the future direction of architecture and as such this Companion will serve as an invaluable reference for undergraduate and postgraduate students existing practitioners and future architects      **Flexible Housing** Jeremy Till,Tatjana Schneider,2016-09-19 Flexible housing is housing that can adjust to the changing needs of the user and accommodate new technologies as they emerge Flexible Housing by Jeremy Till and Tatjana Schneider examines the past present and future of this important subject through over 160 international examples Specially commissioned plans printed to scale together with over 200 illustrations and diagrams provide fascinating detail and allow direct visual comparisons to be made Combining history theory and design the book explains the social and

economic benefits that can be achieved and shows the various ways it has been and can be delivered The book ends with an accessible guide to how flexible housing might be designed and constructed today to achieve adaptable and ultimately sustainable buildings Housing designers housing managers and students of architecture construction and housing will find this book of immense value both as a comprehensive reference and design manual *The Architecture of Home in Cairo* Mohamed Gamal Abdelmonem, 2016-03-03 The hawari of Cairo narrow non straight alleyways are the basic urban units that have formed the medieval city since its foundation back in 969 AD Until early in the C20th they made up the primary urban divisions of the city and were residential in nature Contemporary hawari by contrast are increasingly dominated by commercial and industrial activity This medieval urban maze of extremely short broken zigzag streets and dead ends are defensible territories powerful institutions and important social systems While the hawari have been studied as an exemplar for urban structure of medieval Islamic urbanism and as individual building typologies this book is the first to examine in detail the socio spatial practice of the architecture of home in the city It investigates how people live communicate and relate to each other within their houses or shared spaces of the alleys and in doing so to uncover several new socio spatial dimensions and meanings in this architectural form In an attempt to re establish the link between architecture past and present and to understand the changing social needs of communities this book uncovers the notion of home as central to understand architecture in such a city with long history as Cairo It firstly describes the historical development of the domestic spaces indoor and outdoor and provides an inclusive analysis of spaces of everyday activities in the hawari of old Cairo It then broadens its analysis to other parts of the city highlighting different customs and representations of home in the city at large Cairo in the context of this book is represented as the most sophisticated urban centre in the Middle East with different and sometimes contrasting approaches to the architecture of home as a practice and spatial system In order to analyse the complexity and interconnectedness of the components and elements of the hawari as a collective home it layers its narratives of architectural and social developments as a domestic environment over the past two hundred years and in doing so explores the in depth social meaning and performance of spaces both private and public **Urbanism** Nikki Brand, 2009 This book is a collection of recent PhD papers from the Department of Urbanism TU Delft Urbanism is the academic discipline concerned with understanding the spatial organisation and dynamics of urban areas The quality of the urban environment is a determining factor in the social economic and environmental performance of societies and the life of citizens The TU Delft Department of Urbanism seeks to influence the processes of urban change and transformation through explicit design and planning interventions underpinning practical action to shape the urban environment in a sustainable way The strong tradition of urbanism in the delta of the Netherlands is a strong factor influencing this major contribution to knowledge and education in the field Further developments which build on this experience are necessary to address the great challenges of sustainable development not least with regard to the problems of climate change in delta areas
