An Index to Music in Selected Historical Anthologies of Western Art Music, Part 1 Mara Parker, 2019-01-01 An Index to Music in Selected Historical Anthologies of Western Art Music is the essential reference for music history and music theory instructors for finding specific listings and details for all the pieces included in more than 140 anthologies published between 1931 and 2016. Containing over 5 000 individual listings, this concise book is an indispensable tool for teaching music history and theory. Since many anthologies exist in multiple editions, this Index provides instructors, students, and researchers with the means to locate specific compositions in both print and online anthologies. This book includes listings by composer and title, as well as indexes of authors, titles, and first lines of text for music from antiquity through the early twenty-first century. A Charles Ives Omnibus Michael J. Budds, 2008 Central to the evolution of American music is the legacy of Charles Ives. This grand-scale reference work provides details surrounding the multifarious responses to the achievement of this singular businessman-musician for more than a century. Performances, recordings, journalistic reports, reviews, and scholarly studies of all kinds, as well as assorted Ivesiana in the form of literature, art, film, dance, and other expressions of homage, are included. Many of the entries are amplified with contextual information or carefully selected excerpts. Professor Burk has been an enthusiastic connoisseur of Ives's music and a thoughtful student of the Ives literature for many years; his systematic presentation results in much more than a glorified work list or another ambitious bibliography. **The Complete Musician** Steven Geoffrey Laitz, 2016 Beginning with music fundamentals, *The Complete Musician* covers all the topics necessary for a thorough understanding of undergraduate music theory by focusing on music in context. Rather than rote learning of concepts and terms, this text emphasizes that understanding how theory intersects with composition and performance is key to seeing its relevance to students' wider musical lives. The Pianist's Bookshelf, Second Edition Maurice Hinson, Wesley Roberts, 2023-11-07 Originally published in 1997, *The Pianist's Bookshelf* was, according to the *Library Journal*, a unique and valuable tool. Now rewritten for a modern audience, this second edition expands into the 21st century. A completely revised update, *The Pianist's Bookshelf, Second Edition* comes to the rescue of pianists overwhelmed by the abundance of books, videos, and other works about the piano. In this clear, easy-to-use reference book, Maurice Hinson and Wesley Roberts survey hundreds of sources and provide concise, practical annotations for each item, thus saving the reader hours of precious research time. In addition to the main listings of entries such as Chamber Music and Piano Duet, the book has indexes of authors, composers, and performers. A handy reference from the masters of piano bibliography, *The Pianist's Bookshelf, Second Edition* will be an invaluable resource to students, teachers, and musicians. **Catalog of Copyright Entries, Third Series**, 1966 The record of each copyright registration listed in the Catalog includes a description of the work, copyrighted and data relating to the copyright claim: the name of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc. *Anthology of impressionistic piano music* Maurice Hinson, 2004 Dr. Maurice

Hinson caps off his extensive library of period anthologies and DVDs with a comprehensive look at Impressionist compositions This beautifully engraved edition includes works by the top 20 Impressionistic composers an extensive foreword with historical information on each composer specific performance notes for each pieces and a look at the compositional techniques used by Impressionists In the companion DVD lecture Dr Hinson explores four aspects of Impressionism early influences performance techniques musical characteristics and specific repertoire from the anthology Alfred s DVDs provide a strong visual and auditory reference for stylistic and technical interpretations which are important tools for enhancing any musical performance 208 pages *The Exquisite Corpse* Kanta Kochhar-Lindgren,Davis Schneiderman,Tom Denlinger,2009-12-01 This work addresses historical and contemporary manifestations of poems drawings collages and performance works that employ the ritual of the cadaver exquis **Music Journal ... Annual Anthology** ,1965
