Fire in the Sky Roberta J. M. Olson, Jay M. Pasachoff, 1999-11-13 Comets and meteors are spectacular and awe inspiring natural phenomena which are among nature s most compelling icons Since the beginning of recorded time they have mesmerized people not

least among them artists and astronomers Britain during the eighteenth and nineteenth centuries produced a larger number and greater variety of representations of comets and meteors than any other country The development of new technologies and the burgeoning interest of the general public in science and art dovetailed with the inherent British interest in nature and a strong literary tradition of comet and meteor symbolism This beautifully illustrated book examines the link between these works and the achievements of British science in the wake of Newton and Halley This book will be stimulating to anyone interested in the art or astronomy of comets **British History, 1660-1832** Alexander Murdoch,1999-01-20 This is an interpretative study of the idea of Britain examining the transformation of a sectarian concept into an imperial ideology forged during a period of sustained warfare in Europe and ever expanding areas beyond Europe during the second half of the Eighteenth century It seeks to examine constitutional history from a non Anglocentric perspective and to relocate it to historiographical developments in Social History and the History of Ideas Based on more than 25 years of research it seeks to examine critically a concept which increasingly has come under public debate during the past decade *History of Drinking* Anthony Cooke,2015-07-19 What did Samuel Johnson James Boswell Dorothy Wordsworth James Hogg and Robert Southey have in common They all toured Scotland and left accounts of their experiences in Scottish inns ale houses taverns and hotels Similarly poets and writers from Robert Burns and Walter Scott to Ian Rankin and Irvine Welsh have left vivid descriptions of the pleasures and pains of Scottish drinking places Pubs also provided public spaces for occupational groups to meet for commercial transactions for literary and cultural activities and for everyday life and work rituals such as births marriages and deaths and events linked with the agricultural year These and other historical issues such as temperance together with contemporary issues like the liberalization of licensing laws and the changing nature of Scottish pubs are discussed in this fascinating book The book is bought up to the present day by a case study of present day licensees based on interviews with a range of licensees across Scotland looking at their experience of the trade and how it has changed in their working lives

Dialectics of Improvement Gerard Lee McKeever,2020-02-03 This publication develops new insight into the idea of progress as improvement as the basis for an approach to literary Romanticism in the Scottish context Landscapes of Protest in the Scottish Highlands after 1914 Iain J.M. Robertson,2016-04-15 In November 1918 the implementation of agrarian change in the Scottish Highlands threatened another wave of unemployment and eviction for the land working population which led to widespread and varied social protest Those who had been away on war service and their families faced returning to exactly the same social and economic conditions in the Scottish Highlands they had hoped they had left behind in the struggle to make a land fit for heroes Widespread and varied social protest rapidly followed It argues that previously there has been a failure to capture fully the geography chronology typology and rate of occurrence of these events The book not only offers new insights and a greater understanding of what was happening in the Highlands in this period but illustrates how a range of forms of protest were used which demand attention not least for the fact that these events unlike

most of the earlier Land Wars period were successful There are functioning townships in the Highlands today that owe their existence to the land invasions of the 1920s The book innovatively concentrates on formulating explanation and interpretation from within and looks to the crofting landscape as base means and motive to disturbance and interpretation It proposes that protest is much more convincingly understood as an expression of environmental ethics from the bottom up coming increasingly into conflict with conservationist views expressed from the top down It focuses on individual case studies in order to engage more convincingly with an important evidential base that of popular memory of land disturbances and to adopt a frame and lens through which to explore the fluid and contingent nature of protest performances Based upon the belief that in the study of landscapes of social protest the old shibboleth of space as solely passive setting and symbolic register is no longer tenable is paid here to nature culture interactions to vernacular ecological b

The Schooling of Girls in Britain and Ireland, 1800- 1900 Jane McDermid, 2013-03-07 This book compares the formal education of the majority of girls in Britain and Ireland in the nineteenth century Previous books about Britain invariably focus on England and such British studies tend not to include Ireland despite its incorporation into the Union in 1801 The Schooling of Girls in Britain and Ireland 1800 1900 presents a comparative synthesis of the schooling of working and middle class girls in the Victorian period with the emphasis on the interaction of gender social class religion and nationality across the UK It reveals similarities as well as differences between both the social classes and the constituent parts of the Union including strikingly similar concerns about whether working class girls could fulfill their domestic responsibilities What they had in common with middle class girls was that they were to be educated for the good of others This study shows how middle class women used educational reform to carve a public role for themselves on the basis of a domesticated life for their lower class sisters confirming that Victorian feminism was both empowering and constraining by reinforcing conventional gender stereotypes
