,1983      The Cygnus Key Andrew Collins,2018-05-15 New evidence showing that the earliest origins of human culture religion and technology derive from the lost world of the Denisovans Explains how G bekli Tepe and the Giza pyramids are aligned with the constellation of Cygnus and show evidence of enhanced sound acoustic technology Traces the origins of G bekli Tepe and the Giza pyramids to the Denisovans a previously unknown human population remembered in myth as a race of giants Shows how the ancient belief in Cygnus as the origin point for the human soul is as much as 45 000 years old and originally came from southern Siberia Built at the end of the last ice age around 9600 BCE G bekli Tepe in southeast Turkey was designed to align with the constellation of the celestial swan Cygnus a fact confirmed by the discovery at the site of a tiny bone plaque carved with the three key stars of Cygnus Remarkably the three main pyramids at Giza in Egypt including the Great Pyramid align with the same three stars But where did this ancient veneration of Cygnus come from Showing that Cygnus was once seen as a portal to the sky world Andrew Collins reveals how at both sites the attention toward this star group is linked with sound acoustics and the use of musical intervals discovered thousands of years later by the Greek mathematician Pythagoras Collins traces these ideas as well as early advances in human technology and cosmology back to the Altai Baikal region of Russian Siberia where the cult of the swan flourished as much as 20 000 years ago He shows how these concepts including a complex numeric system based on long term eclipse cycles are derived from an extinct human population known as the Denisovans Not only were they of exceptional size the ancient giants of myth but archaeological discoveries show that this previously unrecognized human population achieved an advanced level of culture including the use of high speed drilling techniques and the creation of musical instruments The author explains how the stars of Cygnus coincided with the turning point of the heavens at the moment the Denisovan legacy was handed to the first human societies in southern Siberia 45 000 years ago catalyzing beliefs in swan ancestry and an understanding of Cygnus as the source of cosmic creation It also led to powerful ideas involving the Milky Way s Dark Rift viewed as the Path of Souls and the sky road

shamans travel to reach the sky world He explores how their sound technology and ancient cosmologies were carried into the West flowering first at G bekli Tepe and then later in Egypt s Nile Valley Collins shows how the ancient belief in Cygnus as the source of creation can also be found in many other cultures around the world further confirming the role played by the Denisovan legacy in the genesis of human civilization     Teaching World History as Mystery Jack Zevin, David Gerwin, 2010-12-07 This text presents a philosophy methodology and examples for world history instruction based on inquiry and problem solving methods that promote reasoning and judgment and restore a sense of imagination and participation to classroom learning     **Books in Series** ,1985 Vols for 1980 issued in three parts Series Authors and Titles     **The Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1898     Publishers' Circular and General Record of British and Foreign Literature, and Booksellers' Record ,1890     The Listener ,1971     Publishers' circular and booksellers' record ,1899     **The Mysteries of Stonehenge** Nikolai Tolstoy, 2016-09-15 The mythic foundations of the world s greatest archaeological mystery     **The New York Times Book Review Index, 1896-1970: Title index** ,1973
