Remillard, Ok-Kyeong Kim, 2020-03-16

The book presents comparative analyses of five elementary mathematics curriculum programs used in the U S from three different perspectives the mathematical emphasis the pedagogical approaches and how authors communicate with teachers These perspectives comprise a framework for examining what curriculum materials are comprised of what is involved in reading and interpreting them and how curriculum authors can and do support teachers in this process Although the focus of the analysis is 5 programs used at a particular point in time this framework extends beyond these specific programs and illuminates the complexity of curriculum materials and their role in teaching in general Our analysis of the mathematical emphasis considers how the mathematics content is presented in each program in terms of sequencing the nature of mathematical tasks cognitive demand and ongoing practice and the way representations are used Our analysis of the pedagogical approach examines explicit and implicit messages about how students should interact with mathematics one another the teacher and the textbook around these mathematical ideas as well as the role of the teacher In order to examine how curriculum authors support teachers we analyze how they communicate with teachers and what they communicate about including the underlying mathematics noticing student thinking and rationale for design elements The volume includes a chapter on curriculum design decisions based on interviews with curriculum authors      *Scott Foresman Addison Wesley EnVision Math Illinois* Randall Inners Charles, Scott, Foresman and Company, Addison-Wesley Publishing Company, Pearson/Scott Foresman, 2009      **Scott Foresman-Addison Wesley Math**, 1998      **Scott Foresman Addison Wesley Math 2004 Discovery Channel School Masters Grade 1** Addison-Wesley Educational Publishers, Incorporated, 2003-05-30 Real world problem solving extends the Discovery Channel School applications in each chapter of the student book Blackline Masters can be used independently or in conjunction with the Discovery Channel School Video
