engaging and authoritative history of Scotland's influence in the world and the world's on Scotland from the Thirty Years War to the present day Scotland is one of the oldest nations in the world yet by some it is hardly counted as a nation at all Neither a colony of England nor a fully equal partner in the British union Scotland has often been seen as simply a component part of British history But the story of Scotland is one of innovation exploration resistance and global consequence In this wide ranging deeply researched account Murray Pittock examines the place of Scotland in the world He explores Scotland and Empire the rise of nationalism and the pressures on the country from an increasingly monolithic understanding of Britishness From the Thirty Years War to Jacobite risings and today's ongoing independence debates Scotland and its diaspora have undergone profound changes This groundbreaking account reveals the diversity of Scotland's history and shows how after the country disappeared from the map as an independent state it continued to build a global brand **The Oxford**

Canadian Shorthorn Herd Book Canadian Shorthorn Association, 1838 Annual Show and Sale of Shorthorn Cattle Illinois Shorthorn Breeders' Association, 1925 **The Independence of Scotland** Michael Keating, 2009-09-10 After three hundred years the Anglo Scottish Union is in serious difficulty This is not because of a profound cultural divide between England and Scotland but because recent decades have seen the rebuilding of Scotland as a political community while the ideology and practices of the old unionism have atrophied Yet while Britishness is in decline it has not been replaced by a dominant ideology of Scottish independence Rather Scots are looking to renegotiate union to find a new place in the Isles in Europe and in the world There are few legal constitutional or political obstacles to Scottish independence but an independent Scotland would need to forge a new social and economic project as a small nation in the global market place and there has been little serious thinking about the implications of this Short of independence there is a range of constitutional options for renegotiating the Union to allow more Scottish self government on the lines that public opinion seems to favour The limits are posed not by constitutional principles but by the unwillingness of English opinion to abandon their unitary conception of the state The end of the United Kingdom may be provoked not by Scottish nationalism but by English unionism
