Scottish Art, 1460-2000 Duncan Macmillan, 2000 This magnificent volume offers a richly illustrated survey of art in Scotland from 1460 to the current day Its main emphasis is on painting and the graphic arts and its scope clearly establishes the place of visual art in Scottish culture Placing in perspective the impact of the Reformation and the richness of late medieval art the book then follows the growth of art in the new Protestant culture through the 17th century It culminates with the glorious achievements of the 18th 19th

and 20th centuries of painters such as Ramsay Raeburn Mackintosh and Wilkie A splendid volume that establishes the claim of Scottish art to a distinct identity and that changes our understanding of the wider history of European art **Labour Statistics** Great Britain. Board of Trade,1887 *"Painting Labour in Scotland and Europe, 1850-1900 "* John Morrison,2017-07-05 *Painting Labour in Scotland and Europe 1850 1900* explores hitherto unrecognized European variations in the phenomena of rural labour imagery particularly in Scotland In exploring these distinctions relative to Scotland and Europe it looks to develop a new understanding of the commonalities and idiosyncrasies of rural labour imagery which have often been treated as homogenous Lacking the detailed analysis that has been accorded other images writing about Scottish painting has often been appended to analyses of English or French imagery It has generally been understood as intellectually divorced from the sometimes brutal realities of evolving Scottish nineteenth century urbanism or simply ignored *Painting Labour in Scotland and Europe 1850 1900* sets out systematically to discuss the Scottish rural painting in relation to its particular Scottish historical context both sociological and aesthetic and its English and European counterparts Alongside canonical Scottish images by major figures such as James Guthrie the book explores many hitherto under researched and unconsidered paintings by nineteenth century Scottish artists and considers them in relation to major English and Continental Realist and Romantic painters The juxtaposition of J F Millet with W D McKay and Edwin Landseer with George Reid makes for a volume that will appeal both to an academic audience and to one interested in European art history more generally
