Scouting on Two Continents Frederick Russell Burnham, 2004 Rhodes and Rhodesia Arthur Keppel-Jones, 1983 This volume deals

with the conquest and colonization of Zimbabwe and the establishment of Southern Rhodesia from the beginnings of British involvement in Bechuanaland to the death of Cecil Rhodes. Its emphasis is on the white invaders and its chief concern is white individuals, their motives, actions, and influence on events. The British South Africa Company and the irregularity of its financial and political operations are dealt with in detail. Keppel Jones also discusses the development in the midst of the indigenous population of an alien white society and state from their crude beginnings to their emergence in a form still recognizable today. The reader is led to conclude that by 1902 Southern Rhodesia was already set on the road that would lead to the upheavals of the second half of the twentieth century. The author examines the racial consciousness and prejudice of the white society and addresses an important question: why did the imperial government grant a royal charter to the BSA Company? The facts show conclusively that the imperial government had little interest in Central Africa or care for its fate except when foreign competition appeared. Keppel Jones also reveals the important role played by black troops employed by the Company in suppressing the rebellions of 1896-7. For opposite reasons, neither blacks nor whites have been willing to recognize this. On the other hand, the habit of the men on the spot of making and carrying out decisions without regard to their superiors in London is a commonplace of imperial history. One of the main themes of the book is the tension between the unofficial imperialists straining at the leash and the Colonial Office struggling to hold them back. Rhodes and Rhodesia is based on extensive use of public records, mainly in the Public Record Office, London, and the National Archives of Zimbabwe, of collections of private papers, and of contemporary published works. Arthur Keppel Jones is professor emeritus of history at Queen's University. *Booklist*, 1927 **Americans in Africa 1865-1900** Clarence Clendenen, Robert Collins, Peter Duignan, *Valley of the Guns* Eduardo Obregón Pagán, 2018-10-11 In the late 1880s Pleasant Valley, Arizona, descended into a nightmare of violence, murder, and mayhem. By the time the Pleasant Valley War was over, eighteen men were dead, four were wounded, and one was missing, never to be found. *Valley of the Guns* explores the reasons for the violence that engulfed the settlement, turning neighbors, families, and friends against one another. While popular historians and novelists have long been captivated by the story, the Pleasant Valley War has more recently attracted the attention of scholars interested in examining the underlying causes of western violence. In this book, author Eduardo Obregón Pagán explores how geography and demographics aligned to create an unstable settlement subject to the constant threat of Apache raids. The fear of surprise attack by day and the theft of livestock by night prompted settlers to shape their lives around the expectation of sudden violence. As the forces of progress strained natural resources, conflict grew between local ranchers and cowboys hired by ranching corporations. Mixed-race property owners found themselves fighting white cowboys to keep their land. In addition, territorial law enforcement officers were outsiders to the community and approached every suspect fully armed and ready to shoot. The combination of unrelenting danger, its accompanying stress, and an abundance of firearms proved deadly. Drawing from history, geography, cultural studies, and trauma studies, Pagán uses the story of Pleasant Valley to demonstrate a new way

of looking at the settlement of the West Writing in a vivid narrative style and employing rigorous scholarship he creatively explores the role of trauma in shaping the lives and decisions of the settlers in Pleasant Valley and offers new insight into the difficulties of survival in an isolated frontier community Pioneers in Paradise Sophie Britten,2022-02-10 This book tells the hundred year history of Three Rivers California from the 1850s to the 1950s Three Rivers has always been a special place one of rolling wooded hills nestled close to the High Sierra mountains Those mountains feed the rivers that give the place its name It was an ideal place for the pioneers of this story to settle The book is divided into two basic parts The first tells the story of events and places what life was like for those hardy souls who homesteaded in these hills The second part relates stories and histories about individual people and their families when they came to Three Rivers when they arrived and how their lives and the lives of their families were impacted by living here Did they thrive Did they go elsewhere to search for their dream The author has endeavored to answer these questions Book Review I am a local history buff and long time member of the Tulare County Historical Society When publications appear that pique my interest in Tulare County History I usually acquire them The author and her family are well known and highly respected in the Three Rivers area Ms Britten s contribution to the area s history by recording the background and lives of its pioneers is well done Evan Long **A**
