

Funny Faces

You can have lots of fun drawing your own sprites in Scratch – you don't have to stick to the ones in the sprite library. Creating your own sprites will give your projects a unique look. For this project, you can go wild making facial features and accessories for a DIY face.

How it works

This project starts with a blank face surrounded by a collection of eyes, noses, and other items that you can drag into the middle to create crazy expressions. Press the green flag to reset the face and start again.

Figure 1. Study design.

This project lets you use your creativity and imagination to the fullest. You don't have to make human faces. You can make aliens, monsters, or anything!
