Latinos have been part of the Hollywood film industry for more than 100 years yet beyond the remarkable success of a few their visibility and clout have generally not reflected their significance in American society Worse the Latino image has suffered from widespread stereotyping in film and performers face unjustified constraints in the kinds of roles available to them Decade by decade from 1960 onward this book analyzes important films made by or about Latinos details the careers of Latino performers and filmmakers of the time and analyzes how film portrayals of Latino characters and subjects connect with political and social trends of each decade It discusses the role of gender social class and ethnicity in film portrayals and provides an overview of the diverse and dynamic Latino community in the United States while celebrating a substantial and enduring contribution to Hollywood film history Global Encounters Iris Guske,2011-05-25 Scholars throughout the world have come together again in a second book to share their most successful teaching practices and concerns in the areas of cross cultural studies and international education Many disciplines are represented and diverse subjects are discussed science literacy and worldview perspective second language acquisition student mobility and international universities teacher professional development and government programs for disadvantaged children zoos industrial paintings and dress designs as cultural artifacts Presentations on these topics are the result of papers given at the annual meeting of the Worldwide Forum on Education and Culture founded 10 years ago in Rome Italy The organization regularly attracts some 100 scholars and practitioners in the fields of education literacy language learning communication and inter cultural studies from all five continents to its annual congress in Rome These conferences as well as this up to date compilation of multi disciplinary academic papers are meant to highlight the growing need for culturally sensitive education that draws on the strengths of both traditional teaching methods and technology rich forms of instruction as well as a host of national and international programs designed to empower teachers and students alike Engaged educators whose research and or critical discourse in classrooms all over the world has given rise to the present volume thus hope to share with a wider audience how they impart knowledge foster skills and nurture qualities in the next generation of global citizens that will enable them to negotiate their personal and professional lives in our modern world Even though communities may no longer be characterized by physical distances as barriers to communicative interchanges perceived and real rifts between different

cultures are nevertheless coming alarmingly close to preventing meaningful communication from bringing about true understanding at the individual and societal levels The ontogenesis of the Worldwide Forum on Education and Culture is seen here clearly in the perspectives and presentations of diverse academics who are dedicated to teaching and learning toward the greater goal as Matthew Arnold said in Literature and Science of knowing ourselves and the world      **Screen world** John Willis,1968      Korean War Filmography Robert J. (Calif.),1971      **Contacting the Autistic Child** Jorge L. Ahumada,Luisa C. Busch de Ahumada,2017-02-17 Amid long standing controversy on their causes which most regard as neurological and despite their increasing social impact there has been scant progress in the therapy of the autistic spectrum disorders Currently fashionable attempts at treatment through behavioural cognitive focal approaches do not seek resolution only re education and rehabilitation Contacting the Autistic Child explores the clinical process in the early psychoanalytic treatment of autistic children Organised around five detailed clinical case studies and drawing on the ideas of major clinicians in child analysis such as Tustin Winnicott and Alvarez this book sets out a clear programme for working with and understanding autistic children in a psychoanalytic setting with a particular focus on issues of clinical technique but also conceptual matters Working on the notion that autistic disorders come to be as Winnicott and Tustin saw it from an early rupture of the affective communication between baby and mother this book aims at reinstating such communication in the child analyst interaction By way of detailed description of what goes on in the analytic link the authors strive to make the reader share in what goes on in the clinical setting evincing how though at times excruciatingly hard on the therapist resolution is attainable Once the primal dialogue to use Ren Spitz s terms is reinstated in a stable way in session it flows by itself into the family ambience The clinical accounts of this book make the argument that psychoanalysis carried along Tustin s technical lines and subject to the proviso that treatment starts early preferably in the first three years of life is the treatment of choice for autistic spectrum disorders The strong methodological narrative is important and notable in light of the doubts criticism and uncertainty that have surrounded the psychoanalytic treatment of autism This novel highly detailed narrative of five successful early treatments aims to help dispel the pessimism

pervading the field and help to redress the lives of many more children Contacting the Autistic Child will appeal to psychoanalysts and psychoanalytic psychotherapists endeavouring to obtain results in a major area lacking resolute approaches     **Film Scripts** George Garrett,O.
