Thompson, 2014-05-28 Although Juan Domingo Perón's central role in Argentine history and the need for an unbiased assessment of his impact on his nation's cinema are beyond dispute the existing scholarship on the subject is limited In recent decades Argentina has witnessed a revival of serious film study some of which has focused on the nation's classical movies and in one case on Peronism None of this work has been translated into English however This is the first English language book that offers an extensive assessment of Argentine cinema during first Peronism It is also the first study in any language that concentrates systematically on the evolution of social attitudes reflected in Argentine movies throughout those years and that assesses the period's impact on subsequent filmmaking activity By analyzing popular Argentine movies from this time through the prism of myth second order communication systems that present historically developed customs and attitudes as natural the book traces the filmic construction of gender criminality race the family sports and the military It identifies in movies the development and evolution of mindsets and attitudes that may be construed as Peronist By framing its consideration of films from the Perón years in the context of earlier and later ones it demonstrates that this period accelerates and sometimes registers backward looking responses to earlier progressive mythic shifts and it traces the development in the 1950s of a critical mindset that comes to fruition in the new cinema of the 1960s *Picturing Argentina: Myths, Movies, and the Peronist Vision* is an important book for Latin American studies film studies and history collections *Buffoon Men* Scott Balcerzak, 2013-10-01 Fans and scholars of film history gender studies and broadcast studies will appreciate Balcerzak's thorough exploration of the era's fascinating gender constructs **Cinematic Flashes** Rashna Wadia Richards, 2013 *Cinematic Flashes* challenges popular notions of a uniform Hollywood style by disclosing uncanny networks of incongruities coincidences and contingencies at the margins of the cinematic frame In an agile demonstration of cinephiliac historiography Rashna Wadia Richards extracts intriguing film fragments from their seemingly ordinary narratives in order to explore what these unexpected moments reveal about the studio era Inspired by Walter Benjamin's preference for studying cultural fragments rather than composing grand narratives this unorthodox history of the films of the studio system reveals how classical Hollywood emerges as a disjointed network of accidents excesses and coincidences *Giving Up the Ghost* Katherine A. Fowkes, 1998 Arguing that our enjoyment of ghost films is linked to masochistic pleasure *Giving up the Ghost* provides us with a new way of thinking about the relation between film viewing and gender A deft but readable application of psychoanalytic theories especially masochism by way of Deleuze and Studlar extends the utility of psychoanalysis to the understanding of film genre and film audiences It is indispensable reading for scholars and students of film theory **Brazen** Loren D.
