Seventh Enemy The Human Factor In The Global Crisis:

The Seventh Enemy Ronald Higgins,1978 **Karl Popper, Science and Enlightenment** Nicholas Maxwell,2017-09-26
Here is an idea that just might save the world It is that science properly understood provides us with the methodological key to the salvation of humanity A version of this idea can be found in the works of Karl Popper Famously Popper argued that science cannot verify theories but can only refute them and this is how science makes progress Scientists are forced to think up something better and it is this according to Popper that drives science forward But Nicholas Maxwell finds a flaw in this line of argument Physicists only ever accept theories that are unified theories that depict the same laws applying to the range of phenomena to which the theory applies even though many other empirically more successful disunified theories are always available This means that science makes a questionable assumption about the universe namely that all disunified theories are false Without some such presupposition as this the whole empirical method of science breaks down By proposing a new conception of scientific methodology which can be applied to all worthwhile human endeavours with problematic aims Maxwell argues for a revolution in academic inquiry to help humanity make progress towards a better more civilized and enlightened world [Air University Review](#) ,1981-09 [Energy Abstracts for Policy Analysis](#) ,1979-07 *Theology Matters* Gary Holloway,Randall J. Harris,Mark Cothran Black,Randy Harris,1998 When you hear the word theology you may automatically think of something irrelevant and unpractical Yet here is a book that demonstrates the significance theology has to the life of the Believer In this collection of writings by a variety of gifted authors issues of faith and Christian Living are explored Topics such as God salvation the church and worship are dealt with in a highly readable interesting way

John Stott on Creation Care R.J. (Sam) Berry,Laura Yoder,2021-10-21 Discover John Stott s writings on creation care brought together for the first time in this definitive collection for the global church Compiled by R J Sam Berry and Laura Yoder this brilliant anthology demonstrates both Stott s passion for the environment and its place in Christian discipleship Showcasing his unique way of explaining the Bible simply and clearly John Stott on Creation Care traces Stott s own process of coming to embrace creation care as a vital part of the Christian life and in turn shows us how creation care must have an integral place in our own discipleship Commentary by noted scientist R J Sam Berry connects Stott s writings together and illuminates how his wisdom still speaks to us today Alongside reflections from others that Stott inspired and discipled John Stott on Creation Care is the perfect resource for every Christian looking to understand biblical teaching on the environment and how creation care should form part of their discipleship It is also an ideal biblical and theological resource for those involved in creation care ministry Published as part of the John Stott Centenary celebrations proceeds from John Stott on Creation Care will go to A Rocha International a charity that carries community based conservation projects in response to biodiversity loss around the world John Stott viewed creation care as an inevitable implication of the biblical message and as a grounding for Christian engagement in environmental commitments This collection will give you a deeper more thorough

understanding of his writings and how his views developed and will leave you motivated and inspired to look again at your discipleship and how you approach creation care

Losing Control Paul Rogers, 2010-03-03 When *Losing Control* was first published a decade ago it was years ahead of its time Its argument was simple the real causes of global insecurity were the widening socio economic divide global marginalisation and environmental limitations especially climate change and conflict over energy resources Paul Rogers one of the most original thinkers on international security pointed to a world in which irregular warfare from the margins would prevent powerful states from maintaining their position He even predicted accurately how the United States would respond to a catastrophic attack The new edition brings the whole analysis right up to date arguing persuasively that the world's elite cannot maintain control and that a far more emancipatory and sustainable approach to global security has to be developed

Beyond Deterrence Hugh Miall, Oliver Ramsbotham, 2016-07-27 The collapse of communism in Eastern Europe the unification of Germany the withdrawal of Soviet troops the possible disintegration of the Soviet Union disengagement of the United States and creation of a federal Europe all this has changed the security context in Europe and stimulated a Europe wide debate about the future Deep questions about the nature of security itself have been raised This book will add fuel to the debate

Irregular War Paul Rogers, 2016-06-16 If the rise of Islamic State can overthrow powerful states in a matter of weeks what kind of a secure future can the world expect After more than a decade of the war on terror security specialists thought that Islamist paramilitary movements were in decline the threat from ISIS in Syria and Iraq Boko Haram in Nigeria al Qaida in Yemen the chaos in Libya and the return of the Taliban in Afghanistan have all shown that to be wishful thinking Once again the West is at war in the Middle East Paul Rogers the distinguished global security specialist provides a much needed look at the rise of such global terrorist movements from the margins and presents a new argument as troubling as it is compelling While Islamic State has taken root in the Middle East and North Africa and has increasing impact across the world as thousands of young men and women rally to its cause Rogers argues that it should be seen not just as a threat in its own right but as a marker of a much more dangerous world riddled with irregular war

Thinking the Unthinkable: A new imperative for leadership in the digital age Chris Langdon, Nik Gowing, 2018-06-08 Executive leadership faces new vulnerabilities Many leaders privately concede them but few are willing to talk publicly about them Unthinkable events since 2014 have revealed a new leadership fragility at the highest levels And the pace of change in 2017 shows that the uncertainties are greater than ever Is this the new normal *Thinking The Unthinkable* is an investigation into why leaders have appeared more unable or unwilling than ever to anticipate the biggest issues of our time In an era of wicked problems why are current leadership behaviours and culture apparently not fit for purpose What are the causes of so many failures in policy and strategic forecasting Are they human frailties Or are they systemic failures to embrace smartly new realities Through hundreds of interviews and conversations Nik Gowing and Chris Langdon have analysed the deep new challenges to the human capacity

of leaders at the highest keels to accept understand embrace then handle the extraordinary processes of change and disruption This essential book draws on the candid responses The findings are scary and disconcerting **Library Bulletin** Great Britain. Departments of the Environment and Transport Library,1978 **Future Survey Annual 1991** Michael Marien,1991-01-01 **Issues Facing Christians Today** Dr. John R.W. Stott,John Wyatt,2011-04-19 Terrorism Same sex marriage Debt cancellation The AIDS pandemic These are just some of the critical contemporary issues addressed in this book Issues Facing Christians Today helps thinking Christians sift through and respond to a sweeping array of complex and pressing topics Thoroughly revised and updated by Roy McCloughry and fully endorsed by John Stott this fourth edition continues a two decades plus legacy of bringing important current issues under the lens of biblically informed thinking Combining a keen global awareness with a gift for penetrating analysis the authors examine such vital topics as Pluralism and Christian witness Cohabitation environmentalism and ecological stewardship War and peace Abortion and euthanasia And much more An entirely new chapter on bio engineering has been contributed by Professor John Wyatt of University College London Including a study guide Issues Facing Christians Today is essential reading for Christians who wish to engage our culture with insight passion and faith knowing that the gospel is as relevant and deeply needed today as at any time in history As the culture wars continue this book will remain a critical contribution helping to define Christian social and ethical thinking in the years ahead **Re-Purposing Universities for Sustainable Human Progress** Iain Stewart,Victoria Hurth,Stephen Sterling,2022-03-31 Quarterly Review of Military Literature ,1979 Military Review ,1979 **Professional Journal of the United States Army** ,1979 **Plotting Peace** Ronald Higgins,1990 Attempts a synthesis of positions of conciliation and strength developing a radical philosophy of cooperative rather than competitive security Drawing on thinkers including Clausewitz and Jung Higgins calls for a revolutionary reinterpretation of the concepts of military strength national sovereignty and international security Annotation copyrighted by Book News Inc Portland OR

The Transformation of Violent Intercommunal Conflict Stephen Ryan,2016-02-24 In recent years there has been a remarkable growth of interest in the concept of conflict transformation and the closely related strategy of grass roots peace building Yet there exists no general critical analysis of the concept of conflict transformation in the context of violent intercommunal conflict and the different approaches that can be included in response to this category of dispute This study offers a comprehensive survey and critical overview of this emerging area Examining the reasons for the growing interest in the concept of conflict transformation in situations of ethnic conflict the book explores the different dimensions of transformation It draws on examples of strategies from a number of situations of ethnic conflict including Northern Ireland Israel Palestine Bosnia Kosovo Cyprus Spain Sri Lanka and the former Soviet Union to identify and assess key issues and problems that have emerged and ultimately to propose a stronger emphasis on the promotion of inter subjective understanding
