Nation And Work 1770-1850:

Nation and Word, 1770-1850 Mary Anne Perkins, 2016-12-05 The emergence of the modern nation state in Europe and the accompanying rise in national consciousness led to a heightened awareness of the close relationship between language and national identity In this book the author shows that this relationship was expressed through the themes and figures of a language of nationhood drawn from a common European cultural heritage particularly the Classical and Christian traditions Despite its common roots this language became the medium through which the diversity of national characters was expressed The idea of the divine Word for example enabled the sacredness and power of national language to be celebrated The identification of poet and prophet gave Romantic nationalists an authority to speak for and to the nation and the theme of the Chosen People was often adopted to express the elect status of a writer's own nation In conclusion it is shown that this language of nationhood remains a powerful force at the end of the twentieth century **Tejano Journey, 1770-1850**

Gerald E. Poyo, 2010-07-22 A century before the arrival of Stephen F Austin's colonists Spanish settlers from Mexico were putting down roots in Texas From San Antonio de Bexar and La Bahia Goliad northeastward to Los Adaes and later Nacogdoches they formed communities that evolved their own distinct Tejano identity In *Tejano Journey 1770-1850* Gerald Poyo and other noted borderlands historians track the changes and continuities within Tejano communities during the years in which Texas passed from Spain to Mexico to the Republic of Texas and finally to the United States The authors show how a complex process of accommodation and resistance marked at different periods by Tejano insurrections efforts to work within the political and legal systems and isolation from the mainstream characterized these years of changing sovereignty While interest in Spanish and Mexican borderlands history has grown tremendously in recent years the story has never been fully told from the Tejano perspective This book complements and continues the history begun in *Tejano Origins in Eighteenth Century San Antonio* which Gerald E Poyo edited with Gilberto M Hinojosa **Te Kerikeri 1770-1850** Judith Binney, 2007

Romantic Ecologies and Colonial Cultures in the British Atlantic World, 1770-1850 Kevin Hutchings, 2009-08-01 By addressing these and other intriguing questions Kevin Hutchings highlights significant intersections between Green Romanticism and colonial politics demonstrating how contemporary understandings of animality climate and habitat informed literary and cross cultural debates about race slavery colonialism and nature in the British Atlantic world Revealing an innovative dialogue between British African and Native American writers of the Romantic period this book will be of interest to anyone wishing to consider the interconnected histories of transatlantic colonial relations and environmental thought **The Religious Condition of Ireland 1770-1850** Nigel Yates, 2006-02-02 Nigel Yates provides a major reassessment of the religious state of Ireland between 1770 and 1850 He argues that this was both a period of intense reform across all the major religious groups in Ireland and also one in which the seeds of religious tension which were to dominate Irish politics and society for most of the nineteenth and twentieth centuries were sown He examines in detail from a wide

range of primary sources the mechanics of this reform programme and the growing tensions between religious groups in this period showing how political and religious issues became inextricably mixed and how various measures that might have been taken to improve the situation were not politically or religiously possible National Register of Microform Masters Library of Congress. Catalog Publication Division,1979 **Wordsworth and the Writing of the Nation** James M.

Garrett,2016-02-17 Shedding fresh light on Wordsworth s contested relationship with an England that changed dramatically over the course of his career James Garrett places the poet s lifelong attempt to control his literary representation within the context of national ideas of self determination represented by the national census national survey and national museum Garrett provides historical background on the origins of these three institutions which were initiated in Britain near the turn of the nineteenth century and shows how their development converged with Wordsworth s own as a writer The result is a new narrative for Wordsworth studies that re integrates the early middle and late periods of the poet s career Detailed critical discussions of Wordsworth s poetry including works that are not typically accorded significant attention force us to reconsider the usual view of Wordsworth as a fading middle aged poet withdrawing into the hills Rather Wordsworth s ceaseless reworking of earlier poems and the flurry of new publications between 1814 and 1820 reveal Wordsworth as an engaged public figure attempting to write the nation and position himself as the nation s poet *National Register of Microform Masters* ,1976 The National Union Catalog ,1961 National Union Catalog ,1953 The British National Bibliography Arthur James Wells,2009
