National Interest In International Relations Theory:

The National Interest in International Relations Theory S. Burchill, 2005-05-11 This is the first systematic and critical analysis of the concept of national interest from the perspective of contemporary theories of International Relations including realist Marxist anarchist liberal English School and constructivist perspectives Scott Burchill explains that although commonly used in diplomacy the national interest is a highly problematic concept and a poor guide to understanding the motivations of foreign policy

Competition Laws, National Interests and International Relations Ko Unoki, 2019-10-28 Most of the competition laws currently enforced by states aim to protect consumer welfare and promote fair competition by regulating against anticompetitive behavior Yet despite the shared objectives the global community does not have a common global competition law In exploring the reasons for this this book takes a unique interdisciplinary approach by using international relations theories to illustrate the relationship between the enforcement of competition laws and international relations through an analysis of competition cases relating to cartels extraterritoriality and corporate mergers and acquisitions Through an examination of this relationship this book will consider why the views held by state leaders on the condition of international relations may at times lead them to either arbitrarily over enforce or disregard their competition laws to the detriment of fair competition and consumer welfare This book also provides suggestions for global business investors who face competition law issues on how they may accommodate such views

The Invention of International Relations Theory Nicolas Guilhot, 2011 The 1954 Conference on Theory sponsored by the Rockefeller Foundation featured a who's who of scholars and practitioners debating what would become the foundations of international relations theory Assembling his own team of experts the editor revisits a seminal event in the discipline

National Interests in International Society Martha Finnemore, 1996 How do states know what they want Asking how interests are defined and how changes in them are accommodated Martha Finnemore shows the fruitfulness of a constructivist approach to international politics She draws on insights from sociological institutionalism to develop a systemic approach to state interests and state behavior by investigating an international structure not of power but of meaning and social value An understanding of what states want she argues requires insight into the international social structure of which they are a part States are embedded in dense networks of transnational and international social relations that shape their perceptions and their preferences in consistent ways Finnemore focuses on international organizations as one important component of social structure and investigates the ways in which they redefine state preferences She details three examples in different issue areas In state structure she discusses UNESCO and the changing international organization of science In security she analyzes the role of the Red Cross and the acceptance of the Geneva Convention rules of war Finally she focuses on the World Bank and explores the changing definitions of development in the Third World Each case shows how international organizations socialize states to accept new political goals and new social values in ways that have lasting impact on the

conduct of war the workings of the international political economy and the structure of states themselves **International Relations Theory** Oliver Daddow, 2009-03-19 SAGE Course Companions provide students with an insider's guide into how to make the most of their undergraduate courses and extend their understanding of the key concepts covered. Ideal for anyone new to the study of international relations or looking for a refresher, this Course Companion includes a comprehensive introduction to the competing theories at the heart of the discipline as well as hints and tips on how to apply them when tackling coursework or examinations. Written in a straightforward and clear style, it is designed to augment rather than replace existing textbooks for the course and provides pointers to success in course exams and written assessment exercises. It offers easy access to the key theories in international relations, guidance on the essential study skills required to pass the course, help with developing critical thinking, and taking it further, sections that suggest how readers can extend their thinking beyond the received wisdom.

Statebuilding and Counterinsurgency in Oman James Worrall, 2014-02-21 In the depths of the Cold War and in the wake of Britain's announcement of its intention to withdraw East of Suez by the end of 1971, Britain was faced with the stark reality of a Marxist rebellion in the Dhofar province of Oman. This rebellion, whose explicit aim was to liberate the oil-rich Gulf region, confronted the British with the challenge of securing a political order in Oman conducive to protecting Britain's remaining interests in the midst of its military withdrawal from the region. *Statebuilding and Counterinsurgency in Oman* offers a nuanced picture of Britain's response to the challenges posed by this withdrawal through an examination of the complex Anglo-Omani relationship at this vital juncture in Middle East and Imperial History. James Worrall offers an examination of how officials in London and the Gulf defined British interests in Oman and the debates that raged throughout Whitehall under the successive governments led by Wilson and Heath about how to best tackle the growing insurgency in Oman. The means by which this challenge was to be met, including the extent of both overt and covert support for the Sultan in the post-Suez era, posed a number of challenges for decision makers in Whitehall. The military, economic, and diplomatic assistance given to the Omani government to re-establish Sultanate control and crush the rebellion in Dhofar is thus analysed within the context of a complex balancing act as British politicians and officials tried to reconcile their attempts to create effective and centralised Omani administration and security bodies whilst maintaining the image of strategic withdrawal and the sovereign independence of Oman. Drawing extensively from newly released archival records and interviews with former officials and high-ranking officers, this book provides a systematic re-examination of the Anglo-Omani relationship during the critical years of Oman's transformation into a modern state. It will therefore provide vital information and analysis for students and researchers of Middle East History and Politics, the decline and end of empire, and the policymaking processes at the heart of an imperial and military withdrawal.

National Interests and European Integration K. Milzow, 2015-12-11 This study combines an account of Blair, Chirac, Schröder, and their attitudes towards European integration. It analyzes political discourses on national interests and the EU, the frequently debated role of political

discourse the concept of national interest and offers an alternative point of view on intergovernmental interaction *The Fall and Rise of National Interest* Serena Giusti, 2022-10-31 This book intends to make NI more accessible and viable especially as a critical device for better understanding contemporary politics The purpose is to refresh the debate on NI and to explore this fascinating concept appreciating its multifaceted and malleable nature Throughout time NI has been presented as an ambiguous but obstinate concept in politics political discourse and theoretical elaboration NI has constantly resurfaced and many designate themselves as its protectors Its increasing relevance pertinence and recurrence make it clear that it can no longer be ignored in political analysis

Russian Foreign Policy and International Relations Theory
Christer Pursiainen, 2017-07-05 An original and challenging examination of how to transform post Sovietological study of Soviet and Russian foreign policy into a more integrated part of the Social Sciences and International Relations Theory This book represents the first detailed and sustained synthesis international relations theory and Soviet Russian foreign and security policy in academic literature

21st-Century Statecraft Nayef Al-Rodhan, 2022-07-28 From civilisational frontier risks associated with new challenges like disruptive technologies to the shifting nature of great power conflicts and subversion the 21st century requires a new approach to statecraft In *21st Century Statecraft* Professor Nayef Al Rodhan proposes five innovative statecraft concepts He makes the case for a new method of geopolitical analysis called meta geopolitics and for dignity based governance He shows how in an interdependent and interconnected world traditional thinking must move beyond zero sum games and focus on multi sum and symbiotic realist interstate relations This requires a new paradigm of global security premised on five dimensions of security and a new concept of power just power which highlights the centrality of justice to state interests These concepts enable states to balance competing interests and work towards what the author calls reconciliation statecraft Throughout Professor Al Rodhan brings his philosophical and neuroscientific expertise to bear providing a practical model for conducting statecraft in a sustainable way
