*Deterrence and Defense* Glenn Herald Snyder, 2015-12-08 In the literature of diplomacy and military strategy there has long been a gulf between the concepts of deterrence and defense Glenn Snyder bridges this gulf offering a systematic analysis of the two ideas with the aim of integrating them in a framework of theory He proposes criteria for making rational decisions in national security policy and deals with the critical

issue of the balance between deterrence of and defense against military attacks The author augments the scattered literature on the subject with original contributions on this increasingly important facet of international relations Originally published in 1961 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

*Focal Points in Negotiation* Rudolf Schuessler, Jan-Willem van der Rijt, 2019-12-05 *Focal Points in Negotiation* is the first work of its kind to analyze the use of focal points beyond the controlled setting of the laboratory or the stylized context of mathematical game theory in the real world of negotiation It demonstrates that there are many more ways focal points influence real life situations than the specific predetermined roles ascribed to them by game theory and rational choice The book establishes this by identifying the numerous different often decisive modes in which focal points function in the various phases of complex negotiations In doing so it also demonstrates the necessity of a thorough understanding of focal points for mediators negotiators and others A scholarly work in nature *Focal Points in Negotiation* is also suitable for use in the classroom and accessible for a multidisciplinary audience
