Poison Politics Are Negative Campaigns Destroying Democracy:

Poison Politics Victor Kamber, 1997-08-21 Every campaign season more trash talk and attack ads dominate the airwaves and more voters subsequently turn off to politics Why do so many races degenerate into name calling and negativism What is the effect on our democracy our ability to make the right political and policy choices **Poison Politics Are Negative Campaigns Destroying Democracy** tackles these vital questions **The Psychology of Attack Politics** Alessandro Nai, Lukas P.

Otto, Chiara Vargiu, 2025-07-25 **The Psychology of Attack Politics** explores the use of political attacks in election campaigns and the way in which their often deliberate use impacts voters and has wide reaching societal consequences With most elections being fraught with tension disrespectful treatment of political opponents and political incivility this timely book aims to disentangle the dynamics of how attack politics is perceived e g whether citizens perceive a negative message to be indeed negative and evaluated i e whether citizens like or dislike attack politics The book also looks at the effects of attack politics for instance whether exposure to negative or uncivil messages alters attitudes and behaviors such as turnout affective polarization and support for political violence The authors provide a systematic conceptualization of attack politics made up of negativity incivility and intolerance Focusing on cutting edge research in political psychology political communication and electoral behavior the authors make the central argument that to understand the effects of different forms of attack politics there should be a strong focus on individual differences in message perception and evaluation Exploring what ultimately drives the effects of negative uncivil and intolerant rhetoric and analyzing the phenomena at the center of current scientific and public discourse this is a fascinating reading for academics and students in psychology political science sociology and communication as well as anyone interested in political campaigning and elections

Rethinking Democratic Accountability Robert D. Behn, 2004-05-26 Traditionally American government has created detailed formal procedures to ensure that its agencies and employees are accountable for finances and fairness Now in the interest of improved performance we are asking our front line workers to be more responsive we are urging our middle managers to be innovative and we are exhorting our public executives to be entrepreneurial Yet what is the theory of democratic accountability that empowers public employees to exercise such discretion while still ensuring that we remain a government of laws How can government be responsive to the needs of individual citizens and still remain accountable to the entire polity In **Rethinking Democratic Accountability** Robert D Behn examines the ambiguities contradictions and inadequacies in our current systems of accountability for finances fairness and performance Weaving wry observations with political theory Behn suggests a new model of accountability with compacts of collective mutual responsibility to address new paradigms for public management **It Takes a Candidate** Jennifer L. Lawless, Richard L. Fox, 2005-09-12 **It Takes a Candidate** serves as the first systematic nationwide empirical account of the manner in which gender affects political ambition Based on data from the Citizen Political Ambition Study a national survey conducted on almost 3 800 potential

candidates we find that women even in the highest tiers of professional accomplishment are substantially less likely than men to demonstrate ambition to seek elected office Women are less likely than men to be recruited to run for office They are less likely than men to think they are qualified to run for office And they are less likely than men to express a willingness to run for office in the future This gender gap in political ambition persists across generations Despite cultural evolution and society's changing attitudes toward women in politics running for public office remains a much less attractive and feasible endeavor for women than men

Out of the Running Shauna Shames, 2018-07-03 An inside look into why Millennials are rejecting careers in politics and what this means for the future of America's political system Millennials are often publically criticized for being apathetic about the American political process and their lack of interest in political careers But what do millennials themselves have to say about the prospect of holding political office Are they as uninterested in political issues and the future of the American political system as the media suggests Out of the Running goes directly to the source and draws from extensive research including over 50 interviews with graduate students in elite institutions that have historically been a direct link for their graduates into state or federal elected office Harvard Law Harvard's Kennedy School of Government and Boston's Suffolk University Law School Shauna Shames herself a young graduate of Harvard University suggests that millennials are not uninterested rather they don't believe that a career in politics is the best way to create change Millennials view the system as corrupt or inefficient and are particularly skeptical about the fundraising frenzied media attention and loss of privacy that have become staples of the American electoral process They are clear about their desire to make a difference in the world but feel that the broken political system is not the best way to do so a belief held particularly by millennial women and women of color The implications of Shames argument are crucial for the future of the American political system how can a system adapt and grow if qualified intelligent leaders are not involved An engaging and accessible resource for anyone who follows American politics Out of the Running highlights the urgent need to fix the American political system as an absence of diverse millennial candidates leaves its future in a truly precarious position

Unfree Speech Samantha Sellinger, 2009-02-09 At a time when campaign finance reform is widely viewed as synonymous with cleaning up Washington and promoting political equality Bradley Smith a nationally recognized expert on campaign finance reform argues that all restriction on campaign giving should be eliminated In *Unfree Speech* he presents a bold convincing argument for the repeal of laws that regulate political spending and contributions contending that they violate the right to free speech and ultimately diminish citizens power Smith demonstrates that these laws which often force ordinary people making modest contributions of cash or labor to register with the Federal Election Commission or various state agencies fail to accomplish their stated objectives In fact they have worked to entrench incumbents in office deaden campaign discourse burden grassroots political activity with needless regulation and distance Americans from an increasingly professional detached political class Rather than attempting to plug loopholes in campaign finance law or instituting taxpayer financed campaigns Smith proposes a return to core First Amendment values of free speech and an unfettered right to engage in political activity Smith finds that campaign contributions have little corrupting effect on the legislature and shows that an unrestrained system of contributions and spending actually enhances equality More money not less is needed in the political system Smith concludes

Unfree Speech draws upon constitutional law and historical research to explain why campaign finance regulation is doomed and to illustrate the potentially drastic costs of efforts to make it succeed Whatever one thinks about the impact of money on electoral politics no one should take a final stand without reading Smith's controversial and important arguments *The Future of American Democracy* Glen Browder, 2002 Former congressman Browder is worried that the current trends of American democracy might result in a Union of Socialist States of America or worse He suggests that we're suffering from a cumulative distemper in which we may be tiring of America's historic Great Experiment He offers vague prescriptions about embarking on a National Democratic Renaissance and rediscovering the essence of our American nation Annotation copyrighted by Book News Inc Portland OR
