Democracy In Poland Raymond Taras, Marjorie Castle, 2018-02-19 Ever changing election rules a highly fluid party system a constitution considered illegitimate by more than one major political actor polarized political elites and a system of corruption that has grown up together with the young democracy itself these characterize contemporary Polish politics At the same time Poland is frequently identified as the most successful example of a transition from communism to capitalism having led this series of world changing transitions It has distanced itself from a turbulent history as pawn in Eastern Europe s international politics to become a leading candidate for membership in the exclusive European Union club As Polish democratic politics evolves it is taking unexpected forms and producing equally unexpected results Through a comprehensive analysis of politics in this young European democracy Marjorie Castle and Ray Taras explain the complexity and uncertainty of political processes and outcomes in Poland Poland spast the flawed Second Republic established after World War I as well as the imperfect independence in the Soviet shadow following World War II s devastation dramatizes the unique historic opportunity it was given in 1989 to determine its own political future and perhaps eventually become a major European power Choices made in 1989 and thereafter would not only construct a new democracy but shape and limit its possibilities The primary focus here is on contemporary politics what the fundamental political cleavages are whether parties adequately represent popular interests who the political elites are and what games they play what influence the Catholic Church still holds in an aspiring Western style secular republic and what policy challenges face Poland in the future

Inimitable political leaders changing political arenas and complex policy making processes come to life through a fascinating narrative characterized by an insider's insight *In Search of Civil Society* Vladimir Tismaneanu, 2014-02-04 First Published in 1990 Routledge is an imprint of Taylor Francis an informa company **Empowering Revolution** Gregory F. Domber, 2014 As the most populous country in Eastern Europe as well as the birthplace of the largest anticommunist dissident movement Poland is crucial in understanding the end of the Cold War During the 1980s both the United States and the Soviet Union vied for influence over Poland's politically tumultuous steps toward democratic revolution In this groundbreaking history Gregory F Domber examines American policy toward Poland and its promotion of moderate voices within the opposition while simultaneously addressing the Soviet and European influences on Poland's revolution in 1989 With a cast including Reagan Gorbachev and Pope John Paul II Domber charts American support of anticommunist opposition groups particularly Solidarity the underground movement led by future president Lech Wasa and highlights the transnational network of Polish emigres and trade unionists that kept the opposition alive Utilizing archival research and interviews with Polish and American government officials and opposition leaders Domber argues that the United States empowered a specific segment of the Polish opposition and illustrates how Soviet leaders unwittingly fostered radical pro democratic change through their policies The result is fresh insight into the global impact of the Polish pro democracy movement *Building Democracy* Geoffrey Pridham, Eric Herring, George Sanford, University of Bristol. Dept. of Politics, 1997-01-01 International factors have had a great effect upon the process of democratisation in Eastern Europe according to the contributors to this book Furthermore they maintain that the international dimension has not always been a favourable one *The Birth of Solidarity* A. Kemp-Welch, 2016-07-27 This book describes the origins and birth of Solidarity in 1980 its rebirth in 1989 and the formation of a Solidarity government This second edition is now enlarged to include fresh documentation of the 1980 strike a further memoir on the experts role behind the scenes and an entirely new chapter From Gdansk to Government Taken together the analysis and documentation provide a permanent record of Eastern Europe's first breakthrough into post communism **The Polish Revolution** Timothy Garton Ash, 2002-01-01 In 1980 workers in Gdansk won from their communist rulers the right to form independent trade unions In this eyewitness account Ash describes the defiance of the strikers the emergence of Lech Walesa and the declaration of martial law **The Dynamics of the Innovation Divide between China and Europe** Arkadiusz Michal Kowalski, 2022-03-13 This book examines the problem of the innovation divide in the world economy and convergence in innovation performance between leaders and followers analysed through the prism of Chinese experiences and explored from an European Union EU perspective The rationale for research conducted in this book is an observation of a significant change in the geography of world innovation reflected in the emergence of innovation hubs in developing countries and in the shift of manufacturing activity including high and medium high technology industries to emerging economies mainly China The book analyses the factors of Chinese innovation success in

recent decades such as China's science technology and innovation policy increased R D expenditures human capital development and the development of clusters and highly specialized industries It also focuses on the challenges for developed European economies which are being at risk of losing their knowledge related sources of competitive advantage It also offers recommendations for future policy actions The book's analysis goes beyond a cross country comparison taking into account a regional perspective The reason for this regional dimension is the increasingly recognized importance of proximity in stimulating innovation processes and an observed strong geographical polarization of innovation activity at specific regions seen in the emergence of clusters particularly visible in China The monograph will provide an up to date reference for academics and students across a variety of disciplines It will be of particular interest to researchers in the area of innovation and practitioners doing business in China as well as policymakers at international national and regional levels involved in designing and implementing innovation policy

Ecological Politics John Rensenbrink, 2016-11-21 Rejection of politics is deep and widespread Even sincere and responsible individuals who practice it hold their nose while doing so Yet politics must be practiced and well if the planet and the people are to survive A clue for our future success as a species lies in the fact that ecology has never really been tried in politics Yet ecology holds the secret of success for planet and people precisely in politics Deep in ecology is the astounding fact scientifically examined and attested to that we are already related Though taught by elite after elite that we are separate from nature and thus from everyone and everything this can now be seen as the great mistake and a perpetuated lie from generation to generation A new ontology of being related is the gateway of consciousness to a new and exciting politics for survival and democracy Waves of transformation lap at barriers in the political sphere But they are repulsed by an entrenched politics rooted not only in the greed and power hunger of a dominant few or in outmoded structures of economic and political power but in the old millennial ontology of being separate Our extraordinary times call for a new political party animated by the ecology of being related It is a party of a different kind one that frees itself from giant worldwide corporations is fully and overtly dedicated to non violence and rooted in the awareness that the people come first This party knows that elections must be fair and equal and must enable undistorted dialogue and that people in government must not only proclaim but practice the principle of being of for and by the people This book challenges The Green Party now on a footing in over 100 countries to be this party of a different kind
